**S. Fraser, K. Valentine**

## **Practices Of Freedom Writings On Hiv Disease:**

**Practices of Freedom** Simon Watney, 1994 Since the mid 1980s Britain's Simon Watney has been one of the leading voices in the international field of HIV/AIDS education. *Practices of Freedom* demonstrates the failure of national institutions from the government to the press to understand and effectively fight this epidemic. Watney directs attention to the most urgent needs in American and international AIDS work.

**A Genealogy of Queer Theory** William Benjamin Turner, 2000 Who are queers and what do they want? Could it be that we are all queers? Beginning with such questions, this book traces the roots of queer theory, examining the growing awareness that few people precisely fit standard categories for sexual and gender identities.

*Antiblack Racism and the AIDS Epidemic* A. Geary, 2014-05-14 *Anti Black Racism and the AIDS Epidemic* State Intimacies argues that racial disparities in HIV rates reflect the organization of racialized poverty and structural violence. Challenging the popular perception of HIV/black vulnerability to HIV in the US is shown to be created by the violent intimacy of the state.

*AIDS Narratives* Steven F. Kruger, 2013-10-28 This is the first book-length study of the rich fiction that has emerged from the AIDS crisis. Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men, part of a battle over masculinity and thus largely excluding women with AIDS from public attention, the book considers how such discourses have shaped narrative understandings of AIDS. On the one hand, AIDS is seen as an invariably fatal weakening of an individual's bodily defenses, a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness. On the other hand, AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness. The fiction of AIDS depends upon these two narratives, with one major subgenre of AIDS novel presenting narratives of personal illness, decline, and death, and a second focusing on epidemic spread. These novels also question the narrative structures upon which they depend, intervening particularly against the homophobia of those structures, though also sometimes reinforcing it.

*Dangerous Sexualities* Frank Mort, 2002-09-11 *Dangerous Sexualities* takes a look at how our ideas of health and disease are linked to moral and immoral notions of sex. Beginning in the 1830s, Frank Mort relates his social historical narratives to the sexual choices and possibilities facing us now. This long-awaited second edition has been thoroughly updated to include new discussions of eugenics, race, hygiene, and social imperialism in the late nineteenth and early twentieth centuries. With a new and extended bibliography, introduction, and illustrations, this second edition brings a classic into the 21st Century.

**Understanding Masculinities** Mac an Ghaill, Máirtín, 1996-03-01 Masculinity is gaining increasing popular and academic interest. At one level, football hooligans, absent fathers, Essex man, and new men are regular media presences. At the same time, masculinity is the subject of increasingly sophisticated theoretical discussion, and there are a wide range of accounts of what masculinity means. *Understanding Masculinities* is the first introductory text to examine the range of different theoretical and methodological approaches to the understanding of masculinity. It brings together overviews of the

key theoretical debates with new empirical material focusing on different social and cultural arenas and the wide range of masculinities which exist. It discusses education, unemployment, sport, sexuality, HIV, and black masculinities. *Understanding Masculinities* critically explores the gendered and sexual dynamics of these masculinities, challenging and transforming our conventional assumptions. *Understanding Masculinities* will be important reading for undergraduate and masters students of sociology, women's studies, gender, and psychology. It will also be of interest to anyone concerned with broadening their understanding of masculinity.

*Asian Video Cultures* Joshua Neves, Bhaskar Sarkar, 2017-11-16. The contributors to this volume theorize Asian video cultures in the context of social movements, market economies, and local popular cultures to complicate notions of the Asian experience of global media. Whether discussing video platforms in Japan and Indonesia, K-pop reception, videos, amateur music videos, circulated via microSD cards in India, or the censorship of Bollywood films in Nigeria, the essays trace the myriad ways Asian video reshapes media politics and aesthetic practices. While many influential commentators overlook, denounce, and trivialize Asian video, the contributors here show how it belongs to the shifting core of contemporary global media, thereby moving conversations about Asian media beyond static East-West imaginaries, residual Cold War mentalities, triumphalist declarations about resurgent Asia, and budding jingoisms. In so doing, they write Asia's vibrant media practices into the mainstream of global media and cultural theories while challenging and complicating hegemonic ideas about the global, as well as digital media.

*The Body of This Death*, 1996. Tanizaki Jun-ichiro is read to examine historiographical representation and to consider the possibilities of the parodic as a fundamentally perverse, queer practice. Finally, a study of selected essays by Sue Golding points a way to think toward the necessary conjunction of the ethical, the political, and the perverse in order that is to say, to think toward a politics of inconsolable perversity.

BOOK JACKET *AIDS in the UK* Virginia Berridge, 1996-03-29. Fifteen years ago, the AIDS epidemic did not exist on the public agenda. In just over a decade, the public and official response to the disease has resulted in the development of a whole network of organizations devoted to the study, containment, and practical treatment of AIDS. In this important and original analysis of AIDS policy, Virginia Berridge examines the speed and nature of the official and unofficial response to this new and critical historical event. The policy reaction in Britain passed through three stages. From 1981-1986, the outbreak of a new contagious disease led to public alarm and social stigmatization with a lack of scientific certainty about the nature of the disorder. AIDS was a new and open policy area; there were no established departmental, local, or health authority mechanisms for dealing with the problem. This was a period of policy development from below, with relatively little official action and many voluntary initiatives behind the scenes. This phase was succeeded in 1986-1987 by a brief stage of quasi-war-time emergency in which national politicians and senior civil servants intervened, and a high-level political response

emerged The response was a liberal one of safe sex and harm minimization rather than draconian notification or isolation of carriers The author demonstrates that despite the Thatcher revolution in government in the 1980s crisis could still stimulate a consensual response The current period of normalization of the disease sees panic levels subsiding as the rate of growth slows and the fear of the unknown recedes Official institutions have been established and formal procedures adopted and reviewed paid professionals have replaced the earlier volunteers The 1990s have seen change in the liberal consensus towards a harsher response and the partial repoliticization of AIDS In this fascinating and scholarly account Virginia Berridge analyses a remarkable period in contemporary British history and exposes the reaction of the British political and medical elites and of the British public to one of the most challenging issues of this century

**The Discourse of HIV/AIDS in Africa**, 2003      **Sexuality and the Sacred, Second Edition** Marvin M. Ellison, Kelly Brown Douglas, 2010-09-21

Christian discourse on sexuality spirituality and ethics has continued to evolve since this book's first edition was published in 1994 This updated and expanded anthology featuring more than thirty contemporary essays includes more theologians and ethicists of color and addresses issues such as the intersection of race racism and sexuality transgender identity same sex marriage and reproductive health and justice

*Subalternity and Difference* Gyanendra Pandey, 2013-03 Focusing on concepts that have been central to investigation of the history and politics of marginalized and disenfranchised populations this book asks how discourses of subalternity and difference simultaneously constitute and interrupt each other The authors explore the historical production of conditions of marginality and minority and challenge simplistic notions of difference as emanating from culture rather than politics They return thereby to a question that feminist and other oppositional movements have raised of how modern societies and states take account of and manage social economic and cultural difference The different contributions investigate this question in a variety of historical and political contexts from India and Ecuador to Britain and the USA The resulting study is of invaluable interest to students and scholars in a wide range of disciplines including History Anthropology Gender and Queer and Colonial and Postcolonial Studies

Substance and Substitution S. Fraser, K. Valentine, 2008-03-27 Located between three powerful phenomena public health the law and social stigma methadone maintenance treatment attracts loyal advocates vociferous critics and innumerable engaged onlookers This book aims to examine the controversial approach to addiction providing in the process a unique approach to literature on illicit drugs

**Moral Panics, Sex Panics** Gilbert Herdt, 2009-06-01 Finalist for 2010 LGBT Anthology Award from the Lambda Literary Awards Unwed teen mothers abortion masturbation pornography gay marriage sex trafficking homosexuality and HIV are just a few in a long line of issues that have erupted into panics These sexual panics spark moral crusades and campaigns defining and shaping how we think about sexual and reproductive rights The essays in *Moral Panics Sex Panics* focus on case studies ranging from sex education to AIDS to race and the down low to illustrate how sexuality is at the heart of many political controversies The contributors also reveal how moral and sexual panics have become a

mainstay of certain kinds of conservative efforts to win elections and gain power in moral social and political arenas Moral Panics Sex Panics provides new and important insights into the role that key moral panics have played in social processes arguing forcefully against the political abuse of sex panics and for the need to defend full sexual and reproductive rights Contributors Cathy J Cohen Diane DiMauro Gary W Dowsett Janice M Irvine Carole Joffe and Saskia Eleonora Wieringa

The Circuit of Mass Communication David Miller,1998-01-28 This book moves beyond the narrow focus of much of the work on media and cultural studies to examine the whole process of interaction between the media and the social world Rejecting approaches which focus only on ownership or discourse or audience reception this new book from the Glasgow Media Group examines promotional strategies media production representation and audience responses as well as broader impacts on policy culture and society Using a detailed analysis of the struggle over representation during the AIDS crisis as point of departure The Circuit of Mass Communication reveals the power of the media to influence public opinion and the complex interaction between media coverage audience response *Civic Engagement and Technical Communication* James M. Dubinsky,J. Harrison Carpenter,2023-04-14 This special issue on civic engagement and technical communication focuses on the ways educators can help students become actively engaged members of society particularly a rhetorical democracy The first essay examines the concept of community as a locus for civic engagement and question some of the definitions of community seen embedded in current pedagogical practices The next article seeks to shape understanding of practice The tension of developing students civic awareness and engagement is the topic of the third paper The fourth article helps students gain skills and organization awareness and improves the perceived relevance of the work The final two essays approach the issue of civic engagement from slightly different angles one examining the role of teacher as both rhetor and instructor and the other looking to the past for possible solutions for the future By continuing the conversation about the relationship between technical communication and the public good and focusing specifically on pedagogical strategies and their theoretical and historical underpinnings the authors in this special issue clarify roles that technical communication and technical communicators play in civil society as well as ways curricula can be shaped to prepare students to fill those roles

**Imagine Hope** Simon Watney,2002-09-11 Presents a chronological selection of Watney s writings from the 1990s with new contextualising introductory and concluding essays and offers a chronicle of the changing and often confusing course of the epidemic *Of Borders and Thresholds* Michal Kobialka,1999 The theatre is full of borders and boundaries between the real and illusionary conditions of the stage between the way one acts onstage and in real life between stage and audience performance and reception As such theatre offers a unique opportunity to examine the construction representation and functioning of borders This is the task undertaken by the authors of this volume the first to apply the lexicon and concepts of border theory to theatre history and performance theory The contributors highly regarded theatre historians theorists and practitioners address a wide range of border related themes Their topics include the construction of America in the sixteenth

century theatre practices in eighteenth century England American Latino playwrights performances of gender and sexuality cyborg technologies and fashion     Fear Robert Peckham, 2023-09-07 Extraordinary Ai Weiwei Brilliant Simon Schama Fear has long been a driving force perhaps the driving force of world history a coercive tool of power and a catalyst for radical change Here Robert Peckham traces its transformative role over a millennium from fears of famine and war to anxieties over God disease technology and financial crises In a landmark global history that ranges from the Black Death to the terror of the French Revolution the AIDS pandemic to climate change Peckham reveals how fear made us who we are and how understanding it can equip us to face the future     **Arts-Based Research and the Practice of Freedom in Education**
