Pragmatic Plagiarism Marilyn Randall, 2001-01-01 In this illuminating study Marilyn Randall takes on the question of why some cases of literary repetition become great art while others are relegated to the ignominy of plagiarism Her discussion reveals that plagiarism is not the objective textual fact it is often taken for but a phenomenon governed by the norms and conventions of literary reception Randall turns her focus on the critical debates surrounding cases of perceived plagiarism Charting the progress of plagiarism in the history of Western letters her study ranges over centuries from the notion's first appearance in Roman times to contemporary disputes about intellectual property Randall considers the development of copyright law and the notion of authorship presents a wide range of texts and draws aptly on Foucault's notion of the discursive construction of authorship Just as Foucault studied insanity to find out what was meant by sanity says Randall so the study of plagiarism can reveal what was meant by the term literary at various cultural moments She shows that perceived instances of plagiarism are aspects of an ongoing power struggle in the literary field And as she reveals it is not the plagiarist but the accuser who is most concerned with achieving profit and power *Copyright and Piracy* Lionel Bently, Jennifer Davis, Jane C. Ginsburg, 2010-10-28 An understanding of the changing nature of the law and practice of copyright infringement is a task too big for lawyers alone it requires additional inputs from economists historians technologists sociologists cultural theorists and criminologists Where is the boundary to be drawn between illegal imitation and legal inspiration Would the answer be different for creators artists and experts from different disciplines or fields How have concepts of copyright infringement altered over time and how do such changes relate if at all to the cultural norms operating amongst creators in different fields With such an approach one might perhaps begin to address the vital and overarching question of whether strong copyright laws rigorously enforced impede rather than promote creativity And what can be done to avoid any such adverse consequences while maintaining the effectiveness of copyright as an incentive mechanism for those who need it *The Pragmatics of Literary Testimony* Chantelle Warner, 2013 In this book Warner examines a number of German language literary autobiographies that are connected to diverse social movements of the last forty years These books have all received critical attention from the popular press topped bestseller lists and have been pivotal in discussions of authenticity subjectivity and referentiality Because of the thematic diversity of these works scholars within literary and cultural studies have tended to treat them separately under topical categories such as women's literature the post war generation migration and multiculturalism etc Underlying Warner's analysis is the belief that the social construction of autobiographical acts is as much a matter of textuality as it is of topicality i.e. how language means rather than what it means and that a pragmatic stylistic approach is well suited to describing how literary autobiographies come to function as testimonies to certain collective experiences By presenting a model for an integrative stylistics approach *The Pragmatics of Literary Testimony* participates in current discussions within fields of literary linguistic scholarship as well as

autobiographical theory In its analysis of key examples of German social testimonies from the late twentieth century this book incorporates insights from discourse analysis pragmatics cognitive poetics and sociolinguistics in order to demonstrate that this diverse body of works constitutes a particular form of textual practice defined by what the author calls authenticity effects feelings of realism immediacy exemplarity genuineness and social relevance Such a study of authenticity as a poetic effect can help us to better understand the testimonial glamour owned by various types of autobiographical narration

**Copyright, Communication and Culture** Carys J. Craig, 2011 In this provocative book Carys Craig challenges the assumptions of possessive individualism embedded in modern day copyright law arguing that the dominant conception of copyright as private property fails to adequately reflect the realities of cultural creativity Employing both theoretical argument and doctrinal analysis including the novel use of feminist theory the author explores how the assumptions of modern copyright result in law that frequently restricts the kinds of expressive activities it ought to encourage In contrast Carys Craig proposes a relational theory of copyright based on a dialogic account of authorship and guided by the public interest in a vibrant participatory culture Through a critical examination of the doctrines of originality and fair dealing as well as the relationship between copyright and freedom of expression she explores how this relational theory of copyright law could further the public purposes of the copyright system and the social values it embodies This unique and insightful study will be of great interest to students and scholars of intellectual property communications cultural studies feminist theory and the arts and humanities

**Ethics and Aesthetics of Translation** Harriet Hulme, 2018-11-19 Ethics and Aesthetics of Translation engages with translation in both theory and practice as part of an interrogation of ethical as well as political thought in the work of three bilingual European authors Bernardo Atxaga Milan Kundera and Jorge Sempr n In approaching the work of these authors the book draws upon the approaches to translation offered by Benjamin Derrida Ric ur and Deleuze to highlight a broad set of ethical questions focused upon the limitations of the monolingual and the democratic possibilities of linguistic plurality upon our innate desire to translate difference into similarity and upon the ways in which translation responds to the challenges of individual and collective remembrance Each chapter explores these interlingual but also intercultural interrelational and interdisciplinary issues mapping a journey of translation that begins in the impact of translation upon the work of each author continues into moments of linguistic translation untranslatability and mistranslation within their texts and ultimately becomes an exploration of social political and affective untranslatability In these journeys the creative and critical potential of translation emerges as a potent often violent but always illuminating vision of the possibilities of differentiation and connection generation and memory in temporal linguistic cultural and political terms

**No Trespassing** Eva Hemmungs Wirtén, 2004-12-15 In this scholarly yet highly accessible work Eva Hemmungs Wirtén traces three main themes within the scope of cultural ownership authorship as one of the basic features of print culture the use of intellectual property rights as a privileged instrument of control and finally globalization as a pre condition under

which both operate Underwritten by rapid technological change and increased global interdependence intellectual property rights are designed to protect a production that is no longer industrial but informational No Trespassing tells the story of a century of profound change in cultural ownership It begins with late nineteenth century Europe exploring cultural ownership in a number of settings across both spatial and temporal divides and concludes in today s global knowledge based society Wirt n takes an interdisciplinary and international approach using a wide array of material from court cases to novels for her purposes From Victor Hugo and the 1886 Berne Convention to the translation of Peter Heg s bestseller Smilla s Sense of Snow Wirt n charts a history of Intellectual property rights and regulations She addresses the relationship between author and translator looks at the challenges to intellectual property by the arrival of the photocopier takes into account the media conglomerate s search for content as a key asset since the 1960s and considers how a Western legal framework interacts with attempts to protect traditional knowledge and folklore No Trespassing is essential reading for all who care about culture and the future regulatory structures of access to it The Global Histories of Books Elleke Boehmer,Rouven

Kunstmann,Priyasha Mukhopadhyay,Asha Rogers,2017-07-26 This book is an edited volume of essays that showcases how books played a crucial role in making and materialising histories of travel scientific exchanges translation and global markets from the late eighteenth century to the present While existing book historical practice is overly dependent on models of the local and the national we suggest that approaching the book as a cross region travelling and therefore global object offers new approaches and methodologies for a study in global perspective By thus studying the book in its transnational and inter imperial textual inter textual and material dimensions this collection will highlight its key role in making possible a global imagination shaped by networks of print material readers publishers and translators **Transforming Memories in**

Plate,2010-12-08 Including topics as diverse as feminism and its relationship to the marketplace plagiarism and copyright silence and forgetting and myth in a digital age this book explores the role of rewriting within feminist literature from the 1970s onwards in relation to the theme of cultural memory The Evolution of Editorial

Style in Early Modern England Jocelyn Hargrave,2019-09-19 This book provides a historical study on the evolution of editorial style and its progress towards standardisation through an examination of early modern English style guides The text considers the variety of ways authors editors and printers directly implemented or uniquely interpreted and adapted the guidelines of these style guides as part of their inherently human editorial practice Offering a critical mapping of early modern style guides Jocelyn Hargrave explores when and how style guides originated how they contributed to the evolution of editorial practice and how they impacted the overall publishing of content **Cultural Control and Globalization in**

**Asia** Laikwan Pang,2007-05-07 This is a succinct and well written book introducing a truly interdisciplinary approach to the study of copyright and related issues in contemporary popular culture in relation to the current development of Asian cinema and questions how copyright is appropriated to regulate culture It examines the many meanings and practices pertaining to

copying in cinema demonstrating the dynamics between globalization's desire for cultural control and cinema's own resistance to such manipulation Focusing on the cinema of China Taiwan and Hong Kong and film piracy in these countries the book argues that ideas of cultural ownership and copyright are not as clear cut as they may at first seem and that copyright is used as a means through which cultural control is exercised by the cultural big business of the dominant power

**This Is Not a Copy** Kaja Marczewska,2018-02-22 In *This Is Not a Copy* Kaja Marczewska identifies a characteristic copy paste tendency in contemporary culture a shift in attitude that allows reproduction and plagiarizing to become a norm in cultural production This inclination can be observed in literature and non literary forms of writing at an unprecedented level as experiments with text redefine the nature of creativity Responding to these transformations Marczewska argues that we must radically rethink our conceptions of artistic practice and proposes a move away from the familiar categories of copying and originality creativity and plagiarism in favour of the notion of iteration Developing the new concept of the Iterative Turn *This Is Not a Copy* identifies and theorizes the turn toward ubiquitous iteration as a condition of text based creative practices as they emerge in response to contemporary technologies Conceiving of writing as iterative invites us to address a set of new critical questions about contemporary culture Combining discussion of literature experimental and electronic writing mainstream and independent publishing with debates in 20th and 21st century art contemporary media culture transforming technologies and copyright laws *This Is Not a Copy* offers a timely and urgently needed argument introducing a unique new perspective on practices that permeate our contemporary culture      **Literature as Communication** Roger D. Sell,2000

This book offers foundations for a literary criticism which seeks to mediate between writers and readers belonging to different historical periods or social groupings This makes it among other things a timely intervention in the postmodern culture wars though the theory put forward will be of interest not only to students of literature and culture but also to linguists Sell describes communication in general as strongly interactive as very much affected by the disparate situationalities of sending and receiving yet as by no means completely determined by them Seen this way men and women

are both social beings and individuals capable of empathizing with sociohistorical formations which are alien to them sometimes even to the extent of changing their own life world By treating literary activity as communicational in this same dynamic sense Sell radically modifies the main paradigms of twentieth century literary theory casting much new light on questions of genre interpretation affect and ethics

**Kathy Acker and Transnationalism** Polina Mackay, Kathryn Nicol, 2009-03-26 Since Kathy Acker's death in 1997 the body of critical work on her fiction has continued to grow and even to flourish The continuing critical attention that her work has received is testament both to the complexity and intellectual scope of her many artistic and critical projects and to the continuing relevance of her concerns and ambitions in the recent and contemporary world a world that her fictions prefigure and interrogate in ways that we perhaps could not have recognized during her lifetime This collection of essays provides readers with access to a range of critical and theoretical essays that present a detailed analysis of transnationalism in Kathy Acker's fiction A wider aim of this book is to locate Acker's work in the context of current debates on transnationalism postnationalism and global identity Kathy Acker and Transnationalism therefore constitutes a timely re appraisal of an important American writer and a contribution to the growing field of studies in transnationalism
