Prairie Firestorm:

The Chinchaga Firestorm Cordy Tymstra, 2015-08-16 In 1950 the biggest firestorm documented in North America one fire alone burned 3 500 000 acres of boreal forest in northern Alberta and British Columbia created the world's largest smoke layer in the atmosphere The smoke travelled half way around the northern hemisphere and made the moon and sun appear blue The Chinchaga Firestorm is an historical study of the effects of fire on the ecological process Using technical explanations and archival discoveries the author shows the beneficial yet destructive effects of many forest fires including the 2011 devastation of Slave Lake Alberta Cordy Tymstra tells the stories of communities and individuals as their lives intersected with the path of the Chinchaga River Fire stories that demonstrate people's spirit resourcefulness self sufficiency and their persistence in the struggle against nature's immense power The 1950 event changed the way these fires are fought in Alberta and elsewhere The Chinchaga Firestorm will appeal to wildland fire scientists foresters forest ecologists and policy makers as well as those who are interested in western Canadian history and ecology Foreword by Mike Flannigan

Firestorm at Peshtigo Denise Gess, William Lutz, 2002-08-02 Documents the conflagration that swept through Peshtigo Wisconsin on October 8 1871 the same night as the Great Chicago Fire incinerating more than 2 400 square miles of land and killing more than two thousand people *The River Returns* Christopher Armstrong, Matthew Evenden, H.V. Nelles, 2009-10-14 Alberta's iconic river has been dammed and plumbed made to spin hydro electric turbines and used to cleanse Calgary Artificial lakes in the mountains rearrange its flow downstream weirs and ditches divert it to irrigate the parched prairie Far from being wild the Bow is now very much a human product its fish are as manufactured as its altered flow changed water quality and newly stabilized and forested banks The River Returns brings the story of the Bow River's transformation full circle through an exploration of the recent revolution in environmental thinking and regulation that has led to new limits on what might be done with and to the river Rivers have been studied from many perspectives but too often the relationship between nature and people between rivers and the cultures that have grown up beside them have been separated The River Returns illuminates the ways in which humans both inadvertently and consciously have interacted with nature to make the Bow *Firestorm* Edward Struzik, 2017-10-05 Frightening Firestorm comes alive when Struzik discusses the work of offbeat scientists New York Times Book Review Comprehensive and compelling Booklist A powerful message Kirkus Should be required reading Library Journal For two months in the spring of 2016 the world watched as wildfire ravaged the Canadian town of Fort McMurray Firefighters named the fire the Beast It acted like a mythical animal alive with destructive energy and they hoped never to see anything like it again Yet it's not a stretch to imagine we will all soon live in a world in which fires like the Beast are commonplace A glance at international headlines shows a remarkable increase in higher temperatures stronger winds and drier lands a trifecta for igniting wildfires like we've rarely seen before This change is particularly noticeable in the northern forests of the United States and Canada These forests require fire to maintain

healthy ecosystems but as the human population grows and as changes in climate animal and insect species and disease cause further destabilization wildfires have turned into a potentially uncontrollable threat to human lives and livelihoods Our understanding of the role fire plays in healthy forests has come a long way in the past century Despite this we are not prepared to deal with an escalation of fire during periods of intense drought and shorter winters earlier springs potentially more lightning strikes and hotter summers There is too much fuel on the ground too many people and assets to protect and no plan in place to deal with these challenges In Firestorm journalist Edward Struzik visits scorched earth from Alaska to Maine and introduces the scientists firefighters and resource managers making the case for a radically different approach to managing wildfire in the 21st century Wildfires can no longer be treated as avoidable events because the risk and dangers are becoming too great and costly Struzik weaves a heart pumping narrative of science economics politics and human determination and points to the ways that we and the wilder inhabitants of the forests around our cities and towns might yet flourish in an age of growing megafires

Crusade Against Slavery Kurt E. Leightle, Bruce G. Carveth, 2011-05-18 Edward Coles was a wealthy heir to a central Virginia plantation an ardent emancipator the second governor of Illinois the loyal personal secretary to President James Madison and a close antislavery associate of Thomas Jefferson Yet never before has a full length book detailed his remarkable life story and his role in the struggle to free all slaves In Crusade Against Slavery Kurt E Leightle and Bruce G Carveth correct this oversight with the first modern and complete biography of a unique but little known and quietly influential figure in American history Rejecting slavery from a young age Coles s early wishes to free his family s slaves initially were stymied by legal practical and family barriers Instead he went to Washington D C where his work in the White House was a life changing blend of social glitter secretarial drudge and distasteful political patronage Returning home he researched places where he could live out his ideals After considerable planning and preparation he left his family s Virginia tobacco plantation in 1819 and started the long trip west to Edwardsville Illinois pausing along the Ohio River on an emotional April morning to free his slaves and offer each family 160 acres of Illinois land of their own Some continued to work for Coles while others were left to find work for themselves This book revisits the lives of the slaves Coles freed including a noted preacher and contributor to the founding of what is now the second oldest black Baptist organization in America Crusade Against Slavery details Coles s struggles with frontier life and his surprise run and election to the office of Illinois governor as well as his continuing antislavery activities At great personal cost he led the effort to block a constitutional convention that would have legalized slavery in the state which resulted in an acrimonious civil suit brought on by his political enemies who claimed he violated the law by not issuing a bond of emancipation for his slaves Although initially convicted by a partisan jury Coles was vindicated when the Illinois Supreme Court overturned the decisions of the lower courts Through the story of Coles s moral and legal battles against slavery Leightle and Carveth unearth new perspectives on an institution that was on unsure footing yet strongly ingrained in the business interests at the economic

base of the fledgling state In 1831 after less than a decade in Illinois and after losing a bid for Congress Coles left for Philadelphia where he remained in correspondence with Madison about the issue of slavery Drawing on previous incomplete treatments of Coles s life including his own short memoir *Crusade Against Slavery* includes the first published analysis of Madison s failure to free his slaves despite his plans to do so through his will and a fascinating exploration of Coles s struggle to understand Madison s inability to live up to the ideals both men shared

Fire Eaters Peter Pigott,2025-04-29 The riveting history of how aircraft have transformed the fighting of wildfires Throughout history when threatened by wildfires our only defense was to pray for rain and run until aircraft changed the way we fight fires Beginning with the Canadian H Boats in 1924 aircraft have become indispensable in detecting and extinguishing wildfires *Fire Eaters* tells the incredible stories of the Ontario Provincial Air Service the first government aerial fire suppression organization in history one of its pilots Carl Crossley who invented the water scoop up and drop off system and the Canadair CL 215 the first purpose built water bomber Today helicopters with Bambi Buckets and snorkels can dump water while hovering directly over the flames and Air Tractors and Dash 8 400AT air tankers not only perform a crucial role in saving communities but also protect our ecosystem Satellites unmanned aircraft able to fly for sixteen hours even overnight when manned aircraft do not and artificial intelligence already play a decisive role in fire management But it is the men and women of the aerial fire service who have really changed the way we fight fire around the world Their bravery and dedication mean that response times are fast fires can be contained sooner and people have the chance to save rather than lose everything

Exceptional People Thomas Nathan Tomlinson,2021-06-11 In 1841 several groups of people want to be the first to take a wagon train to California Each of the small groups assume they are the only people making plans for such a trip Father Joseph McCoy is the leader of one of the small groups planning the trip to California His people have an edge on the others because of their famous mountain man and guide Another of the small groups is led by a committee of highly ambitious men organized under the name of the Western Immigration Association They have an edge on the others because of their meticulous planning and organization Rufus Kelsey is the leader of another of the small groups He is the head of a rough and tough hillbilly clan and their edge on the others comes from their reckless desperation All these people mix and match on the way to California Romance and adventure can be found in every wagon as these people from all walks of life face one test after another in their quest to live the American dream Throw in a herd of cattle traveling with one of the wagon trains and you have a powerful story of men and women willing to face unknown hardship in order to find happiness and prosperity Their story is one of steamy romance and raw courage that brings the settling of the west to life At its simplest form this book is the story of a small group of exceptional people

The Lumberjacks Donald MacKay,2007-05-15 Short listed for the 1978 Governor General s Award for Non Fiction The 19th century spawned a unique breed of men who took pride in their woodsmen skills and rough codes of conduct They called themselves lumberers shantymen timber beasts les bucherons and more recently

lumberjacks working in the vast forests of eastern Canada and British Columbia Across the country farm boys would go to the woods lumbering being the only winter work available Immigrants Swedes and Finns more often than not resumed the trades they had learned so well in the forests of northern Europe They broke the cold hard monotony of camp life with songs tall tales and card games Within these pages author Donald MacKay allows us a glimpse into that moment in our heritage when men entered the virgin forest to carve out an industry from the seemingly endless array of pine spruce maple and balsam fir found there

The Rotarian, 1998-06 Established in 1911 The Rotarian is the official magazine of Rotary

International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine The Mysteries of New Orleans Baron Ludwig von Reizenstein,2003-05-22 One of the most scandalous books published in America at the time Reizenstein s peculiar vision of New Orleans is worth resurrecting precisely because it crossed the boundaries of acceptable taste in nineteenth century German America and squatted firmly on the other side This work makes us realize how limited our notions were of what could be conceived by a fertile American imagination in the middle of the nineteenth century from the Introduction by Steven Rowan A lost classic of America s neglected German language literary tradition The Mysteries of New Orleans by Baron Ludwig von Reizenstein first appeared as a serial in the Louisiana Staats Zeitung a New Orleans German language newspaper between 1854 and 1855 Inspired by the gothic urban mysteries serialized in France and Germany during this period Reizenstein crafted a daring occult novel that stages a frontal assault on the ethos of the antebellum South His plot imagines the coming of a bloody retributive justice at the hands of Hiram the Freemason a nightmarish 200 year old proto Nietzschean superman for the sin of slavery Heralded by the birth of a black messiah the son of a mulatto prostitute and a decadent German aristocrat this coming revolution is depicted in frankly apocalyptic terms Yet Reizenstein was equally concerned with setting and characters from the mundane to the fantastic The book is saturated with the atmosphere of nineteenth century New Orleans the amorous exploits of its main characters uncannily resembling those of New Orleans leading citizens Also of note is the author s progressively matter of fact portrait of the lesbian romance between his novel s only sympathetic characters Claudine and Orleana This edition marks the first time that The Mysteries of New Orleans has been translated into English and proves that 150 years later this vast strange and important novel remains as compelling as ever **Trailsmen #245, The;** Jon Sharpe,2002-03-01 Skye Fargo faces the fury of a killer clan in the lethal Lone Star State After Fargo trades lethal lead with a Texas prairie punk he finds himself the target of the dead man s kinfolk and they re aimin to hang his hide no matter what **Full Circle: Death and Resurrection In Canadian Conservative Politics** Bob Plamondon,2014-11-21 Full Circle tells the dramatic story of how the Canadian conservative movement was fractured in the 1990s and how it was restored to glory and was returned to power in 2006 It recounts the humiliating defeat of the Progressive Conservative Party the rise of the Reform Party and a decade long sojourn for conservatives in the political wilderness It lays out step by step the strokes and counterstrokes the promises made and broken the betrayals and defections within a movement riven by faction Based on meticulous background research and interviews with the key players Full Circle takes the reader behind the scenes in a high octane expos of political machination intrigue and the ultimate battle for survival and supremacy Sweeping in its breadth and scope captivating in its detail Full Circle is the definitive account of this unprecedented period in Canadian political history Even those involved in conservative politics will be shocked by the startling revelations and debunking of popular myths The death and resurrection

of Canada's conservative political movement over the past two decades is a story that has never been told from beginning to end until now

The Insubordinate and the Noncompliant Howard Coombs, 2008-03-28 The Unwilling and the Reluctant Theoretical Perspectives on Disobedience in the Military and The Apathetic and the Defiant Case Studies of Canadian Mutiny and Disobedience 1812 1919 are the first two volumes in a series devoted to disobedience issues in the Canadian military Now with The Insubordinate and the Noncompliant the trilogy is complete Military leadership has both formal and informal dimensions The formal leadership of any organization must ensure that it minimizes the divergence between institutional aims and the actions of informal leaders When this separation occurs the result is sometimes mutiny These incidents of insubordination and noncompliance represent a form of dialogue between military personnel and their leadership The Insubordinate and the Noncompliant offers a perspective on the Canadian experience with military mutiny in the twentieth century in an effort to provide relevant lessons for today
