Johnson,Felicia McMahon,2012-10-12 A groundbreaking collection of essays on a hitherto underexplored subject that challenges the existing stereotypical views of the trivial and innocent nature of children's culture this work reveals for the first time the artistic and complex interactions among children Based on research of scholars from such diverse fields as American studies anthropology education folklore psychology and sociology this volume represents a radical new attempt to redefine and reinterpret the expressive behaviors of children The book is divided into four major sections history methodology genres and setting with a concluding chapter on theory Each section is introduced by an overview by Brian Sutton Smith The accompanying bibliography lists historical references through the present representing works by scholars for over 100 years **Translating Canada** Luise von Flotow,Reingard M. Nischik,2007-10-25 In the last thirty years of the twentieth century Canadian federal governments offered varying degrees of support for literary and other artistic endeavour A corollary of this patronage of culture at home was an effort to make the resulting works available for audiences elsewhere in the world Current developments in the study of translation and its influence as cultural transfer have made possible new assessments of such efforts to project a national image abroad Translating Canada examines cultural materials exported by Canada in addition to those selected for acquisition by German publishers theatres and other culture brokers It also considers the motivations of particular translators and the reception by German reviewers of works by a wide variety of Canadian writers novelists and poets playwrights and children's authors literary and social critics Above all the book maps for its readers a number of significant though frequently unsuspected roles that translation assumes in the intercultural negotiation of national images and values The chapters in this collection will be of value to students teachers and scholars in a number of fields Informed lay readers too will appreciate the authors insights into the different ways in which translation has contributed to German reception of Canadian books and culture **The Saturday Evening Post**,1906 *Major Authors and Illustrators for Children and Young Adults* Laurie Collier,Joyce Nakamura,1993 Contains updated and revised sketches on nearly 800 of the most widely read authors and illustrators appearing in Gale's Something about the author series **Picturing Canada** Gail Edwards,Judith Saltman,2014-07-31 The study of children's illustrated

books is located within the broad histories of print culture publishing the book trade and concepts of childhood An interdisciplinary history *Picturing Canada* provides a critical understanding of the changing geographical historical and cultural aspects of Canadian identity as seen through the lens of children's publishing over two centuries Gail Edwards and Judith Saltman illuminate the connection between children's publishing and Canadian nationalism analyse the gendered history of children's librarianship identify changes and continuities in narrative themes and artistic styles and explore recent changes in the creation and consumption of children's illustrated books Over 130 interviews with Canadian authors illustrators editors librarians booksellers critics and other contributors to Canadian children's book publishing document the experiences of those who worked in the industry An important and wholly original work *Picturing Canada* is fundamental to our understanding of publishing history and the history of childhood itself in Canada Transactions of the Wisconsin Academy of Sciences, Arts, and Letters Wisconsin Academy of Sciences, Arts, and Letters, 1921 Vols for 1870-72 1926 include Proceedings and List of members of the academy **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States. Internal Revenue Service, 2002 **The Voice of the Narrator in Children's Literature** Charlott Otten, Gary D. Schmidt, 1989-06-26 As Otten and Schmidt note in their preface voice is a broad metaphor Thus the 41 essays in this collection provide varied approaches examining point of view focus selection of details tone and even illustrations as part of the narrative identity Eight genres including picture books fantasy realism and biography receive separate study in generally brief articles by writers and more substantial analyses by critics In her contribution Jill Paton Walsh describes contemporary criticism as an impenetrable thicket of technical terms In most cases the critics here avoid jargon They speak clearly offering practical criticism accessible to anyone seriously concerned about narrative technique in children's literature Choice Although children's literature is now a recognized branch of English and American literature much of the criticism of it has focused on teaching methodology history and basic exposition Since children's books are no less a part of the literary tradition than adult books there is room for new approaches to children's literature While the importance of the voice of the narrator is emerging in criticism of adult fiction poetry and nonfiction little has been written about this subject in children's literature Examining the voice of the narrator can identify hitherto unexplored and unrecognized aspects of children's literature The essays in this collection were contributed by noted authors and critics Their inquiry is divided into eight genres the illustrated book folk literature and myth fantasy realism poetry historical fiction biography and informational books and each genre is discussed in terms of the authorial voice and the critical voice Each of the essays works toward an understanding of how the voice of the narrator functions in a given work or in the larger corpus of an author's work The result is not only a greater understanding of how specific authors shape their material and how authors use voice for particular effects but also how the narrator differs functionally from one genre to the next This unique essay collection is particularly suited for use in children's literature courses Because the contributors are

some of the most significant authors and critics in children s literature in English it should also be part of any academic library s holdings in the criticism of children s literature in particular and literary criticism in general     Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986 ,1992     **Book of Nature and Outdoor Life ...** ,1912     The Woodcraft Manual for Boys Ernest Thompson Seton,1917     **Herding Beans** Linda Penton,2012-10 This book although full of stories taken from a childhood spent in the country and family life in the city is really about the frustrations and triumphs that are part of the human experience These true stories will make you laugh one minute and cry the next as you read the scenarios taken from the interaction among people animals and the weather They are all stitched together with lessons taken from God s Word You ll enjoy fascinating stories from farm life in the fifties lessons learned and rites of passage snapshots of a country family praise for the Creator lessons about marriage and divorce fun with children and grandchildren a testimony from a lifelong relationship with God     Bookseller, Newsdealer and Stationer ,1897     **Publication** ,1994     **Media Review Digest** C.
