R. Parthasarathy, Indu Parthasarathy, 2009** The worship of the Divine as another has an ancient history and persists in many cultures to the present day The evolution of Goddess worship in India from the proto historic period to the Sixth century has been studied with relevant sculptural examples A perusal of select texts provides a literary basis for this study Further the symbolic significance behind the icons comes to light by understanding the technical aspects of iconography The book attempts to trace the various manifestations of the Devi such as Sri and Durga from the historic artistic and esoteric view points The image becomes an icon to the faithful when installed in a temple with due rites This has been exemplified by descriptions of select sites of Goddess worship in Karnataka **Portraiture in South Asia since the Mughals** Crispin Branfoot, 2018-06-30 One of the most remarkable artistic achievements of the Mughal Empire was the emergence in the early seventeenth century of portraits of identifiable individuals unprecedented in both South Asia and the Islamic world Appearing at a time of increasing contact between Europe and Asia portraits from the reigns of the great Mughal emperor patrons Akbar Jahangir and Shah Jahan are among the best known paintings produced in South Asia In the following centuries portraiture became more widespread in the visual culture of South Asia especially in the rich and varied traditions of painting but also in sculpture and later prints and photography This collection seeks to understand the intended purpose of a range of portrait traditions in South Asia and how their style setting and representation may have advanced a range of aesthetic social and political functions The chapters range across a wide historical period exploring ideals of portraiture in
