Murder in Mystery Manor** Anthony E. Zuiker,2013-06-18 British butler Giles has taken a job for three times his usual salary He is soon to find out that he will forever be cursed and faced with allowing a group of unknowing people to meet a killer so maniacal and twisted that the murders are virtually motiveless

Giles welcomes ten guests to a luxurious estate where they will be embarking on a diabolical game of life and death. Giles, while on the guests' side, is a leader who will get out of the way of the killer and stand by as one person in each chapter is murdered in an outrageous manner. For example, one murder is a choreographed shark where the guests have to retrieve the victim's head from the shark's body. Another murder will be at the hands of a driverless car à la Stephen King's Christine. After each murder, the rest of the guests will have their choice of investigating the crime scene, the body, or the last known whereabouts. They then must present their account of the details of the murder. The two whose assessments are least accurate will not sleep easy, knowing one of them will be killed shortly and painfully. In the end, we will be left with the winner, the loser, and the killer. The epilogue will set up Giles's continued journey and Book 2.

The Secret of Life Paul McAuley, 2022-10-13 2026. Something is growing in the Pacific Ocean. The Slick appears to be a strange fungus-like organism, but its DNA is unlike anything else on the planet. Rumours start to fly. Was life discovered deep beneath the Martian icecaps on a recent Chinese space mission? If it was, no one is confirming it, but could that same life now be spreading through the ocean and threatening Earth's entire food chain? Brilliant scientist Dr. Mariella Anders is recruited to join an urgent NASA mission to Mars to see if she can uncover the truth of this organism, but this is no straightforward investigation. Corporate powers are committed to exploiting the secrets of the Slick for profit; radical eco-terrorists strike out against rampant genetic engineering; and a second Chinese mission to Mars at the same time has its goals shrouded in mystery. The secret of life on Earth and Mars might be found on the red planet, but who can Mariella trust with the truth once it's found? And what price will she have to pay for it?

The Paprika Diary - a Lonely Secret Monica Shepherd, 2016-03. World War II is over, but for Hungarian people like young, attractive Anna Gonda, another terror has just begun. Communism is strangling her country, forcing the bold writer to make a difficult decision: It was time to abandon her home, her beloved family, and her boyfriend, Attila Paprika, an insecure pessimist who measures his manhood with drinking contests and grueling mountain bike rides. For reasons of his own, Attila surprises Anna by joining her in a daring escape to England. After the couple is blessed with a daughter, Anna is mysteriously drawn to Australia, land of prosperity and opportunity. Enjoying the good life as new immigrants, they have no idea that a monster is lurking in their neighbourhood. Life will never be the same as it twists into a disturbing tale of fear and survival.

Author Bio: This is Monica's first foray into the world of publishing. She enjoyed the experience so much she's planning a sequel to *The Paprika Diary*. She does not know when her journey on earth ends but is comforted by her faith in All That Is, for there is no death of our eternal flame. Monica lives in Ontario, Canada, with her long-time companion, Bugsy the tabby.

Japanese Spy Gear & Special Weapons Stephen C. Mercado,2025-10-30 Uncovers Japan s secret Noborito Research Institute detailing its wartime spy gear weapons and postwar influence The technicians of the 9th Military Technical Research Institute known as the Noborito Research Institute toiled in the shadows of the Second World War to develop spy gear and special weapons for the Imperial Japanese Army IJA Their espionage devices including secret inks bugging devices and miniature cameras helped the Army s dreaded Kempeitai and the shadowy Yama Agency counter foreign spies and track domestic dissent Operatives of the IJA s Nakano School for intelligence operatives and commandos took the equipment into the field with them Noborito s forgers reproduced Chinese currency in an operation to wreck China s economy Scientists and technicians tested biological weapons

on Chinese prisoners as part of a top secret project fielded by the IJA's infamous Unit 731 and developed a virus into a weapon to strike at America's cattle herds. Others developed bombing balloons to attack the American heartland, a target that lay far beyond Japan's reach by conventional means. Stephen Mercado provides in this first book in English on an intelligence organization little known outside Japan an absorbing account of Noborito's activities. The author further recounts how in the shadows of Occupied Japan Noborito veterans entered US military service in secret then applied their skills to operations during the Korean War and for years afterwards in the Cold War. Other veterans applied their skills to rebuilding Japan and turning the vanquished empire into a postwar industrial power. This story is one of talented technicians who served their country in war and peace. *East of Forever* Christina Skye, 1993
