**The Chalet School Books and the Twentieth Century** Miles Booy, 2025-06-17 The first full length study of this beloved children's series *The Chalet School in the Twentieth Century* moves beyond the largely generic analysis within which it has previously been discussed. Published between 1925 and 1970 the series moves from European reconciliation after the Great War through a second global conflict to a post war world increasingly defined by increased secularity and emerging consumerism. Reproducing cover illustrations Miles Booy's book examines both those issues which author Elinor M Brent Dyer consciously explored such as the exceptional *The Chalet School in Exile* which she sought to explain the Nazi occupation of Austria to her young readers and those aspects of the text which must be read symptomatically. This is a book which will engage students with historical and cultural interests beyond children's literature. With barely a midnight feast in sight but much anxiety about social change it's a familiar genre but not as you think you know it. *Hurry up new girls class is about to begin*
