 ,1914 Music in a New Found Land Wilfrid Mellers,2017-07-12 The subject of this book is accurately defined by its subtitle
 Music in a New Found Land does not pretend to be a comprehensive history of American music Nor does Mellers strive to
 catalog what he considers to be authentic American music Instead he deals in some detail with comparatively few composers
 most of whom have well established reputations It has always been difficult to separate American music from its immediate
 relevance to the twentieth century Mellers theme involves the relationship between art music jazz and pop music he sees the
 segregation of these genres as both illogical and artificial If the pop music of Tin Pan Alley may be anti art it has also
 produced Gershwin Ellington and composing improvisers such as Louis Armstrong Charlie Parker and Miles Davis The study
 of American music is as relevant into any inquiry into a national culture as the study of American literature and painting This
 book contains a large number of quotations from American writers because Mellers thought American sensibility should
 parallel reinforce and comment on American music In sum this is the closest available one volume history of American music
 and a window into American culture **Music in a New Found Land** Wilfrid Mellers,1967
