*Secret Army, Secret War* Sedgwick Downey Tourison, 1995 Former Army intelligence officer and Defense Intelligence Agency analyst Wick Tourison unravels the tragically flawed and costly operation that according to many analysts helped trigger the Vietnam War Some b w photos Annotation copyright Book News Inc Portland Or **Great Power, Great Responsibility** Michael Poznansky, 2025-08-13 In the wake of World War II the United States leveraged its hegemonic position in the international political system to gradually build a new global order centered around democracy the expansion of free market capitalism and the containment of communism Named in retrospect the liberal international order LIO the system took decades to build and is still largely with us today even as the US s relative power within it has diminished In *Great Power Great Responsibility* Michael Poznansky explores how the LIO has influenced US foreign policy from its founding to the present Proponents argue that its impact has been profound producing a system that has been more rule bound and beneficial than any previous order Critics charge that it has failed to prevent the US itself from consistently violating rules and norms Poznansky contends that the answer lies in between While rule breaking has been a constant feature of the postwar order the nature of violations varies in surprising and poorly understood ways America s approach to compliance with the LIO including whether leaders feel the need to conceal rule violations at all is a function of two primary factors the intensity of competition over international order and the burden of complying with the liberal order s core tenets in a given case Drawing on nine case studies including the Korean War and Iraq War *Great Power Great Responsibility* sheds important light on the future of US foreign policy in an era where American unipolarity has ended and great power rivalry has returned *Special Warfare*, 2000 **Body of Secrets** James Bamford, 2007-12-18 The National Security Agency is the world s most powerful most far reaching espionage Now with a new afterword describing the security lapses that preceded the attacks of September 11 2001 *Body of Secrets* takes us to the inner sanctum of America s spy world In the follow up to his bestselling *Puzzle Palace* James Bamford reveals the NSA s hidden role in the most volatile world events of the past and its desperate scramble to meet the frightening challenges of today and tomorrow Here is a scrupulously documented account much of which is based on unprecedented access to previously undisclosed documents of the agency s tireless hunt for intelligence on enemies and allies alike *Body of secrets* is a riveting analysis of this most clandestine of agencies a major work of history and investigative journalism A New York Times Notable Book *Vietnamese Commandos* United States. Congress. Senate. Select Committee on Intelligence, 1997 [Covert Regime Change](#) Lindsey A. O'Rourke, 2018-12-15 Lindsey A O Rourke is Assistant Professor of Political Science at Boston College Her research focuses on regime change international security and US foreign policy **Facing the Future, Reviving the Past** John Kleinen, 1999 A Study of Social Change in a Northern Vietnamese Village is based on anthropological fieldwork between 1992 and 1996 in a small Red River delta village It treats the history of the village since its foundation in the mid seventeenth century based on existing French

and Vietnamese archival materials At the same time the book discusses the essentialist character of the Vietnamese village community Special interest is devoted to internal politics within the village which enable powerful lineages and groups to regain political and social power within the village The recent revival of religious activities as a result of the renovation policy is taken into consideration Since Vietnamese society is changing at a very fast pace a longitudinal study of this nature provides the reader with a firsthand account of the interplay between the reform under a Marxist regime and local village society Secrets and Lies in Vietnam Panagiotis Dimitrakis, 2016-05-20 The Vietnam War lasted twenty years and was the USA's greatest military failure An attempt to stem the spread of Soviet and Chinese influence the conflict in practice created a chaotic state torn apart by espionage terrorism and guerilla warfare American troops quickly became embroiled in jungle warfare and knowledge of the other side's troop movements communication lines fighting techniques and strategy became crucial Panagiotis Dimitrakis uncovers this battle for intelligence and tells the story of the Vietnam War through the newly available British American and French sources including declassified material In doing so he dissects the limitations of the CIA the NSA the MI6 and the French intelligence the SDECE in gathering actionable intelligence Dimitrakis also shows how the Vietminh under Ho Chi Minh established their own secret services how their high grade moles infiltrated the US and French military echelons and the government of South Vietnam and how Hanoi's intelligence apparatus eventually suffered seriously from spies amongst us paranoia In doing so he enhances our understanding of the war that came to define its era

**Journal of Special Operations Medicine**, 2005 **Phase Line Green** Nicholas Warr, 2013-01-15 The bloody month long battle for the Citadel in Hue during 1968 pitted U S Marines against an entrenched numerically superior North Vietnamese Army force By official U S accounts it was a tactical and moral victory for the Marines and the United States But a survivor's compulsion to square official accounts with his contrasting experience has produced an entirely different perspective of the battle the most controversial to emerge from the Vietnam War in decades In some of the most frank vivid prose to come out of the war author Nicholas Warr describes with urgency and outrage the Marines savage house to house fighting ordered without air naval or artillery support by officers with no experience in this type of deadly combat Sparing few in the telling including himself Warr's shocking firsthand narrative of these desperate suicide charges which devastated whole companies takes the wraps off an incident that many would prefer to keep hidden His account is sure to ignite heated debate among historians and military professionals Despite senseless rules of engagement and unspeakable carnage there were unforgettable acts of courage and self sacrifice performed by ordinary men asked to accomplish the impossible and Warr is at his best relating these stories For example there's the grenade throwing mortarman who in a rage wipes out two machine gun emplacements that had pinned down an entire company for days and the fortunate grunt with thick glasses who stumbles blindly without receiving a scratch across a street littered with the dead and dying who hadn't made it In describing the most vicious urban combat since World War II this account offers an unparalleled view of how a small unit commander

cope with the conflicting demands and responsibilities thrust upon him by the enemy his men and the chain of command

Death Waits in the Dark Roy Jumper, 2001-08-30 The Senoi Praaq is a Malaysian special forces unit originally created in 1956 by the British colonial authorities to fight communism during the Malayan Emergency The term Senoi Praaq which roughly translates as war people stems from the Semai language and is the basis of a colorful legend in Malaysia The unit is largely comprised of non Malay tribal peoples known collectively as the Orang Asli of Peninsular Malaysia Jumper details Senoi Praaq inception as a private army and its subsequent development into an affiliate of the Royal Malaysian Police RMP in this fast paced and often graphic account of irregular warfare as it applies to counterinsurgency The unit began as a creature of British Military Intelligence and fought in the deep jungle as Special Air Service SAS prot g s eventually replacing the latter upon Malaysian independence from Great Britain They then served as mercenaries employed by the United States Central Intelligence Agency in Vietnam and later fought on Borneo during Malaysia s own undeclared war with Indonesia Today the unit remains under arms and heads up a large paramilitary apparatus maintained in conjunction with conventional military forces Malaysia s capacity to project force throughout South East Asia should not be underestimated Jumper warns The Senoi Praaq is a unique fighting force upon which Malaysia may rely to preserve her sovereignty **A Displaced**

**Nation** Phi-Van Nguyen, 2024-12-15 In *A Displaced Nation* Phi Van Nguyen argues that the displacement of eighty thousand mostly Roman Catholic evacuees from North Vietnam in 1954 had a profound impact on the war opposing Saigon on both Hanoi and on the evacuees themselves Assisting with the transportation emergency relief and resettlement of the evacuees allowed diverse organizations and the United States to support Saigon This transnational mobilization also convinced the evacuees the free world would never let Vietnam remain divided Many people see the Vietnam wars spanning from 1945 to 1989 as separate conflicts But Nguyen demonstrates that the evacuees experienced a continuous civil war *A Displaced Nation* shows the evacuees felt so validated by transnational support that they thought they could use this external help to return one day to the north This belief was not constant nor were the strategies to achieve it the same for all but through their political activism and action the evacuees showed they were willing to seize any opportunity to oppose Hanoi during the subsequent decades even once established overseas Apollo's Warriors Michael E. Haas, 1998-05 Presenting a fascinating

insider s view of U S A F special operations this volume brings to life the critical contributions these forces have made to the exercise of air space power Focusing in particular on the period between the Korean War the Indochina wars of 1950 1979 the accounts of numerous missions are profusely illustrated with photos maps Includes a discussion of AF operations in Europe during WWII as well as profiles of Air Commandos who performed above beyond the call of duty Reflects on the need for financial political support for restoration of the forces Bibliography Extensive photos maps Charts tables

**Propaganda, Communication and Empire** Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the

occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state's role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section re present specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations

**Air University Library Index to Military Periodicals**, 1998

**America and Vietnam, 1954-1963** Michael M. Walker, Col., USMC (Ret.), 2022-08-31 The conventional narrative of the Vietnam War often glosses over the decade leading up to it Covering the years 1954 1963 this book presents a thought provoking reexamination of the war's long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi's decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed

**To Dare and to Conquer** Derek Leebaert, 2009-05-30 In the tradition of Guns Germs and Steel Leebaert tells the stories of small forces that have triumphed over vastly larger ones and changed the course of history from the Trojan Horse to Al Qaeda Maps and charts

**China's Security State** Xuezhi Guo, 2012-08-29 China's Security State describes the creation evolution and development of Chinese security and intelligence agencies as well as their role in influencing Chinese Communist Party politics throughout the party's history Xuezhi Guo investigates patterns of leadership politics from the vantage point of security and intelligence organization and operation by providing new evidence and offering alternative interpretations of major events throughout Chinese Communist Party history This analysis promotes a better understanding of the CCP's mechanisms for control over both Party members and the general population This study specifies some of the broader implications for theory and research that can help clarify the nature of Chinese politics and potential future developments in the country's security and intelligence services

**Winged Shield, Winged Sword 1950-1997** Bernard C. Nalty, 2003-11 Describes and analyzes in the context of national policy and international rivalries the evolution of land based air power since the United States Army in 1907 established an Aeronautical Division Provides a clearer understanding of the central role of the Air Force in current American defense policy

**Special Operations and Strategy** James D. Kiras, 2006-07-29 This book argues that the root of effective special operations lies in understanding the

relationship between moral and material attrition this is achieved by examining both strategic theory and real life case studies
