Fritze, 2021-02-04 Egyptomania takes us on a historical journey to unearth the Egypt of the imagination a land of strange gods mysterious magic secret knowledge monumental pyramids enigmatic sphinxes and immense wealth Egypt has always exerted a powerful attraction on the Western mind and an array of figures have been drawn to the idea of Egypt Even the practical minded Napoleon dreamed of Egyptian glory and helped open the antique land to explorers Ronald H Fritze goes beyond art and architecture to reveal Egyptomania's impact on religion philosophy historical study literature travel science and popular culture All those who remain captivated by the ongoing phenomenon of Egyptomania will revel in the mysteries uncovered in this book **Exploring the Unknown** C. J.

Cazeau, 2012-12-06 The purpose of this book is to explore some of those great mysteries of the earth that have captured the popular imagination and especially those having their roots in our specialties of archaeology and geology The average reader probably is unfamiliar with the earth sciences or the archaeological history of man Nor does the average reader have the time and literary resources to verify all he or she reads Our aim is to lend a helping hand by examining the evidence that surrounds such mysteries as the legend of Atlantis and the ruins of Stonehenge and as logically as we can sift truth from falsehood and exaggeration Early man found himself in a world of unimaginable mysteries meteors streaking across a star studded sky the darkness beyond the campfire's glow the sound and fury of a volcano's eruption Our earliest ancestors were

probably mysteries to themselves and totally susceptible to the subjectivity of their world Fantasies may have been as much a formative influence as toolmaking in the early development of culture As human beings gathered knowledge and understanding of their surroundings old mysteries vanished only to be replaced by others because so much was not understood Brahman→E = MC2 (Science and the Mystical Secrets of the Universe) James Wallace,2022-07-22 Our century the 20th will complete the two thousandth year after Christ s appearance Many students of mysticism and the occult believe that the last years of this century will complete another world cycle in the development of man Nostradamus was one among many who prophesied a global catastrophe in the year 1999 Certainly the growth in scientific knowledge over the last 100 years and the ever increasing pace at which new discoveries are being made gives one the impression that mankind is trying to catch up on lost time Physics in particular has undergone some revolutionary changes Newtonian concepts and ideas though still valid in general terms have been superimposed by what is today popularly known as the New Physics We are now literally looking into the heart of matter which despite its solidity is nevertheless recognised as energy that has developed substance on the wings of speed In fact so closely are velocity and mass interlinked that in many experiments it is impossible to distinguish one from the other Faced with this dilemma even our scientists have begun to philosophize New theories and concepts that appear bizarre when first encountered by the non scientist are constantly being brandished in scientific circles every one of them being supported by algebraic equations Machines which are four miles long have been constructed to study the behaviours of these tiny subatomic pellets of energy And it has been found that they are the product of a mysterious void appearing from and disappearing into nowhere Further all subatomic particles appear to be born with a death wish No sooner are they created they disintegrate into other more stable particles as if they were born with the desire to sacrifice themselves for the continued propagation of our material reality *Implosion!!!* Melvia F. THE SPIRITUAL DREAM One day in the 21st Century God went unto Noah who was living in the U S in Harlem NY and said Again the earth has become wicked Build another Ark and save 2 of every living thing and a few good humans He gave Noah instructions You have 6 months to build it before I start the storms Six months later God looked down and saw Noah weeping in his yard but no Ark Noah He roared Where is the Ark Forgive me God begged Noah but I needed a building permit I ve been arguing with the code inspector I know you want decent humans so I tried to test for those who are reasonably healthy This will take a long time because most are filled with drugs of one kind or another And if all that is not enough the Dept of Homeland Security has me under investigation for plotting to kidnap citizens And you may have heard about the pathetic way FEMA handled the folks in the Super Dome after a hurricane FEMA won t let me do any type of rescuing So forgive me Great One but it would take at least 10 years for me to finish this Ark Suddenly a rainbow stretched across the sky Noah looked up in wonder and asked You re not going to destroy the world No said God This is a new situation red tape beat me to the punch Renewal may require a more ancient solution *The Secret Temple* Peter Levenda,2020-08-15 This is a unique history of

topics that challenge conventional wisdom In these pages the latest discoveries and theories on the controversial subjects are explored and even more provocative questions are raised What emerges is a fascinating case in support of a much greater antiquity for civilization a well reasoned argument for the existence of advanced technologies in prehistory and the revelation of secret forces that have been at work throughout time and are still present today *The Secret Geometry of the Dollar* Ken McGrath,2002-12-12 This book is intended as research It has been written so the average reader will be able to see the fascinating patterns of symbolic mathematics and geometry hidden in the design of the dollar bill Much of its esoteric symbolism will be shown and analyzed from history of the long train of tradition that led up to the dollars present design Although some of these ideas easily lead to wide ranging philosophical speculation and I reserve the right to drag out the soapbox occasionally I will none the less try to maintain a neutral or scientific approach to these topics Most of this story has been written in the first person like a letter to the reader like a notebook In order that the reasoning that led me to these discoveries might be more easily understood I have tried to show my slow progress and mistakes more or less as they happened and the gradual development of my thinking as I went along But to all of this I will add some hindsight and a certain amount of convenient arrangement of the order of some of the discoveries for clarity Without this most of my starting points of investigation and conclusions will not be understandable and many of my earlier dubious paths can be left unsaid Since this curious and strange design is not yet completely known or fully analyzed this investigation is by no means finished and should be an invitation for more adventurous readers to make their own discoveries This study is a much larger task than it would appear at first glance This writing will provide many of the mathematical keys and clues to enable readers to start to investigate on their own or to demonstrate to themselves the validity of those things shown here But these are hidden symbols both philosophical and mathematical and as such need to be puzzled out **A Key to the Secret Vault** Robert Wilson Murphy,1890 [The Tet Effect](#) Jake Blood,2005 This book examines intelligence s role in shaping America s perception of the Vietnam war and looks closely at the intelligence leadership and decision process in Vietnam [Mind & Society Fads](#) Frank W.
