**Everything Is Now** J. Hoberman, 2025-05-27 Like Paris in the 1920s New York City in the 1960s was a cauldron of avant garde ferment and artistic innovation Boundaries were transgressed and new forms created Drawing on interviews memoirs and the alternative press Everything Is Now chronicles this collective drama as it was played out in coffeehouses bars lofts storefront theaters and ultimately the streets The principals here are penniless filmmakers jazz musicians and performing poets as well as less classifiable artists Most were outsiders at the time They include Amiri Baraka Bob Dylan Allen Ginsberg Yayoi Kusama Yoko Ono Nam June Paik Carolee Schneemann Jack Smith Andy Warhol and many more Some were associated with specific movements Avant Rock Destruction Art Fluxus Free Jazz Guerrilla Theater Happenings Mimeographed Zines Pop Art Protest Folk Ridiculous Theater Stand Up Poetry Underground Comix and Underground Movies But there were also movements of one Their art rooted in the detritus and excitement of urban life was taboo breaking and confrontational As J Hoberman shows in this riveting history these subcultures coalesced into a counterculture that changed the city the country and the world

**The Black Arts Movement** James Smethurst, 2006-03-13 Emerging from a matrix of Old Left black nationalist and bohemian ideologies and institutions African American artists and intellectuals in the 1960s coalesced to form the Black Arts Movement the cultural wing of the Black Power Movement In this comprehensive analysis James Smethurst examines the formation of the Black Arts Movement and demonstrates how it deeply influenced the production and reception of literature and art in the United States through its negotiations of the ideological climate of the Cold War decolonization and the civil rights movement Taking a regional approach Smethurst examines local expressions of the nascent Black Arts Movement a movement distinctive in its geographical reach and diversity while always keeping the frame of the larger movement in view The Black Arts Movement he argues fundamentally changed American attitudes about

the relationship between popular culture and high art and dramatically transformed the landscape of public funding for the arts

**Beautiful Enemies** Andrew Epstein, 2006-09-21 Although it has long been commonplace to imagine the archetypal American poet singing a solitary Song of Myself much of the most enduring American poetry has actually been preoccupied with the drama of friendship In this lucid and absorbing study Andrew Epstein argues that an obsession with both the pleasures and problems of friendship erupts in the New American Poetry that emerges after the Second World War By focusing on some of the most significant postmodernist American poets the New York School poets John Ashbery Frank O Hara and their close contemporary Amiri Baraka Beautiful Enemies reveals a fundamental paradox at the heart of postwar American poetry and culture the avant garde's commitment to individualism and nonconformity runs directly counter to its own valorization of community and collaboration In fact Epstein demonstrates that the clash between friendship and nonconformity complicates the legendary alliances forged by postwar poets becomes a predominant theme in the poetry they created and leaves contemporary writers with a complicated legacy to negotiate Rather than simply celebrating friendship and poetic community as nurturing and inspiring these poets represent friendship as a kind of exhilarating maddening contradiction a site of attraction and repulsion affinity and rivalry Challenging both the reductive critiques of American individualism and the idealized heavily biographical celebrations of literary camaraderie one finds in much critical discussion this book provides a new interpretation of the peculiar dynamics of American avant garde poetic communities and the role of the individual within them By situating his extensive and revealing readings of these highly influential poets against the backdrop of Cold War cultural politics and within the context of American pragmatist thought Epstein uncovers the collision between radical self reliance and the siren call of the interpersonal at the core of postwar American poetry

**Global Punk** Kevin Dunn, 2016-05-05 Global Punk examines the global phenomenon of DIY do it yourself punk arguing that it provides a powerful tool for political resistance and personal self empowerment Drawing examples from across the evolution of punk from the streets of 1976 London to the alleys of contemporary Jakarta Global Punk is both historically rich and global in scope Looking beyond the music to explore DIY punk as a lived experience Global Punk examines the ways in which punk contributes to the process of disalienation and political engagement The book critically examines the impact that DIY punk has had on both individuals and communities and offers chapter length investigations of two important aspects of DIY punk culture independent record labels and self published zines Grounded in scholarly theories but written in a highly accessible style Global Punk shows why DIY punk remains a vital cultural form for hundreds of thousands of people across the globe today

**Ecopoetics** Angela Hume, Gillian Osborne, 2018-03-15 Ecopoetics Essays in the Field makes a formidable intervention into the emerging field of ecopoetics The volume's essays model new and provocative methods for reading twentieth and twenty first century ecological poetry and poetics drawing on the insights of ecocriticism contemporary philosophy gender and sexuality studies black studies Native studies critical race theory and disability studies among others

As a volume this book makes the compelling argument that ecopoetics should be read as coextensive with post 1945 poetry and poetics rather than as a subgenre or movement within it It is essential reading for any student or scholar working on contemporary literature or in the environmental humanities today Back cover Burroughs Unbound S. E.

Gontarski,2021-11-18 In addition to contributing significantly to the growing field of Burroughs scholarship Burroughs Unbound also directly engages with the growing fields of textual studies archival research and genetic criticism asking crucial questions thereby about the nature of archives and their relationship to a writer s work These questions about the archive concern not only the literary medium In the 1960s and 1970s Burroughs collaborated with filmmakers sound technicians and musicians who helped re contextualized his writings in other media Burroughs Unbound examines these collaborations and explores how such multiple authorship complicates the authority of the archive as a final or complete repository of an author s work It takes Burroughs seriously as a radical theorist and practitioner who critiqued drug laws sexual practice censorship and what we today call a society of control More broadly his work continues to challenge our common assumptions about language authorship textual stability and the archive in its broadest definition **Smoking**

**Typewriters** John McMillian,2014-08-13 What caused the New Left rebellion of the 1960s In Smoking Typewriters historian John McMillian argues that the underground press contributed to the New Left s growth and cultural organization in crucial overlooked ways **The Universal Machine** Fred Moten,2018-07-26 Taken as a trilogy consent not to be a single being is a

monumental accomplishment a brilliant theoretical intervention that might be best described as a powerful case for blackness as a category of analysis Brent Hayes Edwards author of Epistrophies Jazz and the Literary Imagination In The Universal Machine the concluding volume to his landmark trilogy consent not to be a single being Fred Moten presents a suite of three essays on Emmanuel Levinas Hannah Arendt and Frantz Fanon in which he explores questions of freedom capture and selfhood In trademark style Moten considers these thinkers alongside artists and musicians such as William Kentridge and Curtis Mayfield while interrogating the relation between blackness and phenomenology Whether using Levinas s idea of escape in unintended ways examining Arendt s antiblackness through Mayfield s virtuosic falsetto and Anthony Braxton s musical language or showing how Fanon s form of phenomenology enables black social life Moten formulates blackness as a way of being in the world that evades regulation Throughout The Universal Machine and the trilogy as a whole Moten s theorizations of blackness will have a lasting and profound impact *A Dictionary of the*

*The Poetics of Noise from Dada to Punk* John Melillo,2020-09-03 By reinterpreting 20th century poetry as a listening to and writing through noise The Poetics of Noise from Dada to Punk constructs a literary history of noise through poetic sound and performance This book traces how poets figure noise in the disfiguration of poetic voice Materializing in the threshold

between the heard and the unheard noise emerges in the differentiation and otherness of sound. It arises in the folding of an outside into the inside of poetic performance both on and off the page. Through a series of case studies ranging from verse by ear witnesses to the First World War Dadaist provocations, jazz, modernist song and poetry, early New York City punk rock, contemporary sound poetry and noise music, *The Poetics of Noise* from Dada to Punk describes productive failures of communication that theorize listening against the grain of sound's sense. *Fieldworks* Lytle Shaw, 2013-01-22. *Fieldworks* offers a historical account of the social, rhetorical and material attempts to ground art and poetry in the physicality of a site. Arguing that place-oriented inquiries allowed poets and artists to develop new experimental models of historiography and ethnography, Lytle Shaw draws out the shifting terms of this practice from World War II to the present through a series of illuminating case studies. Beginning with the alternate national genealogies unearthed by William Carlos Williams in Paterson and Charles Olson in Gloucester, Shaw demonstrates how subsequent poets sought to ground such inquiries in concrete social formations to in effect live the poetics of place. Gary Snyder in his back-to-the-land familial compound, Kitkitdizze, Amiri Baraka in a black nationalist community in Newark, Robert Creeley and the poets of Bolinas, California, in the capacious now of their poet-run town. Turning to the work of Robert Smithson, who called one of his essays an appendix to Paterson and who in turn has exerted a major influence on poets since the 1970s, Shaw then traces the emergence of site-specific art in relation both to the poetics of place and to the larger linguistic turn in the humanities, considering poets including Clark Coolidge, Bernadette Mayer and Lisa Robertson. By putting the poetics of place into dialog with site specificity in art, Shaw demonstrates how poets and artists became experimental explicators not just of concrete locations and their histories but of the discourses used to interpret sites more broadly. It is this dual sense of fieldwork that organizes Shaw's groundbreaking history of site-specific poetry. *Artists' Magazines* Gwen Allen, 2015-08-21. How artists' magazines in all their ephemerality, materiality and temporary intensity challenged mainstream art criticism and the gallery system. During the 1960s and 1970s, magazines became an important new site of artistic practice, functioning as an alternative exhibition space for the dematerialized practices of conceptual art. Artists created works expressly for these mass-produced, hand-edited pages, using the ephemerality and the materiality of the magazine to challenge the conventions of both artistic medium and gallery. In *Artists' Magazines*, Gwen Allen looks at the most important of these magazines in their heyday, the 1960s to the 1980s, and compiles a comprehensive illustrated directory of hundreds of others. Among the magazines Allen examines are *Aspen* 1965-1971, a multimedia magazine in a box; issues included Super 8 films, flexi-disc records, critical writings, artists' postage stamps and collectible chapbooks. *Avalanche* 1970-1976, which expressed the countercultural character of the emerging SoHo art community through its interviews and artist-designed contributions, and *Real Life* 1979-1994, published by Thomas Lawson and Susan Morgan as a forum for the Pictures Generation. These and the other magazines Allen examines expressed their differences from mainstream media in both form and content; they cast their homemade, do-it-yourself quality against the

slickness of an Artforum and they created work that defied the formalist orthodoxy of the day Artists Magazines featuring abundant color illustrations of magazine covers and content offers an essential guide to a little explored medium     **Poetry of Jack Spicer** Daniel Katz,2013-01-17 In the years since his death from alcohol poisoning San Francisco Renaissance poet Jack Spicer 1925 1965 has gradually come to be recognized as one of most intriguing demanding and rewarding of the so called New American Poetry poets who were first published in Donald Allen s historic anthology of that name This is the first full length critical monograph on his work placing it in the context not only of the San Francisco Renaissance and contemporary movements with which Spicer dialogued and often disagreed such as the Beats the Black Mountain poets and the New York School but also of the major modernists from whom his innovative poetics derived differed and developed Informed by much archival material only recently made available The Poetry of Jack Spicer examines Spicer s post Poundian translation projects his crucial theories of the serial poem and inspiration as dictation his contrarian take on queer poetics his insistently uncanny regionalism and his elaboration of an epistolary poetics of interpellation and address
