Secretary Of Praise The Poetic Vocation Of George Herbert:

Secretary of Praise Diana Benet, 1984 The purpose of this study is to elucidate Herbert's poetry by reference to grace and charity as two of the major themes of *The Temple*. These doctrines lay the foundation for an understanding of Herbert's poetic vocation, his typical didactic strategies, the dramatic and emotional situation on which his book builds, and his spiritual autobiography, a poetic sequence that is a comprehensive exposition of the empirical reality as Herbert saw it of grace and charity.

George Herbert and the Business of Practical Piety Ceri Sullivan, 2024-07-20 Contemporary nudge theory points out that people make good choices over issues where they have had past experience of similar circumstances where there is reliable, substantial and relevant information about the situation and where they will get prompt feedback about the effect of their decision. Yet none of these conditions apply to the most vital choice of action facing early modern Protestants: how can they be saved? In *George Herbert and the Business of Practical Piety*, Ceri Sullivan uses nudge theory to show how practical divinity disregards the doleful conclusions of predestination that salvation cannot be earned, to supply readers with suggestions on how to prepare to act regardless of their final destiny. Such texts create cognitive niches to support cheerful, godly thought and action in a way which is far from being despairing or compulsive. Their nudges were repeatedly put into practice by Herbert's friends, the Ferrars, who tried to form an ideal religious community at Little Gidding. These prescriptions and examples illustrate how George Herbert's *The Temple* (1633) is a compendium of the techniques of choice architecture. Herbert's poems are full of the humour emerging from a life of faith which is willing to guard high ideals by low cunning, stooping to use the least little things to change a self. *George Herbert and the Business of Practical Piety* initially calls on theories of the extended mind to ask what sort of minor physical and social structures scaffold decisions, then examines a selection of nudges used by Herbert: contracts with the self, building a mind, cleaning a heart, conversing with God, making to-do lists, and working on working well.

George Herbert's Christian Narrative Harold Toliver, 2010-11-01 [George Herbert's Pastoral](#) Christopher Hodgkins, 2010 As poet and as country parson, George Herbert engaged the pastoral in all of its varied senses. In October of 2007, many of the world's leading Herbert scholars met at Sarum College in Salisbury, England, to locate Herbert's pastoral life and writings, more particularly in early Stuart Wiltshire. They explored the relations between the pastoral locale of Herbert's last years (1630-1633) in nearby Bemerton and the themes, images and tenor of his writing. How did the specific country place, time and people shape the life and work of this especially lyrical country priest? The fourteen essays in this collection address Herbert's pastoral poetry and practice, cast new light on his actual relations with specific local personalities and places, make fresh connections to the inward biblical and liturgical spaces of his work, consider his outward links to garden and pasture, and discover fictional and theological reverberations beyond Herbert's local pastoral world. Christopher Hodgkins is Professor of English at the University of North Carolina, Greensboro. *A George Herbert Companion (Routledge Revivals)* Robert H. Ray, 2014-05-01 First published in 1995, this title provides the reader with

Co-Creative Communication in George Herbert and John Donne Sara Rogalski, 2025-03-17 This study examines the co creative relationship between speakers hearers and God in poetry and prose by George Herbert and John Donne Through analyses of communicative situations communicative interactions and reflections on communication models of communication are established that underlie the texts selected In particular the activity of hearing is shown to be considered essential to the constitution of a meaningful utterance In this way a key function of communication becomes apparent it can yield a range of creative products from the conversation itself to a literary artefact and its extratextual effects This study thus offers a new reading of the texts of George Herbert and John Donne and provides a clear perspective on how early modern religious texts regarded communication and co creativity as connected concepts

Poetry of Contemplation Arthur L. Clements, 1990-01-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists

The Poem in Time Janis Lull, 1990 In tracing George Herbert's revisionary goals as they developed through the two manuscripts of the Church this book offers a new approach to the interpretation of his poems in showing that Herbert intended to encourage his readers to connect the separate lyrics into larger structures of meaning and also to look beyond his poetry to the Bible

The Complete English Poems George Herbert, 2004-10-07 George Herbert combined the intellectual and the spiritual the humble and the divine to create some of the most moving devotional poetry in the English language His deceptively simple verse uses the ingenious arguments typical of seventeenth century metaphysical poets and unusual imagery drawn from musical structures the natural world and domestic activity to explore a mosaic of Biblical

themes From the wit and wordplay of *The Pulley* and the formal experimentation of *Easter Wings* and *Paradise* to the intense highly personal relationship between man and God portrayed in *The Collar* and *Redemption* the works collected here show the transcendental power of divine love **The Ludic Self in Seventeenth-Century English Literature** Anna K.

Nardo,1991-09-03 This book argues that play offered Hamlet John Donne George Herbert Andrew Marvell Robert Burton and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self the author demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation **English Renaissance Rhetoric and Poetics** Heinrich F.

The Concept of Nature in Early Modern English Literature Peter Remien, 2019-02-14 The Concept of Nature in Early Modern English Literature traces a genealogy of ecology in seventeenth century literature and natural philosophy through the development of the protoecological concept of the oeconomy of nature Founded in 1644 by Kenelm Digby this concept was subsequently employed by a number of theologians physicians and natural philosophers to conceptualize nature as an interdependent system Focusing on the middle decades of the seventeenth century Peter Remien examines how Samuel Gott Walter Charleton Robert Boyle Samuel Collins and Thomas Burnet formed the oeconomy of nature Remien also shows how literary authors Ben Jonson George Herbert Andrew Marvell Margaret Cavendish and John Milton use the discourse of oeconomy to explore the contours of humankind's relationship with the natural world This book participates in an intellectual history of the science of ecology while prompting a re evaluation of how we understand the relationship between literature and ecology in the early modern period

The Wit of Seventeenth-century Poetry Claude J. Summers, Ted-Larry Pebworth, 1995 As the twelve original essays collected in this volume demonstrate to study the wit of seventeenth century poetry is necessarily to address concerns at the very heart of the period's shifting literary culture It is a topic that raises persistent questions of thematics and authorial intent even as it interrogates a wide spectrum of cultural practices These essays by some of the most renowned scholars in seventeenth century studies illuminate important authors and engage issues of politics and religion of secular and sacred love of literary theory and poetic technique of gender relations and historical consciousness of literary history and social change as well as larger concerns of literary production and smaller ones of local effects Collectively they illustrate the vitality of the topic both in its own right and as a means of understanding the complexity and range of seventeenth century English poetry
