The Cat From Hue John Laurence, 2008-08-05 Winner of the Overseas Press Club Cornelius Ryan Award John Laurence covered the Vietnam war for CBS News from its early days through the bloody battle of Hue in 1968 to the Cambodian invasion He was judged by his colleagues to be the best television reporter of the war however the traumatic stories Laurence covered became a personal burden that he carried long after the war was over In this evocative unflinching memoir laced with humor anger love and the unforgettable story of M a cat rescued from the battle of Hue Laurence recalls coming of age during the war years as a journalist and as a man Along the way he clarifies the murky history of the war and the role that journalists played in altering its course The Cat from Hue i has earned passionate acclaim from many of the most renowned journalists and writers about the war as well as from military officers and war veterans book reviewers and readers This book will stand with Michael Herr's *Dispatches* Philip Caputo's *A Rumor of War* and Neil Sheehan's *A Bright Shining Lie* as one of the best books ever written about Vietnam and about war generally The Secrets of Ancient Geometry--and Its Use Tons Brunés, 1967 **The Aztec Palimpsest** Daniel Cooper Alarcón, 1997-03-01 Mexico is more than a country it is a concept that is the product of a complex network of discourses as disparate as the rhetoric of Chicano nationalism English language literature about Mexico and Mexican tourist propaganda The idea of Mexicanness says Daniel Cooper Alarcón has arisen through a process of erasure and superimposition as these discourses have produced contentious and sometimes contradictory descriptions of their subject By considering Mexicanness as a palimpsest of these competing yet interwoven narratives Cooper offers a paradigm through which the construction and representation of cultural identity can be studied He shows how the Chicano myth of Aztlan was constructed upon earlier Mesoamerican myths discusses

representations of Mexico in texts by nineteenth and twentieth century writers and analyzes the content of tourist literature thereby revealing the economic social and political interests that drive the production of Mexicanness today This original linking of seemingly incongruous discourses corrects the misconception that Mexicanness is produced only by hegemonic groups Cooper shows how Mexico has been defined and represented by both Mexicans and non Mexicans as more than a political or geographic entity and he particularly reveals how Mexicanness has been exploited by Mexicans themselves through the promotion of tourism as a form of neocolonialism Cooper s work is valuable both for identifying attempts to revise and control Mexican myth history and culture and for defining the intricate relationship between history historiography and cultural nationalism The Aztec Palimpsest extends existing analyses of Mexicanness into new theoretical realms and provides a fresh perspective on the relationship between the United States and Mexico at a time when these two nations are becoming more intimately linked
