Why is it so difficult to live the way the Bible teaches Why don't things work out when we try to be truly holy Why does the world give us so many problems If you've struggled with these kinds of questions there are answers Walk the path of Spiritual Restoration You will discover that our frustration and confusion often comes from our Greek worldview God has a completely different perspective but if we try to live with one foot in the Greek world and one foot in the Hebrew world we feel compartmentalized fragmented and defeated We have unconsciously worked against ourselves by trying to make God fit the Greek model All of that can change today Spiritual Restoration reveals the startling differences between these worldviews Now we can begin recovery and restoration where living the biblical worldview makes sense for what we need today Author teacher and consultant Skip Moen has five degrees including a Ph D from Oxford University With more than twenty five years of business entrepreneurial development Skip provides consulting that helps organizations align their leadership and operations with Biblical principles He is the Dean of the Department of Biblical Leadership at Master's International Divinity School and the author of Words to Lead By a study of Jesus leadership Skip achieved the American dream of independent wealth only to discover a life of pointless affluence God radically changed his direction exposing the myth of security in a Greek based culture Now he wants to recover the foundation of God's point of view for living

**The Deeper Secret** Annemarie Postma, 2012-01-01 Is there really a secret that will unlock our happiness

If we wish for something very hard and express enough gratitude will it actually become ours Millions of people think so But there is an even deeper truth than the law of attraction covered in the best selling The Secret there are TWELVE laws of creation This passionately persuasive book explains exactly what these twelve laws are how we can harness them and how we can use our own powerful system of creation to create miracles of joy and fulfillment every day Annemarie Postma proves to be a true healer of our inner anguish who can provide us with the tools and skills to awaken our precious life force A Secret History of Consciousness Gary Lachman,2003 For the last four centuries science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to Recently this effort was extended to try to include the inner world of human beings Gary Lachman argues that this view of consciousness is misguided and unfounded He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s In this secret history of consciousness consciousness is seen not as a result of neurons and molecules but as responsible for them meaning is not imported from the outer world but rather creates it In this view consciousness is a living evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader more expansive state What that consciousness may be like and how it may be achieved is a major concern of this book Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open As this history unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of consciousness a must read Contents Foreword by Colin Wilson Introduction Consciousness Explained The Search for Cosmic Consciousness Esoteric Evolution The Archaeology of Consciousness Participatory Epistemology The Presence of Origin Last Words Playing for Time Selected Bibliography A marvelously exhilarating gallop through every important modern theory of consciousness from Steiner to Maslow from Bucke s cosmic consciousness to Gebser s integral consciousness Colin Wilson author of The Outsider and Access to Inner Worlds Opens up vast vistas of possibility suggesting that what we experience as the earth may in itself be inseparable from our state of mind and that the evolution of human consciousness may be as fundamental a process as our development through genetics A must read for those seeking an escape from our contemporary culture s cul de sac Daniel Pinchbeck author of Breaking Open the Head Thinking outside the box Lachman challenges many contemporary theories by reinserting a sense of the spiritual back into the discussion Profoundly erudite yet easy to read this book is a provocative mind stretcher Leonard Shlain author of Art Physics Alphabet versus the Goddess and Sex Time Power Mysteries and Secrets: The 16-Book Complete Codex Patricia Fanthorpe,Lionel Fanthorpe,2014-11-12 This special 16
