**The Tantric Alchemist** Peter Levenda,2015-09-01 The Tantric Alchemist is a work on alchemy as decoded by Tantra and a work on Tantra as understood by alchemists It uncovers works by Thomas Vaughan and suggests how he and his wife a 17th century Welsh couple unique in the history of western alchemy met their fate when dealing with forces they knew only too well but which were stronger than their ability to control them Using the works of Vaughan as his text Levenda applies the twilight language of Tantra to the surreal prose of the alchemist and in the process lays bare the lineaments of the arcane tradition that gave rise to the legend of Christian Rosenkreutz the reputed founder of Rosicrucianism who learned his art in the East and to the 19th and 20th century occult movements lead by such luminaries as P B Randolph Theodore Reuss Helena Blavatsky and Aleister Crowley who also sought and discovered this technology in the religions and cultures of Asia Readers will find that the many disparate threads of an authentic spiritual tradition are woven together here in a startling tapestry that reveals without pretense or euphemism the psycho sexual technique that is at the root of both Tantra and alchemy that is to say of both Asian and European forms of esoteric praxis

**The Practice of Traditional Western Herbalism** Matthew Wood,2013-04-02 The Practice of Traditional Western Herbalism places the function of western herbs in their true historical context apart from homeopathy traditional Chinese medicine and Ayurveda Recently there has been a revival of interest in western herbalism but practitioners haven t

been able to explore its benefits due to a void of information on the topic the system of medicine the herbs fit into had all but disappeared To remedy the situation herbalist Matthew Wood has researched the old time practices and reconstructed them for modern use In resuscitating western herbal medicine and bringing it up to date he gives his readers a powerful tool for holistic theory and treatment Wood makes the point that plant medicines because they are made from a broad range of chemical components are naturally suited for the treatment of general patterns in the body He argues against the biomedical model of standardization in which herbs are refined and advertised as if they were drugs suited to an exact disease or condition
