**A Trial Separation** Donald Denoon, 2012-05-01 When it came in September 1975 Papua New Guinea's independence was marked by both anxiety and elation In the euphoric aftermath decolonisation was declared a triumph and immediate events seemed to justify that confidence By the 1990s however events had taken a turn for the worse and there were doubts about the capacity of the State to function Before independence Papua New Guinea was an Australian Territory Responsibility lay with a minister in Canberra and services were provided by Commonwealth agencies In 1973 Prime

Minister Gough Whitlam declared that independence should be achieved within two years While Australians were united in their desire to decolonise many Papua New Guineans were nervous of independence This superlative history presents the full story of the trial separation of Australia and Papua New Guinea concluding that given the intertwined history geography and economies of the two neighbours the decolonisation project of independence is still a work in progress

**East Timor, Australia and Regional Order** James Cotton, 2004-05-20 This book explains the exceptional nature of the East Timor intervention of 1999 and deals with the background to the trusteeship role of the UN in building the new polity All of these developments had an important impact on regional order not least testing the ASEAN norm of non interference Australian complicity in the Indonesian occupation of East Timor was a major factor in the persistence of Indonesian rule in the territory which was maintained for twenty five years despite international censure and which required an unrelenting campaign against the independence movement This work reviews the reasons for that history of complicity and explains the extraordinary change of policy that led ultimately to the occupation of the territory by the Australian led INTERFET coalition

**East Timor at the Crossroads** Peter Carey, G. Carter Bentley, 1995-09-01 In a rapidly changing post Cold War world where many age old conflicts and injustices are at last being put to rights East Timor stands out as a still unresolved tragedy In the past twenty years 1975-95 this former Portuguese colony has been under Indonesian military occupation an occupation responsible for the death of over 200 000 of its inhabitants a third of its pre 1975 population and the destruction of much of its indigenous society Yet despite enormous odds the people of East Timor continue to fight for the independence which was denied them in the mid 1970s Twenty years on there is now a very real chance for a new beginning in East Timor This book which brings together contributions by both East Timorese and Western specialists of East Timor provides a compelling account of the process by which a once isolated and traditional society has been forged into a nation with a deep sense of its own identity rooted in its unique religious cultural linguistic and historical heritage Indonesia is at last beginning to realize the cost of Third World colonialism and its Western allies are becoming less tolerant of its security state methods The last section of this book considers the new diplomatic initiatives which are currently in train under the auspices of the UN to bring about a resolution to the Timor problem without jeopardizing the integrity of the Indonesian Republic An extensive bibliography of titles on East Timor published between 1970 and 1994 will prove especially useful for scholars
