Dolby,2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along      **Real Moments** Barbara De Angelis,2013-01-09 To many of us the experiences that we grew up taking for granted leave become distant dreams in our adult lives marriages that last a lifetime safe neighborhoods to call home the certainty that our children will have a better life than we did and most of all lots of time to spend as we wish living for the moment Instead we find our time and energy spent recovering from the past or protecting ourselves from the future The result is a desperate sometimes dangerous and often unsuccessful search for meaning in our lives In Real Moments Barbara De Angelis defines happiness not as an acquisition but as a skill the skill of capturing every moment and living it completely With insight wisdom and vision she teaches us how to rediscover real moments with our mates and our children with our work and our play in sex and intimacy and real moments with ourselves It is an examination of our relationship with the process of living itself offering inspiration as well as practical tools for creating more of one of the most precious moments of all moments of true meaning in our lives
