**Simon Makes Music** Gilles Tibo, 1997-05 Simon discovers that playing music with friends is even more fun than playing alone 4 yrs *Living Politics, Making Music* Jan Fairley, edited by Simon Frith, Ian Christie, 2016-05-13 The late Jan Fairley 1949-2012 was a key figure in making world music a significant topic for popular music studies and an influential contributor to such world music magazines as *fRoots* and *Songlines* This book celebrates her contribution to popular music scholarship by gathering her most important work together in a single place The result is a richly informed and entertaining volume that will be of interest to all scholars in the field while also serving as an excellent introduction for students interested in popular music as a global phenomenon Fairley's work was focused on the problems and possibilities of cross cultural musical influences fantasies and flows and on the importance of performing circuits and networks Her interest in the details of music making and in the lives of music makers means that this collection is also an original and illuminating study of music and politics In drawing on Jan Fairley's journalism this volume also offers students a guide to various genres of world music from Cuban son to flamenco as well as an insight into the lives of such world music stars as Mercedes Sosa and Silvio Rodríguez This is inspiring as well as essential reading *Writing about music* Neil Pace, 2016-04-28 I've been listening to music ever since I was small A few years ago I started to write about it I started to blog and to tweet and to generally annoy anyone who would care to read my secular evangelical rantings about Jonathan Richman and my inexplicable love of kitschy popular music disco hip hop and doo wop Very soon I was writing for the North East's premier music magazine NE MM which became the North East's premier music website Most of my NE MM album and gig reviews are included in *Writing about music* I've corrected most of the spellings but I've left in all of the grammatical errors I prefer to think of them as quirks Many of my interviews are here too Roger McGuinn Nils Lofgren Matthew Healy Ben Watt Fish Kathryn Williams Duke Special Penetration Thomas Truax Steve Hackett and Nick Heyward who told me he thought Haircut 100 were going to become Britain's Talking Heads There's other stuff too Quite a few lists let's face it making lists is what middle aged men do best including my favourite 50 debut albums which proved hugely controversial with three people on Twitter And by the way I regularly start sentences with and If you're easily offended please look away there are some excerpts from another book that's in the pipeline Quite a long way down the pipeline if I can be brutally honest **Music Therapy and Autism Across the Lifespan** Henry Dunn, Helen Mottram, Elizabeth Coombes, Emma Maclean, Josie Nugent, 2019-06-21 The use of music therapy is long established with people with Autistic Spectrum Conditions The combination of using music and relationship work in person centred approaches supports the three main areas of difficulty people with autism often experience social interaction communication and imagination Current research supports the positive psychological benefits of music therapy when people with autism spectrum conditions engage with music therapy This book celebrates the richness of music therapy approaches and brings together the voices of practitioners in the UK With a strong focus on practice based evidence it

showcases clinicians researchers and educators working in a variety of settings across the lifespan *Music, Narrative and the Moving Image*, 2019-05-15 In extending the traditional field of Word and Music Studies to include research on film and other forms of moving visualizations this volume focuses on innovative discussions of artistic works showing relationships between three individual communicative media This trifocal interdisciplinary perspective is reflected in seventeen essays that cover the historical space from the 19th to the 21st centuries and discuss a wide variety of individual genres in the represented media These range from Parisian cabaret to revolutionary Peking opera from silent film to Holocaust narration from documentary propaganda movies to opera film interludes and more The investigation of historical cases is broadened by reflections on theoretical and functional issues primarily in film music which show a remarkable breadth of technical and perceptual varieties The essays here collected are of relevance to scholars and students of film studies musicology and literature as well as readers generally interested in Intermediality Studies

**Making Meaning in Popular Song** Theodore Gracyk, 2022-06-16 Winner ASA American Society for Aesthetics 2023 Outstanding Monograph Prize For Theodore Gracyk meaning in popular music depends as much on the context of reception and performer s intentions as on established musical and semantic practices Songs are structures that serve as the scaffolding for meaning production influenced by the performance decisions of the performer and their intentions Arguing against prevailing theories of meaning that ignore the power of the performance Gracyk champions the contextual relevance of the performer as well as novel messaging through creative repurposing of recordings Extending the philosophical insight that meaning is a function of use Gracyk explains how both the performance persona and the personal life of a song s performer can contribute to or undercut ethical and political aspects of a performance or recording Using Carly Simon s You re So Vain Pink Floyd the emergence of the musical genre of post punk and the practice of cover versions Gracyk explores the multiple sometimes contradictory notions of authenticity applied to popular music and the conditions for meaningful communication He places popular music within larger cultural contexts and examines how assigning a performance or recording to one music genre rather than another has implications for what it communicates Informed by a mix of philosophy of art and philosophy of language Gracyk s entertaining study of popular music constructs a theoretical basis for a philosophy of meaning for songs
