Examples from world literature and work in translation highlighting the range of diverse material available for teaching inspiration. Coverage of social, cultural and political reading practices to increase understanding of factors that influence children's reading experience. Coverage of disability and equality issues to help inform teaching strategies that overcome barriers to learning. This book is essential for students on PGCE, BEd and BA Education courses and for teachers undertaking CPD in English literacy or children's literature. It provides useful support material for language coordinators and literacy consultants and can be used to support distance learning as an aid to self-study or as a course text.

Issues in English Teaching Jon Davison, John Moss, 2002-09-11. Issues in English Teaching invites primary and secondary teachers of English to engage in debates about key issues in subject teaching. The issues discussed include the increasingly centralised control of the curriculum, assessment and pedagogy in the school teaching of English in England and Wales as a result of initiatives such as the National Literacy Strategy, new technologies which are transforming pupils' lived experience of literacy or literacies, the accelerating globalisation of English and the independence of other versions of English from English Standard English. A National Curriculum with a nationalist perspective on language, literacy and literature cannot fully accommodate English, what has become naturalised and normalised in English teaching and the educational and ideological reasons for this. Hierarchies that have been created in the curriculum and pedagogy, identifying who and what has been given low status, excluded or marginalised in the development of the current model of English. Issues in English Teaching will stimulate student teachers, NQTs, language and literacy coordinators, classroom English teachers and aspiring or practising Heads of English to reflect on the identity or the subject, the principles and policies which have determined practice and those which should influence future practice.

Improving Primary Literacy Anthony Feiler, Jane Andrews, Pamela Greenhough, Martin Hughes, David Johnson, Mary Scanlan, Wan Ching Yee, 2007-04-11. Parents can play an immensely important role in supporting their children's literacy learning at home, but how can primary teachers enlist the support of parents in helping children learn literacy? With a focus on improving children's literacy skills, this book provides practical answers to key questions that are directly relevant to all primary teachers and to many parents. It presents new ways of linking learning in home and school through a range of activities that can be used to share knowledge between children, parents and teachers. Activities include teachers and children making videos to show parents how children learn literacy in school, parents and children taking photos of the everyday literacy they use outside school, parents and teachers exchanging information through Home School folders and diaries. Particular attention is given to ways of working with parents from a diverse range of family backgrounds, reflecting the multi-ethnic nature of many schools.
