Modelling and Sculpture Albert Toft,1911 **Wonderful Models** Percival Marshall,1928 Architectural Scale Models in the Digital Age Milena Stavric,Predrag Sidanin,Bojan Tepavcevic,2013-03-01 No detailed description available for Architectural Scale Models in the Digital Age *Architectural Modelmaking Second Edition* Nick Dunn,2014-09-08 The physical model is an important communication tool for architects Although the proliferation of CAD programs has enabled the creation of increasingly complex computer models and virtual environments there is also a growing need to address the three dimensional qualities of architecture that may be lost when using such media This book focuses on the inspiring possibilities for modelling the built environment with all the different media and techniques available In describing the use of different models in different contexts the book provides a practical guide to how and why models are used and what they are used for This second edition includes more detailed step by step exercises expanded discussion of materials and techniques updated coverage of digital techniques and new case studies A New Manual of Method Alfred Hezekiah Garlick,1897

Transcultural Modernities Elisabeth Bekers,Sissy Helff,Daniela Merolla,2009 The swelling flows of migration from Africa towards Europe have aroused interest not only in the socio political consequences of the migrants insistent appeals to fortress Europe but also in the artistic integration of African migrants into the cultural world of Europe While in recent years the creative output of Africans living in Europe has received attention from the media and in academia little critical consideration has been given to African migrants modes of narration and the manner in which these modes give expression to or are an expression of their creators transcultural realities Transcultural Modernities Narrating Africa in Europe responds to this need for reflection by examining the manner in which migrants compose and negotiate their Euro African affiliations in their narratives The book brings together scholars in the fields of literary and art criticism cultural studies and anthropology for an extensive interdisciplinary exchange on the specific modes of narration displayed in Euro African literatures the visual arts and cinema as well as offering ethnographic case studies The result is a wide range of reflections on how African artists writers and ordinary people living in Europe experience and explore their transcultural and or postcolonial environments and how their experiences and explorations in turn contribute to the construction of modern Euro African life worlds Architecture and Modelbuilding Alexander Schilling,2018-09-10 Architectural models are used at various stages of a project As working models they support the design process they are made up from time to time using simple materials such as cardboard without any attempt at accuracy and continue to be adjusted and added to as the ideas and the design progress The point here is to swiftly check a design idea to allow it to be continued or dismissed Presentational models are more involved at this stage the design has been completed and the purpose of the model is to convey the ideas to the potential user in a clear and easy to understand way The book Architecture and Model Building includes outstanding examples explaining the possibilities of this medium and at the same time provides comprehensive
