details and to register for access *Models of Revelation in Avery Dulles* Michal Striženec, 2000 Papal Infallibility Mark E. Powell, 2009-01-27 The dogma of papal infallibility has become increasingly problematic for Roman Catholics and it is a major point of division in Christian ecumenical dialogue arguably the key issue separating Catholics and other Christians today Mark Powell here contends that papal infallibility has inevitable shortcomings as a way to secure religious certainty After introducing the doctrine he illustrates those limitations in the life and writings of four prominent Catholic theologians Henry Edward Cardinal Manning John Henry Cardinal Newman Avery Cardinal Dulles and Hans Kung Book Jacket The Oxford Handbook of Catholic Theology Lewis Ayres, Medi Ann Volpe, 2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic Theology An initial section offers essays on some of Catholic theology's most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts **Teaching with Authority** Richard R. Gaillardetz, 1997 This book faithfully represents the teaching of Roman Catholicism on the Church's doctrinal authority while pointing to areas where there remains a gap between an ecclesiological vision of the Church informed by Vatican II and the popular understanding and concrete exercise of that authority in the life of the Church today
