

Major Marriage and Family Therapy Models Developed by Thorana S. Nelson, PhD and Students

STRUCTURAL FAMILY THERAPY

<u>LEADERS</u> • Salvador Minuchin • Charles Fishman	<u>ASSUMPTIONS:</u> • Problems reside within a family structure (although not necessarily caused by the structure) • Changing the structure changes the experience the client has • Don't go from problem to solution, we just move gradually • Children's problems are often related to the boundary between the parents (marital vs. parental subsystem) and the boundary between parents and children
<u>CONCEPTS:</u> Family structure • Boundaries ◦ Rigid ◦ Clear ◦ Diffuse ◦ Disengaged ◦ Normal Range ◦ Enmeshment ◦ Roles ◦ Rules of who interacts with whom, how, when, etc. • Hierarchy • Subsystems • Cross-Generational Coalitions • Parentified Child	<u>GOALS OF THERAPY:</u> • Structural Change ◦ Clarify, realign, mark boundaries • Individuation of family members • Infer the boundaries from the patterns of interaction among family members • Change the patterns to realign the boundaries to make them more closed or open
<u>ROLE OF THE THERAPIST:</u> • Perturb the system because the structure is too rigid (chaotic or closed) or too diffuse (enmeshed) • Facilitate the restructuring of the system • Directive, expert—the therapist is the choreographer • See change in therapy session; homework solidifies change • Directive	<u>ASSESSMENT:</u> • Assess the nature of the boundaries, roles of family members • Enactment to watch family interaction/patterns
<u>INTERVENTIONS:</u> • Join and accommodate ◦ mimesis • Structural mapping • Highlight and modify interactions • Unbalance • Challenge unproductive assumptions • Raise intensity so that system must change	<u>CHANGE:</u> • Raise intensity to upset the system, then help reorganize the system • Change occurs within session and is behavioral; insight is not necessary • Emotions change as individuals' experience of their context changes
