Models Of Love:

Models of Love Barry Vissell, Joyce Vissell, 1986 **Modeling Love Dynamics** Sergio E. T. Al RINALDI, 2015-10-22 This book shows for the very first time how love stories a vital issue in our lives can be tentatively described with classical mathematics Focus is on the derivation and analysis of reliable models that allow one to formally describe the expected evolution of love affairs from the initial state of indifference to the final romantic regime The models are in full agreement with the basic philosophical principles of love psychology Eight chapters are theoretically oriented and discuss the romantic relationships between important classes of individuals identified by particular psychological traits The remaining chapters are devoted to case studies described in classical poems or in worldwide famous films *Cultural Typologies of Love* Victor Karandashev, 2022-09-01 This timely volume offers an integrative approach and a culturally diverse view of love conceptions experiences and expressions building on both individual and cultural typologies of love It comprehensively presents cultural and cross cultural studies on how culture affects love and offers a systematic description of types and cultural models of love The comprehensive reviews of methodology and findings provide a solid empirical basis for the creation of formal typologies This book will be useful for researchers interested in cross cultural studies of love across many disciplines Its accessible language also makes it ideal for undergraduate and graduate students Readers will gain a comprehensive understanding of Cultural conceptions of love and methods for their research Multiple perspectives in the studies of love across world cultures Cultural models and typologies in an international perspective Cultural models and typologies from an interdisciplinary scientific perspective **Blackwell Handbook of Social Psychology** Garth J. O. Fletcher, Margaret S. Clark, 2008-05-12 This authoritative handbook provides a cutting edge overview of classic and current research as well as an assessment of future trends in the field of interpersonal processes Ensures thorough and up to date coverage of all aspects of interpersonal processes Includes contributions by academics and other experts from around the world to ensure a truly international perspective Provides a comprehensive overview of classic and current research and likely future trends Fully referenced chapters and annotated bibliographies allow easy access to further study Now available in full text online via xreferplus the award winning reference library on the web from xrefer For more information visit www.xreferplus.com Close Relationships Harry T. Reis, Caryl E. Rusbult, 2004-08-02 Each of the chapters in this reader is written by leading scholars in the area of relationships reflecting the diversity of the field and including both contemporary and key historical papers for comprehensive coverage of research *Synthesis of Adequate Mathematical Descriptions of Physical Processes* Yuri Menshykov, 2020-08-11 For effective use of the results of computational calculations it is necessary that the computational schemes used correspond to real physical processes so that the schemes are adequate The issue of adequacy is currently poorly understood and there are also no generally accepted criteria of adequacy This book is the first to address the questions of constructing adequate mathematical descriptions of physical processes and their reasonable use in the future for

various purposes It proposes two adequacy criteria quantitative and qualitative and describes several possible algorithms for synthesis of cases when the physical process is composed of a system of ordinary differential equations or a mathematical model in algebraic form The algorithms described here will be useful for specialists in areas where methods of mathematical modeling are used such as mechanics

The Oxford Handbook of Kierkegaard John Lippitt, George Pattison, 2013-01-31 The Oxford Handbook of Kierkegaard brings together an outstanding selection of contemporary specialists and uniquely combines work on the background and context of Kierkegaard's writings exposition of his key ideas and a survey of his influence and heritage

Modeling Human Behavior With Integrated Cognitive Architectures Kevin A. Gluck, Richard W. Pew, 2006-04-21 Resulting from the need for greater realism in models of human and organizational behavior in military simulations there has been increased interest in research on integrative models of human performance both within the cognitive science community generally and within the defense and aerospace industries in particular This book documents accomplishments and lessons learned in a multi year project to examine the ability of a range of integrated cognitive modeling architectures to explain and predict human behavior in a common task environment that requires multi tasking and concept learning This unique project called the Agent Based Modeling and Behavior Representation AMBR Model Comparison involved a series of human performance model evaluations in which the processes and performance levels of computational cognitive models were compared to each other and to human operators performing the identical tasks In addition to quantitative data comparing the performance of the models and real human performance the book also presents a qualitatively oriented discussion of the practical and scientific considerations that arise in the course of attempting this kind of model development and validation effort The primary audiences for this book are people in academia industry and the military who are interested in explaining and predicting complex human behavior using computational cognitive modeling approaches The book should be of particular interest to individuals in any sector working in Psychology Cognitive Science Artificial Intelligence Industrial Engineering System Engineering Human Factors Ergonomics and Operations Research Any technically or scientifically oriented professional or student should find the material fully accessible without extensive mathematical background

Creating Love John Bradshaw, 2013-04-24 Why are so many of us at times completely baffled by a relationship? How can we think we know someone so well and admit in the end that we hardly knew that person at all? Why do many people who work diligently and strenuously to gain wholeness and balance still feel so frustrated about having a fulfilling relationship? Why have so many people given up on love from the Prologue? John Bradshaw's bestselling books and compelling PBS series have touched and changed millions of lives. Now in *Creating Love* he offers us a new way to understand our most crucial relationships with our romantic partners and spouses, with our parents and children, with friends and co-workers, with ourselves, and with God. Bradshaw's compassionate approach shows that many of us have been literally entranced by past experiences of counterfeit love, so we unknowingly re-create patterns that can never fulfill us. Here he provides both the insights and the precise tools we need to keep those destructive patterns from repeating in the present. And then he shows how we can open ourselves to the soul-building work of real love and create healthy loving relationships where we can be fully ourselves in every part of our lives.
