Gao,2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation *U.S. Naval Power in the 21st Century* Brent Droste Sadler,2023-05-15 2023 Naval Institute Press Author of the Year Finalist National Security Book Award This nation s Cold War and Global War on Terror defense structures need an update U S Naval Power in the 21st Century provides such a framework for the changed world we live in offering a detailed roadmap that shows how the United States can field a war winning fleet that can also compete aggressively in peacetime against dangerous competitors unlike any the nation has faced before Brent Sadler presents a compelling new strategy and organizing approach that he calls naval statecraft which acknowledges the centrality and importance of the maritime domain While similar in scale and scope to Cold War containment strategies against the Soviets naval statecraft is much more It must be to challenge China s involvement in global supply chains which gives that country significant financial heft and influence around the world Unlike what existed during of the Cold War however Sadler provides a unique vision for competing with China and Russia Rather than simply calling for better coordinated U S diplomacy military operations and economic statecraft Sadler argues for integrating the levers of national power coherently and in a sustainable way This is no small feat and his approach is informed by a long career rich in working with various agencies of government foreign militaries including hostile ones and our allies It is an approach imminently appropriate to our times but comes with a realization that the nation is not ready for the competition it faces from China and Russia The book is a valuable contribution to the national debate over how best to respond to China s rise and Russia s antagonisms **Twentieth-Century China** Jeffrey N. Politics in China William A. Joseph, 2014-03-14 On October 1 2009 the People's Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world's poorest countries into the world's fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest

East Asia's Other Miracle Alex J.

Bellamy, 2017-10-06 East Asia until recently the scene of widespread blood letting has achieved relative peace A region that at the height of the Cold War had accounted for around eighty percent of the world's mass atrocities has experienced such a decline in violence that by 2015 it accounted for less than five percent This book explains East Asia's other miracle and asks whether it is merely a temporary blip in the historical cycle or the dawning of a new and more peaceful era for the region It argues that the decline of mass atrocities in East Asia resulted from four interconnected factors the consolidation of states and emergence of responsible sovereigns the prioritization of economic development through trade the development of norms and habits of multilateralism and transformations in the practice of power politics Particular attention is paid to North Korea and Myanmar countries whose experience has bucked regional trends largely because these states have not succeeded in consolidating themselves to the point where they no longer depend on violence to survive Although the region faces several significant future challenges this book argues that the much reduced incidence of mass atrocities in East Asia is likely to be sustained into the foreseeable future
