Handbook of Research on the Regulation of the Modern Global Migration and Economic Crisis Alaverdov, Emilia, Bari, Muhammad Waseem, 2023-02-17 Migration is not a new phenomenon it has a centuries long history since the world's population has been characterized by the desire to relocate not only from one country to another but from one continent to another as well. However, there is a significant difference between the migrations of the past and the current one. Today's migration is complicated by the strong emotional reaction and hostile attitude from society. The study of migration processes needs interdisciplinary approaches. The Handbook of Research on the Regulation of the Modern Global Migration and Economic Crisis presents emerging research and case studies on global migration in the modern world. Through interdisciplinary approaches, it further showcases the current challenges and approaches in regulation. Covering topics such as forced migration, human trafficking, and national identity, this major reference work is an excellent resource for migration specialists, government officials, politicians, sociologists, economists, students, and educators of higher education, researchers, and academicians.

Law and Sport in Contemporary Society Steven Greenfield, Guy Osborn, 2013-05-13 As the commercialization of sport grows, the need for proper regulation increases. In legal terms, sport is part of the entertainment and media industries, which are subject to rapid change. This work brings together experts in many fields to analyze these changes and to discuss the implications of issues such as the BSkyB Manchester United case, civil and criminal actions on the playing field, the Bosman ruling, drugs in sport, the legality of boxing, and the validity of decisions made by governing bodies. This collection should appeal to students of both sports history and sports sociology.

Carefully curated, it presents an invaluable survey of legal pedagogy.

Contemporary Challenges in Regulating Global Crises M. Findlay, 2013-02-21 Mark Findlay's treatment of regulatory sociability charts the anticipated and even inevitable transition to mutual interest, which is the essence of taking communities from shared risk to shared fate. In the context of today's global crises, he explains that for the sake of sustainability, human diversity can bond in different ways to achieve fate.
