Richard Smith, Philip Wexler

Modern Madness The Hidden Link Between Work And Emotional Conflict:

Modern Madness Douglas LaBier,2016-02-23 An acclaimed exploration of the ways in which success within our career culture can produce hidden emotional and value conflicts for men and women Sheds new light on the path to success and personal fulfillment in today s workplace Modern Madness Douglas Labier,1986-01-21 **Modern Madness** Douglas LaBier,2016-02-02 An acclaimed exploration of the ways in which success within our career culture can produce hidden emotional and value conflicts for men and women Sheds new light on the path to success and personal fulfillment in today s workplace **Assessing Emotional Intelligence , Informal Learning in the Workplace** John Garrick,2012-12-06 Informal learning has become an extremely important issue as post industrial workplaces seek to harness its productive potential Managers and HRD practitioners have attempted to deploy informal learning in the design of corporate cultures however most discussions of the subject have tended to be uncritical expositions which do not challenge the underlying economic philosophical and organisational rationale Uniquely this book goes against this tendency It critically examines definitions of informal learning and focuses on its application in a variety of workplace contexts It features theories of informal learning the unmasking of contemporary corporate rhetoric the implications for accounts of workplace learning of poststructuralist and post modern perspectives Incorporating case studies based on interviews with practising managers and HRM practitioners and a detailed glossary of key concepts and issues this book will be a valuable reference for students of workplace learning False Fixes David Forbes,1994-08-04 This book examines recent efforts to rid society of addictions and finds them wanting The author examines everyday addictive patterns within modernist and postmodernist cultures and provides practical suggestions in the areas of substance abuse prevention and the addiction recovery movement Work, Self and Society Catherine Casey,2013-01-11 Despite recent interest in the effects of restructuring and redesigning the work place the link between individual identity and structural change has usually been asserted rather than demonstrated Through an extensive review of data from field work in a multi national corporation Catherine Casey changes this She knows that changes currently occurring in the world of work are part of the vast social and cultural changes that are challenging the assumptions of modern industrialism These events affect what people do everyday and they are altering relations among ourselves and with the physical world This valuable book is not only a critical analysis of the transformations occurring in the world of work but an exploration of the effects of contemporary practices of work on the self *Problems Are Us* Colin Feltham,2004-02 What's Wrong with Us? Colin Feltham,2007-06-13 What s wrong with us Professor Colin Feltham believes that the current crises of the human condition are symptoms of a chronic wayward tendency which he terms anthropathology This interdisciplinary look at the zeitgeist of crisis traces the roots of human suffering exploring the contemporary issues of human violence deceit patriarchy abuse irrationality and greed Our human anthropathology is placed at the heart of all such problems Echoing the pessimism of Schopenhauer Cioran Beckett Gray and others Feltham

nevertheless insists that answers may be formulated through confrontation Challenging and enlightening for professionals academics and students What s Wrong With Us is also a fascinating read for anyone with a general interest in our current social state **After Postmodernism** Richard Smith,Philip Wexler,2005-09-27 This work presents a set of thematic essays aimed at clarifying the educational problems and paradoxes of postmodern educational conditions and theory The major concerns of the book are the possibility of achieving substantive political objectives and of theorising such possibilities These concerns arise from a dissatisfaction with the organisational and political conditions of postmodern educational practice The seeming inability of academics to intervene in the public sector especially in matters of equality provides a driving force to the book For individuals who care about the future of education and its role in social reconstruction the pessimistic nature of postmodern theories of society and education is an additional impetus for the book All the chapters exemplify the issues that confront lecturers in contemporary university teacher education contexts A notable feature of the book is a theme that current theorisation about education and society are historically outmoded and that the future lies in post postmodern theories
