Modern Historians:

Modern Historians and the Study of History Frederick Maurice Powicke, 1956 *Modern Historians and the Study of History* Frederick Maurice Powicke, 1955 *The Invention of Ancient Israel* Keith W. Whitelam, 1996 Shows how ancient Israel has been invented by scholars in the image of a European nation state influenced by the Israeli state created in 1948 Biblical scholars have contributed to dispossessing the Palestinians of their land and their past **The Oxford Handbook of Modern British Political History, 1800-2000** David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges *A Textbook of Historiography, 500 B.C. to A.D. 2000* E. Sreedharan, 2004 This book traces the development of historiography from the days of Herodotus to those of postmodernism It covers the ancient medieval and the modern aspects of the subject and offers easy comprehension clear and precise guidance and immediate utility The author provides a balanced view of competing ideas and leads the reader into the vast arena of the subject Two thousand five hundred years of historiography including Indian historiography and the poststructuralist critique of history constitutes this clear analytical work **Modern Historians and the Study of History** F. M. Powicke, 2003-01-01 *The Jesus Legend* Paul Rhodes Eddy, Gregory A. Boyd, 2007-08-01 Christianity Today 2008 Book Award Biblical Studies Even mature Christians have trouble defending the person and divinity of Christ The Jesus Legend builds a convincing interdisciplinary case for the unique and plausible position of Jesus in human history He was real and his presence on the planet has been well documented The authors of the New Testament didn't plant evidence though each writer did tell the truth from a unique perspective This book carefully investigates the Gospel portraits of Jesus particularly the Synoptic Gospels assessing what is reliable history and fictional legend The authors contend that a cumulative case for the general reliability of the Synoptic Gospels can be made and boldly challenge those who question the veracity of the Jesus found there **Revolutions and Continuity in Greek Mathematics** Michalis Sialaros, 2018-04-23 This volume brings together a number of leading scholars working in the field of ancient Greek mathematics to present their

latest research In their respective area of specialization all contributors offer stimulating approaches to questions of historical and historiographical revolutions and continuity Taken together they provide a powerful lens for evaluating the applicability of Thomas Kuhn s ideas on scientific revolutions to the discipline of ancient Greek mathematics Besides the latest historiographical studies on geometrical algebra and premodern algebra the reader will find here some papers which offer new insights into the controversial relationship between Greek and pre Hellenic mathematical practices Some other contributions place emphasis on the other edge of the historical spectrum by exploring historical lines of continuity between ancient Greek Byzantine and post Hellenic mathematics The terminology employed by Greek mathematicians along with various non textual and material elements is another topic which some of the essays in the volume explore Finally the last three articles focus on a traditionally rich source on ancient Greek mathematics namely the works of Plato and Aristotle

Allegorizing History Timothy J Furry,2014-05-29 What is history and how does it impact upon biblical interpretation and theology Allegorizing History seeks to answer this question by arguing that conceptions of the past and the purposes of history impact upon biblical interpretation and vice versa Invoking Constantin Fasolt s notion of history as a knowledge of the past as well as the technique by which such knowledge is produced and re fashioning Erich Auerbach s historical enterprise in *Figura* 1938 Furry contends that the understanding and practice of historical writing is inevitably affected by philosophy and theology thereby rendering all history as figural or allegorical Famous for his *Ecclesiastical History of the Anglo Saxon People* and biblical commentaries the Venerable Bede is studied in dialogue with Augustine contemporary theology and historical theory to make this interdisciplinary argument

Authenticating Criteria in Jesus Research and Beyond Kevin B. Burr,2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography
