Alexander Orakhelashvili

Modern Introduction To International Law:

Akehurst's Modern Introduction to International Law Alexander Orakhelashvili, 2022-02-28 First published in 1970 Akehurst's Modern Introduction to International Law rapidly established itself as a widely used and successful textbook in its field Being the shortest of all the major textbooks in this area it continues to offer a concise and accessible overview of the concepts themes and issues central to the growing system of international law while retaining Akehurst's original positivist approach that accounts for the essence and character of this system of law This new ninth edition has been further revised and updated by Alexander Orakhelashvili to take account of a plethora of recent developments and updates in the field accounting for over forty decisions of international and national courts as well as a number of treaties and major incidents that have occurred since the eighth edition of this textbook was published Based on transparent methodology and with a distinctive cross jurisdictional approach which opens up the discipline to students from all backgrounds this engaging well structured and reputable textbook will provide students with all the tools methods and concepts they need to fully understand this complex and diverse subject It is an essential text for all undergraduate and postgraduate students of international law government and politics and international relations This book is one of the only textbooks in international law to offer a fully updated bespoke companion website www.routledge.com/cw/orakhelashvili Akehurst's Modern Introduction to International Law Peter Malanczuk, 2002-04-12 First published in 2002 Routledge is an imprint of Taylor Francis an informa company **Akehurst's Modern Introduction to International Law** Peter Malanczuk, 1997 **A Modern Introduction to International Law** Michael Barton Akehurst, 1984 A Modern Introduction to International Law Michael Barton Akehurst, 1991 *A Modern Introduction to International Law, By Michael Akehurst* Michael Barton Akehurst, 1970 **Territorial Foundations of the Gulf States** Richard Schofield, 2016-11-18 This book first published in 1994 provides a comprehensive treatment of a crucial set of geopolitical issues from a region where political developments are observed with great care and some trepidation by the rest of the world Based on expert analysis by leading researchers the book is the first English language to deal collectively with the origins and contemporary status of land and maritime boundaries in the Gulf and Arabian Peninsula The 1990 Iraqi invasion of Kuwait was the gravest challenge yet posed to the system of small states established by Britain during its stay as a protecting power along the western Gulf littoral Immediately questions were raised about the origins of these tiny emirates How had this territorial framework evolved What was its raison d'être How capable was this framework of withstanding serious internal and external upheaval such as that caused by the Iraqi invasion This book reviews these and related concerns from a variety of informed perspectives those of the boundary maker himself the international lawyer the oil economist and the political and historical geographer The origins of the region's framework of state territory are carefully scrutinised as are the region's borders and the contemporary disputes over their status The period following the first Gulf War has witnessed an increase in the prevalence of Arabian territorial

disputes Some are new such as Saudi Qatar but most are established cyclical affairs Although a complete explanation for these developments is premature they have occurred as states in the region have been making clear moves to finalise the framework of Arabian state territory only the Saudi Yemen border remains indeterminate albeit the subject of current negotiations The book begins with a major scene setting chapter by Richard Schofield This is followed by chapters containing expert insights into the relationship between territory and indigenous notions of sovereignty Britain's role in drawing Arabian territorial limits including a contribution from someone who drew up some of its boundaries Iran Kuwait disputes in particular maritime boundaries the hydrocarbon dimension and concepts of shared political space With many newly drawn maps based on original research this volume stands alone as a comprehensive reader on an issue that plays a dominant part in the regional geopolitics of the Gulf and Arabian Peninsula

A New Legal Framework for Managing the World's Shared Groundwaters Fadia Daibes-Murad, 2005-11-01 What are the rules of international water law that govern the use of the transboundary aquifers shared by Palestine and Israel This book addresses this issue through an interdisciplinary approach identifying first the special problems tied to the management of shared groundwater and next critically analysing the applicable rules of international law The innovative contribution of this work is its attempt to devise and suggest the means to implement a progressive framework for cooperation in the development and management of these shared waters A solid review of hydro politics supported by current up to date information and rigorous examination of the evolution of the relevant rules of international law makes this book an important contribution to this very problematic area Dr Fadia Diabes Murad was awarded the Edberg Award 2005 presented at a special awards ceremony in Stockholm The award recognised her contribution to peace in the Middle East through her work on water law including using water as a catalyst for peace in the Middle East

Enemy Combatants, Terrorism, and Armed Conflict Law David K. Linnan, 2008-01-30 With a renewed emphasis on national and homeland security the United States is once again seeking to balance the needs of the state with both the rights of its citizens as well as those of other nations This book represents an interdisciplinary approach to the legal dilemmas borne out by the war on terror against the specific background of Afghanistan Iraq and this new kind of conflict It is a strong contribution to a broader debate visible since 9 11 which will remain in the public eye for the foreseeable future It addresses the overlap between religion ethics armed conflict and law within the context of the current conflict While many issues in areas such as intelligence reconciliation of civil liberties dealing with terrorist threats and the permissible bounds of interrogation treatment of prisoners and laws governing armed conflict have long standing precedents under domestic and international law this war has challenged even long standing legal interpretations The contributors to this volume explore those precedents and contemporary challenges to them Now that traditional wars between nation states are no longer the rule the terrorist threat has gained credence popularly terrorism and its claimed breeding ground in failed states linked in practice to issues of intervention on the territory of states harboring such groups In military circles the idea of armed

struggle between modern military forces and what were formerly called guerillas has now largely been replaced by asymmetric warfare and the concept of intelligence and preventive action interchangeably within U S borders and overseas. Opposing views contemplate that different and presumably lower legal standards may apply in internal armed conflicts. Such legal issues are visible under current circumstances of asymmetric warfare in conjunction with questions about prisoner status and detentions including the permissible bounds of interrogation versus torture following the Abu Ghraib prison scandal in Iraq but also the treatment at the Guantanamo Bay facility of alleged Al Qaeda captives from Afghanistan. All of the contributors in this book explore the changing circumstances against which these contentious new legal issues now unfold. The experts strike no consensus. Indeed one of the work's many strengths can be attributed to the fact that the many facets of the ongoing debate are represented herein.

Responsibility to Protect and Prevent John Janzekovic, Daniel Silander, 2014-12-01

Responsibility to Protect and Prevent: Principles, Promises, and Practicalities explores the evolution of responsibility to protect (R2P), a principle which according to its supporters has evolved into a new type of responsive norm for how the international community should react to serious and deliberate human rights violations. Arguing that the R2P ethos has been misunderstood and used ineffectively, this work defends the validity of R2P and urges for a more practical understanding that moves beyond theory. The progression of R2P from an initial concept to formal ratification has been a very difficult one with a great deal of disagreement over its validity as a substantive norm in international affairs. The key disagreement is not that protection or prevention are unimportant but rather how the fine-sounding R2P principles are supposed to work in practice. This volume presents a number of important arguments that are directly related to the state vs human security debate with a critical analysis of the nexus between the protection versus prevention theses. Through the case study of the Libyan Crisis, Janzekovic and Silander offer an example of the R2P thesis in action and support the claim that prevention should be more than an adjunct to protection.

This is likewise one of the factors by obtaining the soft documents of this **Modern Introduction To International Law** by online. You might not require more mature to spend to go to the books introduction as well as search for them. In some cases, you likewise reach not discover the broadcast Modern Introduction To International Law that you are looking for. It will enormously squander the time.

However below, taking into account you visit this web page, it will be fittingly entirely simple to get as without difficulty as download lead Modern Introduction To International Law

It will not tolerate many epoch as we explain before. You can get it even though work something else at home and even in your workplace. for that reason easy! So, are you question? Just exercise just what we present under as with ease as review **Modern Introduction To International Law** what you subsequent to to read!
