Modern Management S G:

Singapore Kenneth Paul Tan, 2018-08-30 Contemporary Singapore is simultaneously a small postcolonial multicultural nation state and a cosmopolitan global city To manage fundamental contradictions the state takes the lead in authoring the national narrative This is partly an internal process of nation building but it is also achieved through more commercially motivated and outward facing efforts at nation and city branding Both sets of processes contribute to Singapore's capacity to influence foreign affairs if only for national self preservation For a small state with resource limitations this is mainly through the exercise of smart power or the ability to strategically combine soft and hard power resources *Private Education In Singapore: Contemporary Issues And Challenges* Choon-yin Sam, 2017-05-23 Not much has been written about the private education sector in Singapore despite the fact that the sector houses about 300 private education institutions PEIs and enrolls about 150 000 students Private Education in Singapore Contemporary Issues and Challenges is an exciting book that aims to fill a gap in the literature In the book the author offers an extensive discussion on i the key elements of the sector types and features of the PEIs ii the regulatory framework for private education iii students aspiration and the impact of the ASPIRE report on PEIs and iv the provision of external degree programme through transnational partnership The book also tackles the hotly debated discussion in relation to academic quality and standard of PEI courses The author identifies the reasons some of them have more characteristics of a myth and suggests a number of ways to overcome the issues and challenges *50 Years Of Singapore's Productivity Drive* Kin Chung Woon, Ya Lee Loo, 2017-12-26 2017 marks the 50th year of Singapore's national productivity drive This book provides a comprehensive account of the phases milestones and activities of the productivity drive from its humble beginnings in 1967 The coverage ranges from the assistance that Singapore received through the United Nations Development Programme and the Japan Singapore Productivity Development Project to the national campaigns and programmes to build competencies in enterprises and the workforce The various developments are placed in the context of the economic environment and the priorities of the country at different points in time This makes it clear why certain policies were implemented and why the productivity drive was transformed as Singapore progressed from a developing country to a developed country Drawing insights from the 50 year history the book concludes with a list of issues for reflection *Singapore* Rodolphe de Koninck, Julie Drolet, Marc Girard, 2008 Since 1965 when it became a fully independent city state Singapore has been an effervescent laboratory of economic social and environmental transformation and innovation The government of the small island republic which currently covers about 720 sq km has thoroughly transformed and extended the lands under its control to serve the needs and ambitions of its citizens The systematic overhaul of the Singaporean environment reflects a deliberate policy of social transformation a revolution controlled and monitored from above While Singapore's achievements in the realm of economic and social development have been carefully observed little has been said about the close connections between these accomplishments and territorial

management Based on an extended series of diachronic maps this book illustrates the nature and depth of the territorial changes that have occurred since the early 1960s The commentary that accompanies the maps shows how Singapore has used this ongoing territorial transformation to support its position in a globalized economy and also as a tool of social and political management

Singapore Garry Rodan,2017-07-12 This title was first published in 2001 A collection of valuable previously published essays analyzing the major social dynamics shaping the increasingly complex society economy and polity of contemporary Singapore Topics range from ideology and culture to the character of the state and its institutions and the possibilities for political reform

The East Asian Welfare Model Roger Goodman,Huck-Ju Kwon,Gordon White,2006-12-05 For many politicians and observers in the West East Asia has provided a broad range of positive images of the state s intervention in society Neoliberals grew excited by popular welfare systems that cost little in expenditure and bureaucracy Social democrats thought they had found a model for social cohesion and equality In fact the reality in East Asia is rather different from these stereotypes In this book six specialists of six different societies in East Asia Japan South Korea Taiwan China Singapore and Hong Kong examine the role of the state in their welfare systems There are detailed case studies on pensions health insurance housing and personal social services They provide an up to date detailed account of how these systems have developed as well as an examination of the question of whether these welfare regimes are the natural outgrowth of cultural traditions or the result of economic and political conditions This broad ranging and detailed study will be welcomed by both students and policy makers as the first proper academic study in English to have such a wide coverage of this topic Its clarity and authority should come as a welcome alternative to the more common misconceptions about Asian society

Capital and Knowledge in Asia Heidi Dahles,Otto van den Muijzenberg,2003-09-02 This book focuses on the key role played by producer services in shaping new business areas and new patterns for social mobility and their interdependence with the State and the emergence and flourishing of the new professions

Competitiveness Of The Singapore Economy: A Strategic Perspective Kong Yam Tan,Mun Heng Toh,1998-05-13 This book provides an intensive review of the economic competitiveness of the Singapore economy and identifies the strategies which will allow the economy to retain its competitive advantage in an increasingly globalised economic environment in future years It is a timely exercise in view of the fact that the international trading and investment climate has liberalised considerably and the regional economies are achieving remarkable economic growth and development which begin to challenge Singapore s competitive edge as a regional transportation hub international financial centre and a primary regional centre for technology and education

Singapore's Permanent Territorial Revolution Rodolphe De Koninck,2017-05-19 Ever since Singapore became an independent nation in 1965 its government has been intent on transforming the island s environment This has led to a nearly constant overhaul of the landscape whether still natural or already manmade Not only are the shape and dimensions of the main island and its subsidiary ones constantly modified so are their relief and hydrology No stone is left

unturned literally and one could add nor is a single cultural feature be it a house a factory a road or a cemetery Given one of Singapore's unique feature namely that the state is the sole landlord all types of property in all parts of the island rural as well as urban were and remain subject to expropriation fortunately always with due compensation This atlas illustrates essentially through diachronic mapping of the changing distribution of all forms of land use the universality of what has become a tool of social management By constantly replanning the rules of access to space the Singaporean State is thus redefining territoriality even in its minute details This is one reason it has been able to consolidate its control over civil society peacefully and to an extent rarely known in history *Chinese Street Opera in Singapore* Tong Soon Lee, 2024-03-18

Since Singapore declared independence from Malaysia in 1965 Chinese street opera has played a significant role in defining Singaporean identity Carefully tracing the history of amateur and professional performances in Singapore Tong Soon Lee reflects on the role of street performance in fostering cultural nationalism and entrepreneurship He explains that the government welcomes Chinese street opera performances because they combine tradition and modernism and promote a national culture that brings together Singapore's four main ethnic groups Eurasian Malay Chinese and South Asian Chinese Street Opera in Singapore documents the ways in which this politically motivated art form continues to be influenced and transformed by Singaporean politics ideology and context in the twenty first century By performing Chinese street opera amateur troupes preserve their rich heritage underscoring the Confucian mind set that a learned person engages in the arts for moral and unselfish purposes Educated performers also control behavior emotions and values They are creative and innovative and their use of new technologies indicates a modern entrepreneurial spirit Their performances bring together diverse ethnic groups to watch and perform Lee argues while also encouraging a national attitude focused on both remembering the past and preparing for the future in Singapore
