**My Sign Is Capricorn** Amanda Starr, 2001-08 Perfect for pre teens and young teenagers these pocket sized books describes the characteristics of the people born under each Zodiac sign *What's the Deal with My Sign? An Insight on Astrology* Lamar J J Young, 2016-02-26 Do you want to know quirky things about your zodiac sign Do you desire to know what makes other zodiac signs tick Or maybe you want to know if you should pursue a relationship with another person Then *What's the Deal with My Sign An Insight on Astrology* is a must read Author Lamar Young takes a unique perspective in helping you discover the unique intricacies about the twelve zodiac signs From knowing how signs are related through the four primary elements of fire earth air and water to the more clandestine astrology topic of modes this book provides a way of looking at yourself and others differently Whether you are an old pro or a newbie to astrology *What's the Deal with My Sign An Insight on Astrology* is sure to satisfy anyone's cravings on how to get the best out of yourself and others

*Psychological Astrology and the Twelve House* Noel Eastwood, 2015-06-23 *Psychological Astrology and the Twelve Houses* will surprise you whether you are a complete beginner or a seasoned professional Noel Eastwood is an astrologer tarotist and has recently retired from his psychology practice He approaches astrology as an altered state of consciousness He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable you need to experience the place for yourself meet the locals in small cafés discover hidden fountains and secret gardens This is a practice oriented work Noel takes every opportunity to demonstrate how astrological symbolism translates into the personality of an individual He picked four well known figures to illustrate the process of analysis on their charts What makes this book truly unique however is an invitation to meet your astrological archetypes To show where such an inner journey can take you Noel shares his personal meditations as if you were reading his private travel diary Also available as an audiobook Reviews Comprehensive and concise with great meditations and stories Lots of interesting insights The author is an excellent reader B I was very excited to read his book because it takes on some intensely personal subject matter from a psychological perspective which Noel is uniquely qualified to write about since he is that rare combination that I wish we had more of in the astrological world a practicing psychologist and astrologer His areas of expertise are Jungian and archetypal psychology astrology Tarot and Taoist meditation so he's well versed in the realms of the psyche My first impression once I got started reading is that this book is an ideal blend of serious subject matter handled with respect for the reader with just enough astrologese for the basic to medium advanced astrology student Noel does not overwhelm you with the level of detail that is automatically off putting for the beginner You won't be scared picking up this book in other words if you aren't an astrology expert This book is for the person who in my opinion would be dissatisfied with the superficial or cookbook style astrology book and is looking for something that goes deeper that explains the pieces of the self we don't usually discuss even in the astrological world but most people who want to understand their own and

others psychology wish could be discussed with some depth and understanding of what's really going on in our psyches as expressed through our natal charts Speaking as a professional astrologer I personally got the most out of the very end of the book where Noel discusses houses as psychological defenses If you read this book for nothing else get it for the series of meditations Noel asks you to do those on their own are very valuable and I would suggest keeping a journal as you go to capture your responses A valuable book for the person looking for psychological self awareness AG I have studied astrology for years and buy a new book every now and then to enhance my understanding This book is the first in a long time that really had me intrigued and learning had my highlighter out Eastwood's combination of astrology and psychology knowledge experience makes the content easier to follow and provides a much deeper foundation on how to interpret the 12 houses what's in them and what's NOT and other key influences Looking forward to the next two books in this series J This book is exactly what I was looking for Excellent information presented in an entertaining and logical way For the serious student only I would advise I've been on the metaphysical road pretty much since birth have studied astrology charts for over 25 years This book truly helped me synthesize an enormous amount of facts and data that constantly swim around in my head Noel Eastwood Thank you sir for taking the time and making the effort to help students like me on our sometimes strange and difficult yet always amazing personal journeys For me healing is the goal knowledge is the path and application practice are the keys This book makes a great contribution and I look forward to more from this author teacher AS Child Astrology M. *The New Medical Astrology* Mario Kertscher,2025-02-25 The teaching of a New Medical Astrology is an attempt to bring medicine and astrology closer together again While medicine has continued to develop and gain new insights into the organs

classical medical astrology has hardly developed at all in the last 2000 years since the doctrine that Aries begins with the head and Pisces ends with the feet After 40 years of thorough research the New Medical Astrology is now based on 12 vital organ systems within the head and torso which correspond to the 12 signs of the zodiac Unlike in Hippocrates time more than 2000 years ago the arms and legs do not play a major role in the new classification as they do not represent vital organs This work is a new connection between the psychological astrology human anatomy psychosomatics and eye diagnosis This textbook forms the basis for learning astrology New Medical Astrology and at the same time forms a bridge to the psychosomatic explanations of illnesses in relation to the individual zodiac signs The intention was to write a textbook in an easily understandable way and to avoid confusing foreign or technical terms that too difficult to understand This makes it equally suitable for learning teaching or just exploring for both young and old explorers of astrology     **Astrology**
