The Edge of Modernism Walter Kalaidjian,2020-03-03 In The Edge of Modernism Walter Kalaidjian

explores American poetry on genocide the Holocaust and total war as well as on postwar social antagonisms racial oppression and domestic violence By asking what it means for traumatic memory to have agency in the American verse tradition Kalaidjian creates an original historical account of how American poets became witnesses often unconsciously to modern extremity Combining psychoanalytic theory and cultural studies this intense sweeping account of modern poetics analyzes the ways in which literary form gives testimony to the trauma of twentieth century history Through close readings of well known and less familiar poets among them Langston Hughes Countee Cullen Claude McKay Edwin Rolfe Sylvia Plath Adrienne Rich Peter Balakian Rachel Blau DuPlessis Anne Sexton and Anthony Hecht Kalaidjian discerns the latent edge of modern trauma as it cuts through the literary representations themes and formal techniques of twentieth century American poetics In this way *The Edge of Modernism* advances an innovative and dynamic model of modern periodization

Moral Evil Andrew Michael Flescher, 2013-10-24 The idea of moral evil has always held a special place in philosophy and theology because the existence of evil has implications for the dignity of the human and the limits of human action Andrew M Flescher proposes four interpretations of evil drawing on philosophical and theological sources and using them to trace through history the moral traditions that are associated with them The first model evil as the presence of badness offers a traditional dualistic model represented by Manicheism The second evil leading to goodness through suffering presents a theological interpretation known as theodicy Absence of badness that is evil as a social construction is the third model The fourth evil as the absence of goodness describes when evil exists in lieu of the good the privation thesis staked out nearly two millennia ago by Christian theologian St Augustine Flescher extends this fourth model evil as privation into a fifth which incorporates a virtue ethic Drawing original connections between Augustine and Aristotle Flescher's fifth model emphasizes the formation of altruistic habits that can lead us to better moral choices throughout our lives Flescher eschews the temptation to think of human agents who commit evil as outside the norm of human experience Instead through the honing of moral skills and the practice of attending to the needs of others to a greater degree than we currently do Flescher offers a plausible and hopeful approach to the reality of moral evil

Black is a Church Josef Sorett, 2023 From the earliest literary productions of the eighteenth century to the BlackLivesMatter movement in the twenty first century religion namely Protestant Christianity has been encoded in black life in North America *Black is a Church* invites attention to the surprising alliances peculiar performances and at times contradictory ideas and complex institutions that shape the contours black life in the United States

Twonism II (Thoughts, Essays, and Poems on Life and Art) Premium Paperback Edition Damon Freed, *Novels, Novelists, and Readers* Mary F. Rogers, 1991-07-03 Focusing on British and American novels Rogers takes a sociological look at the business of literature the book industry and the experiences of novelists and readers Viewing the novel as a vehicle of cultural meaning the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations She emphasizes the kinship between the social sciences

and humanities in her analysis by reinvigorating affection for the novel and also establishing its rich cultural significance

Handbook of Research on Teaching With Virtual Environments and AI Panconesi, Gianni, Guida, Maria, 2021-02-19 The increasingly pervasive use of digital technology has catapulted society into an interconnected world where the natural boundaries between humankind and machine virtual and real individual and community have become less perceptible As individuals interact with different digital technologies they must build a digital intelligence which must be further cultivated as it is a key competency for the future of school and work Digital intelligence includes understanding the mutual strengths between people and technology as well as developing an awareness in the use of digital tools in order to avoid common threats such as cyberbullying addiction to video games techno stress and more As adolescents continue to engage with virtual reality and 3D virtual worlds where the online and offline overlap and coincide it is important to build this intelligence as well as utilize these technologies to promote successful learning The Handbook of Research on Teaching With Virtual Environments and AI explores the new personalized educational opportunities that are available with digital technology and virtual environments that can be used within education This book focuses on the use of these tools and how to navigate the use of new technologies such as AI and virtual environments for educational practices While highlighting topics such as virtual worlds game based learning intelligent tutoring augmented reality and more this book is ideal for teachers administrators technologists educational software developers IT specialists practitioners researchers academicians and students interested in how virtual environments and AI are being implemented in teaching practices **Teaching Religion**

and Literature Daniel Boscaljon, Alan Levinovitz, 2018-09-27 Teaching Religion and Literature provides a practical engagement with the pedagogical possibilities of teaching religion courses using literature teaching literature classes using religion and teaching Religion and Literature as a discipline Featuring chapters written by award winning teachers from a variety of institutional settings the book gives anyone interested in providing interdisciplinary education a set of questions resources and tools that will deepen a classroom s engagement with the field Chapters are grounded in specific texts and religious questions but are oriented toward engaging general pedagogical issues that allow each chapter to improve any instructor s engagement with interdisciplinary education The book offers resources to instructors new to teaching Religion and Literature and provides definitions of what the field means from senior scholars in the field Featuring a wide range of religious traditions genres and approaches the book also provides an innovative glimpse at emerging possibilities for the sub discipline *Europe and Latin America* Peter R. Beardsell, 2000 This book discusses the development of dissident Irish

republicanism and considers its impact on politics throughout Ireland since the 1980s Based on a series of interviews with over ninety radical republican activists from the wide range of groups and currents which make up dissident republicanism the book provides an up to date assessment of the political significance and potential of the groups who continue to oppose the peace process and the Good Friday Agreement It shows that the dissidents are much more than traditionalist

irreconcilables left behind by Gerry Adams entry into the mainstream Instead the book suggests that the dynamics and trajectory of dissident republicanism are shaped more by contemporary forces than historical tradition and that by understanding the dissidents we can better understand the emerging forms of political challenge in an age of austerity and increasing political instability internationally

Shifting Focus Peter Roberts, 2017-10-02 There is a long history of interest in strangers and strangeness in the West Literature lends itself particularly well to an exploration of the strange in its richly varied forms having often contained portraits of outsiders These portraits depict people who are strange in their unusual appearance or demeanour their out of the ordinary actions or attitudes their defiance of convention their marginalisation from society or their resistance to dominant structures and practices as well as those who come from strange worlds Each contribution in this collection focuses on a novel story or play The essays engage works by Shelley Dickens Charlotte Bront Dostoevsky Conrad Grazia Deledda Kafka Beckett and Camus all of whom have much to offer the central theme of strangers and strangeness This book demonstrates that there is considerable value in encountering experiencing and reflecting upon that which is strange Education is amongst other things a process of learning to see the world otherwise and literature has the capacity to promote this form of human development This book allows readers to re experience the ordinary and to learn that what at first seems strange is rather closer to us than we had previously imagined This book was originally published as a special issue of Educational Philosophy Theory
