No More Lies About Africa Heres The Truth From An African:

No More Lies about Africa Musamaali Nangoli,2001 *No More Lies about Africa* Musamaali Nangoli,1986

Christian Zionism in Africa Cynthia Holder Rich,2021-01-06 Christian Zionism a movement based on the belief that support of Israel and Israeli ownership of and residence in Jerusalem is a prerequisite for Christ s return has been a significant substratum within theologies and ecclesiologies of many churches in the US and Europe for centuries Since the 1970s US based Christian Zionism organizations encouraged by and collaborating with the Israeli government have used a significant amount of resources to spread the movement into other regions of the world including Africa In many African countries Christian Zionism combines perniciously with Prosperity Gospel preaching interpreting Genesis 12 3 as a divine map to gain blessings material and otherwise through complete and uncritical support for the modern day State of Israel Many African governments have come to understand that this support is lucrative and coercive African officials working with Israel learn that openly supporting Palestine will result in their partnerships with Israel being discontinued Contributors to this interdisciplinary volume analyze the meaning and ramifications of the emergence of Christian Zionist ideologies in Africa and its churches in interfaith work in politics in law and in the use and abuse of power between peoples of different races histories economic strength and influence on the international stage *Bible Interpretation and the African Culture* David J. Ndegwah,2020-01-15 This book can be summarized in one sentence that culture plays a determinant role in the way people perceive interpret and therefore respond to reality around them ideas events people and literature including sacred literature Thus when people encounter new reality they perceive and conceptualize it in accordance with their worldview which is shaped by their culture that is modeled to suit various geographical locations In order to understand why people around the world behave and act as they do they choose certain words in what they say and do certain things rather than others it is important to understand and appreciate this fact Failure to do so would make it very difficult to engage in any dealings with them secular or religious like doing business or evangelization This is what happened to the P kot people whose worldview is predominantly communitarian and yet they were introduced to hermeneutics that are predominantly individualistic which is at loggerheads with their communal aspirations The manifestation of this reality is the interpretation of the Good Shepherd parable in the Gospel of John which the P kot have understood and contextualized in line with their worldview against the intentions goals and disposition of their evangelizers ***Seeds of Conflict in a Haven of Peace*** Frans Wijsen,2007-01-01 On 7 August 1998 the American embassies in Nairobi and Dar es Salaam were bombed and 200 people lost their lives These bombings shattered the image of Africa s tradition of peaceful religious coexistence Since then inter religious dialogue has been high on the agendas of ecclesial and religious organisations but not so much of faculties of theology and departments of religion in East Africa This book investigates why this is so How are interreligious relations dealt with in Africa and more particularly how are they and how should they be taught in institutions of higher learning This

book is based on fieldwork in Nairobi from 2001 onwards It shows why Africa s tradition of peaceful co existence is not going to help Africa in the 21st century and recommends a shift in the education in inter religious relations from religions studies to inter religious studies **Crossroad Discourses between Christianity and Culture** ,2010-01-01 Christianity exists in relation to and interacts with its cultural environment in a number of ways In this volume authors from a wide variety of backgrounds explore various facets of the relationship and interaction of Christianity with its cultural environment politics society esthetics religion and spirituality and with itself Divided into three main sections Crossroad Discourses between Christianity and Culture looks at the interaction of Christianity with culture in the first section with other religions and spiritualities in the second and finally with itself in the third The contributions engage in a critical examination of not only the culture in which Christianity finds itself but also in a critical examination of Christianity itself and its interaction with that culture The editors hope that teachers students and readers in general will profit greatly from the critical articles contained in this book **Never Again** Emma Etuk,2008-05 In this book you will learn how Africa is greatly endowed and blessed her contributions to world civilization experiences with colonialism and neo colonialism her need to excel produce or perish the lessons from history and Never Again **SOCIAL WELFARE IN ZAMBIA** Ndangwa Noyoo,2013-07-18 This book discusses social welfare activities in Zambia in the pre colonial colonial and post colonial periods It explains how indigenous social welfare initiatives in colonial Zambia culminated in the Federation of Welfare Societies The former became the first nationalist party in this era known as the Northern Rhodesia Congress NRC with Godwin Mbikusita Lewanika as its leader The book also elucidates how the first African government which was headed by Kenneth Kaunda attained positive human development indicators in Zambia in the 1960s Nonetheless this was at the expense of Barotseland as Kaunda s government had deliberately underdeveloped Barotseland after independence whilst harassing and imprisoning Barotse activists for decades After 1991 successive governments continued to apply Kaunda s methods The book contends that Zambia in its present form is an illegal state because the Barotseland Agreement was abrogated by Kaunda in 1969 This treaty was meant to amalgamate the former British Protectorates of Barotseland and Northern Rhodesia to form Zambia in 1964

Citizenship in Motion Hazama, Itsuhiro,Umeya, Kiyoshi,2019-04-22 Anthropological reflections on citizenship focus on themes such as politics ethnicity and state management Present day scholarship on citizenship tends to problematise unsettle and contest often taken for granted conventional connotations and associations of citizenship with imagined culturally bounded political communities of rigidly controlled borders This book the result of two years of research conducted by South African and Japanese scholars within the framework of a bilateral project on citizenship in the 21st century contributes to such ongoing efforts at rethinking citizenship globally and as informed by experiences in Africa and Japan in particular Central to the essays in this book is the concept of flexible citizenship predicated on a recognition of the histories of mobility of people and cultures and of the shaping and reshaping of places and spaces and ideas of being and belonging in the process

The book elucidates the contingency of political membership relationship between everyday practices and political membership and how citizenship is the mechanism for claiming and denying rights to various political communities. Self requires others to construct itself a reality that is subject to renegotiation as one continues to encounter others in a world characterised by myriad forms of interconnecting mobilities both global and local. Citizenship is thus to be understood within a complex of power relationships that include ones formed by laws and economic regimes on a local scale and beyond. Citizenship in Africa, Japan and indeed everywhere is best explored productively as lying between the open ended possibilities and tensions interconnecting the global and local.

Coping with Evil in Religion and Culture, 2008-01-01

The various Christian, Muslim, traditional African and secular Western ways of imagining and coping with evil collected in this volume have several things in common. The most crucial, perhaps and certainly the most striking aspect is the problem of defining the nature or characteristics of evil as such. Some argue that evil has an essence that remains constant whereas others say its interpretation depends on time and place. However, much religious and secular interpretations of evil may have changed the human search for sense and meaning never ends. Questions of whom to blame and whom to address: God, the devil, fate, bad luck or humans remain at the center of our explanations and our strategies to comprehend, define, counter or process the evil we do and the evil done to us by people, God, nature or accident. Using approaches from cultural anthropology, religious studies, theology, philosophy, psychology and history, the contributors to this volume analyze how several religious and secular traditions imagine and cope with evil.

The Liberation of the African Mind Adisa Franklin, 2004-11-02

The Liberation of the African Mind: The Key to Black Salvation is a strong book written to the millions of African Americans who have had their history distorted by the Church and public schools. Because of these distortions, Black people are estranged and alienated from their culture and the wisdom of their ancestors. The book challenges African Americans to begin to think for themselves especially in the realm of religion. It is a prophetic book with a revolutionary perspective. It is prophetic in that it points to the direction the Black Church must take to effectively address the spiritual needs of the Black community. It is revolutionary because it challenges the Church and believers to establish a new paradigm, an African Spiritual frame of reference. The Black Church must transform itself and take on a new view of the scriptures, doctrines and dogmas of Christendom. This book documents the fact that what Blacks have been given as Christianity is in reality stolen African mythology, cosmology and history that has been corrupted by Roman and Greek priest, philosophers and emperors. It is one of the most powerful challenges to Orthodox Christianity to date. The Truth will liberate you from their strong delusions. While there is indeed some positive and beneficial aspects to Church membership, it is time for the Black Church to make its exodus from the Western religious way of faith in God to the African spiritual way of knowledge of God. Black Pastors and religious leaders must begin to teach that which will bring about the manifestation of the fullness of Christ. This is the charge given to all church leadership by the Bible: they teach from And He Himself gave some to be apostles, some prophets, some evangelists, some

pastors and teachers for the equipping of the saints for the work of the ministry for the edifying of the body of Christ till we all come to the unity of the faith and the knowledge of the Son of God to be a perfect man to the measure of the stature of the fullness of Christ Ephesians 4 11 13 There are far too many Babes in Christ in the Church It is not the fault of the believers but a reflection of corrupted doctrines and false dogmas In addition the unity of the Black Church must become a priority Not one church or believer can say they have no need of the rest of the Body of Christ in good conscience Yet unity in the Black Church is more a rhetorical than an actual reality Imagine what could be done if the wealth of the Church was combined to establish a super fund Unity must be at the top of the agenda for the Black Church and for the Black community Lastly though we have the proverbial church on every corner there is an undeniable spiritual crisis in the Black community The Liberation of the African Mind The Key to Black Salvation makes the Spiritual Resurrection of the Black man a valid goal and priority It will challenge many long held beliefs and dogmas however Christendom must be examined and that which is not of God must be abandoned Not since Marcus Garvey Fredrick Douglas and the Honorable Elijah Muhammad have Blacks questioned the validity or efficacy of Christianity Mr Muhammad made an attempt to make Blacks aware that Christianity was the religion of the people who had enslaved them Every race worships God in a way that is peculiar to their culture Since the days of captivity Blacks have worshiped the god of their conquerors and oppressors Worshipping a White man as God is not only a form of idolatry but extremely detrimental to the Black Psyche The Negroland Revisited Pekka Masonen,2000
