North Carolina And The New Deal:

New Deal Art in North Carolina Anita Price Davis, 2008-11-12 As the people and economy of the United States struggled to recover during the Great Depression 42 towns in North Carolina would benefit directly from the 83 million the federal government allocated for public art as part of the New Deal The result was some of the state's most memorable murals sculptures reliefs paintings oils and frescoes most of which were installed in post offices and courthouses This book is the only record of all of the North Carolina public art works under the program It provides in depth accounts of the works themselves and the artists who created them Photographs of all of the buildings that originally received the art the works themselves and almost all of the 41 artists are provided An appendix describes federal art projects 1933-1943 There are detailed footnotes an extensive bibliography and an index **Conservative Constraints** Douglas Carl Abrams, 1992

New Deal / New South Anthony J. Badger, 2007-06-01 The twelve essays in this book several published here for the first time represent some of Tony Badger's best work in his ongoing examination of how white liberal southern politicians who came to prominence in the New Deal and World War II handled the race issue when it became central to politics in the 1950s and 1960s Franklin Roosevelt in the 1930s thought a new generation of southerners would wrestle Congress back from the conservatives The Supreme Court thought that responsible southern leaders would lead their communities to general school desegregation after the Brown decision John F Kennedy believed that moderate southern leaders would with government support facilitate peaceful racial change Badger's writings demonstrate how all of these hopes were misplaced Badger shows time and time again that moderates did not control southern politics Southern liberal politicians for the most part were paralyzed by their fear that ordinary southerners were all too aroused by the threat of integration and were reluctant to offer a coherent alternative to the conservative strategy of resistance Prosperity Road Anthony J. Badger, 1980 This study is the first to trace a single Agricultural Adjustment Administration commodity program and to assess the impact of a major New Deal program in North Carolina The freezing of tobacco growing brought prosperity to the growers but little benefit to the small and tenant farmer Given the problems that affected both AAA policy making and implementation the New Deal's choice lay not between a limited or a radical program but between the limited program or none at all A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *The Second Red Scare and the Unmaking of the New Deal Left* Landon R.Y. Storrs, 2013 The loyalty investigations triggered by the Red Scare of the 1940s and 1950s marginalised many talented women and men who had entered government service during the Great Depression seeking to promote social democracy as a means to economic reform Their influence over New Deal policymaking and their alliances with progressive labour and consumer movements elicited a powerful reaction from conservatives who

accused them of being subversives Landon Storrs draws on newly declassified records of the federal employee loyalty program created in response to fears that Communists were infiltrating the U S government to reveal how disloyalty charges were used to silence these New Dealers and discredit their policies Because loyalty investigators rarely distinguished between Communists and other leftists many noncommunist leftists were forced to leave government or deny their political views Storrs finds that loyalty defendants were more numerous at higher ranks of the civil service than previously thought and that many were women or men with accomplished leftist wives Uncovering a forceful left feminist presence in the New Deal she shows how opponents on the Right exploited popular hostility to powerful women and their effeminate spouses The loyalty program not only destroyed many promising careers it prohibited discussion of social democratic policy ideas in government circles narrowing the scope of political discourse to this day Through a gripping narrative based on remarkable new sources Storrs demonstrates how the Second Red Scare undermined the reform potential of the New Deal and crippled the American welfare state Jacket

The Life and Death of the Solid South Dewey W. Grantham, 2021-10-21 Southern style politics was one of those peculiar institutions that differentiated the South from other American regions This system long referred to as the Solid South embodied a distinctive regional culture and was perpetuated through an undemocratic distribution of power and a structure based on disfranchisement malapportioned legislatures and one party politics It was the mechanism that determined who would govern in the states and localities and in national politics it was the means through which the South s politicians defended their region s special interests and political autonomy The history of this remarkable institution can be traced in the gradual rise long persistence and ultimate decline of the Democratic Party dominance in the land below the Potomac and the Ohio This is the story that Dewey W Grantham tells in his fresh and authoritative account of the South s modern political experience The distillation of many years of research and reflection is both a synthesis of the extensive literature on politics in the recent South and a challenging reinterpretation of the region s political history
