Not in Front of the Audience Nicholas de Jongh, 1992-03-26 First published in 1992 Routledge is an imprint of Taylor Francis an informa company Not in Front of the Audience Nicholas de Jongh, 1992-03-26 Not in Front of the Audience is a pioneering and important study of a neglected terrain examining the way in which the theatres of London and New York have reflected contemporary social and cultural attitudes to gay men and homosexuality In the 1920s and 1930s the theatre represented homosexuals as either corrupt or morally pitiful During the Cold War under the influence of McCarthyism homosexuality was perceived as not only morally reprehensible but also politically dangerous and the theatre dutifully reflected such perceptions Until 1958 direct discussion or depiction of homosexuality was banned from the stage in Britain But by the late 1960s the theatres of London and New York had begun to confront the issue of heterosexual prejudice and its devastating impact upon the lives of gay men and lesbians In the wake of the AIDS epidemic the author concludes the representation of homosexuality in the theatre has again become an urgent and highly charged issue *John Osborne* Luc Gilleman, 2014-02-04 For British playwright John Osborne there are no brave causes only people who muddle through life who hurt and are often hurt in return This study deals with Osborne s complete oeuvre and critically examines its form and technique the function of the gaze its construction of gender and the relationship between Osborne s life and work Gilleman has also traced the evolution of Osborne s reception by turning to critical reviews at the beginning of each chapter *An Encyclopedia of Swearing* Geoffrey Hughes, 2015-03-26 This is the only encyclopedia and social history of swearing and foul language in the English speaking world It covers the various social dynamics that generate swearing foul language and insults in the entire range of the English language While the emphasis is on American and British English the different major global varieties such as Australian Canadian South African and Caribbean English are also covered A Z entries cover the full range of swearing and foul language in English including fascinating details on the history and origins of each term and the social context in which it found expression Categories include blasphemy obscenity profanity the categorization of women and races and modal varieties such as the ritual insults of Renaissance flyting and modern sounding or playing the dozens Entries cover the historical dimension of the language from Anglo Saxon heroic oaths and the surprising power of medieval profanity to the strict censorship of the Renaissance and the vibrant modern language of the streets Social factors such as stereotyping xenophobia and the dynamics of ethnic slurs as well as age and gender differences in swearing are also addressed along with the major taboo words and the complex and changing nature of religious sexual and racial taboos
