Nuclear Energy Debate Justin Healey, 2012-01-01 The debate over the introduction of nuclear power in Australia has recently become more heated in light of safety concerns over the nuclear reactor meltdown emergency in Japan Australia has also just committed to a carbon trading scheme to address its reliance on coal fired energy and reduce greenhouse emissions With 40% of the world's uranium located in Australia the economic environmental and health considerations are significant This book contains an overview of global nuclear energy use and production and presents a range of current opinions debating the pros and cons of Australia's expanded involvement in the nuclear power industry Should Australia build nuclear reactors for its domestic power supply How environmentally sustainable is nuclear energy what are the costs and how safe is the storage of radioactive waste How does nuclear power compare to alternative sources of energy What safeguards are there to ensure nations who purchase Australian uranium use it for electricity generation and not for nuclear weapons Also includes Worksheets and activities Fast facts Glossary Web links Index

Nuclear Safety, 1978 India's Nuclear Bomb and National Security Karsten Frey, 2007-01-24 Karsten Frey gives an analytic account of the dynamics of India's nuclear build up putting forward a new comprehensive model which goes beyond the classic strategic model of accepting motives of arming behaviour and incorporates the dynamics in India's nuclear programme

Nuclear Neighbourhoods J. Richard Eiser, Joop Pligt, Russell Spears, 1995 This divergence reflects the importance and value which supporters and opponents attach to different aspects of the issues and different consequences of any development A very important consideration is people's trust in the competence and commitment of industry and government to manage and prevent the risks of accidents

The Nuclear Power Debate Scott Fenn, 1981 **Japan's Remilitarisation** Christopher W. Hughes, 2017-10-03 Is Japan on a path towards assuming a greater military role internationally or has the recent military normalisation ground to a halt since the premiership of Junichiro Koizumi In this book Christopher W Hughes assesses developments in defence expenditure civil-military relations domestic and international military-industrial complexes Japan's procurement of regional and global power projection capabilities the expansion of US-Japan cooperation and attitudes towards nuclear weapons constitutional revision and the use of military force In all of these areas dynamic and long term changes outweigh Japan's short term political logjam over security policy Hughes argues that many post war constraints on Japan's military role are still eroding and that Tokyo is moving towards a more assertive military role and strengthened

USJapan cooperation Japans remilitarisation will boost its international security role and the dominance of the USJapan alliance in regional and global security affairs but will need to be carefully managed if it is not to become a source of destabilising tensions

Arms Control Kenneth W. Thompson, 1990 Many of the world's most influential policy makers and analysts view arms control as a scientific and technological problem They tend to ignore the human and qualitative aspects of power This book shifts the emphasis to elements bound up in the moral political and historical lessons of the nuclear age Non quantitative factors have been central to studies of national defense and military power since the rise of the modern nation state system One purpose of this collection of papers is to redirect attention to the moral political and historical lessons that the nuclear age presents What most distinguishes the writings of contributors to this volume is their use of certain well established principles and concepts long acknowledged in military and foreign policy analysis

The Rhetoric of Antinuclear Fiction Patrick Mannix, 1992 Given the ever present threat of world wide calamity that nuclear weapons present it is not surprising that they have fascinated fiction writers and filmmakers ever since their development Nor is it surprising that many of these artists would seek to use their work to influence mass opinion about these weapons What may be surprising is that few studies have been made of how antinuclear fiction actually attempts to persuade its audiences The Rhetoric of Antinuclear Fiction is an effort to do so Organized around the three traditional modes of rhetorical appeal the ethical the rational and the emotional the book describes and classifies the persuasive strategies of a wide range of antinuclear fiction from the period 1945 to 1989 Works examined include On the Beach Fail Safe A Canticle for Leibowitz Dr Strangelove The Day After War Day Testament Threads and Riddley Walker During the course of these studies Patrick Mannix reveals what sorts of fictional characters have been most widely used to deliver antinuclear messages and he follows the major arguments of the nuclear debate as they have been reflected in fiction He also shows which emotions are invoked most often to secure the audience's opposition to nuclear weapons and how those emotions have been generated by the creators of antinuclear fiction The range of characters that this volume examines includes the pacifistic but loyal Air Force general of Fail Safe the pious but shrewd monks of A Canticle for Leibowitz the suburban housewife of Threads and even the computer of War games which teaches humanity the folly of nuclear war We also follow fictional manifestations of the nuclear debate from veiled arguments for world government in The Day the Earth Stood Still through warnings of the dangers of Mutual Assured Destruction depicted by Fail Safe Dr Strangelove and Wargames to attacks on the concepts of limited nuclear war and the Strategic Defense Initiative in War Day This study also demonstrates the dynamic of fear in works as diverse as Ape and Essence The Day After and Them and dissects the powerful use of scorn in Dr Strangelove It also shows us the paradoxical role of hope in securing the effectiveness of antinuclear fiction While maintaining his focus on the persuasive nature of this literature Mannix does consider the aesthetic value of the fiction he studies noting that the relationship between the two elements is complex and often problematical While admitting that the aesthetic elements of

some works would limit their audience and therefore reduce the scope of their rhetorical effect he demonstrates how the skillful combination of artistic and rhetorical elements raises a film like *Dr Strangelove* above the similarly themed *Fail Safe* as both a persuasive act and an aesthetic artifact
