Lewis, 2001-01-01 Comprehensive reference work introducing readers to the field of feminist economics It addresses key concepts as well as feminist economic critiques and reconstructions of major economic theories and policy debates *From Corporate Globalization to Global Co-operation* Tom Webb, 2016-10-20T00:00:00Z This book is about the need for an alternative to capitalism But what does that alternative look like And given the ever increasing wealth and power of the 1 percent and the fact that corporations are given carte blanche to turn natural resources into profit is an alternative possible Tom Webb argues that a massive shift to social enterprise primarily co operatives is required More than 250 million people around the world work for co operatives and co operatives impact the lives of three billion people This model reduces almost every negative impact of capitalism it is a model that works Webb outlines the principles co operatives need to hold to if they are to be a successful alternative to capitalism and examines the public policy changes needed to nurture such a transition but he remains neither wildly optimistic nor unduly pessimistic A better world is possible but it is not inevitable

Remaking Scarcity Costas Panayotakis, 2011-09-12 The dominant schools of neoclassical and neoliberal economics tell us that material scarcity is an inevitable product of an insatiable human nature Against this Costas Panayotakis argues that scarcity is in fact a result of the social and economic processes of the capitalist system The overriding importance of the logic of capital accumulation accounts for the fact that capitalism is not able to make a rational use of scarce resources and the productive potential at the disposal of human society Instead capitalism produces grotesque inequalities and unnecessary human suffering a toxic consumerist culture that fails to satisfy and a deepening ecological crisis *Remaking Scarcity* is a powerful challenge to the current economic orthodoxy It asserts the core principle of economic democracy that all human beings should have an equal say over the priorities of the economic system as the ultimate solution to scarcity and ecological crisis *The Global Social Policy Reader* Yeates, Nicola, Holden, Chris, 2009-06-19 This text collects together a comprehensive range of key papers by international leaders in the field from a wide range of sources that explain the

concepts actors and processes that constitute global social policy **Global Activism Reader** Luc Reydam, 2011-01-13

Frederickson, Olga Sanmiguel-Valderrama, 2018-12-07 This volume considers how women are shaping the global economic landscape through their labor activism and multiple discourses about work Bringing together an interdisciplinary group of international scholars the book offers a gendered examination of work in the global economy and analyses the effects of the 2008 downturn on women's labor force participation and workplace activism The book addresses three key themes exploitation versus opportunity women's agency within the context of changing economic options and women's negotiations and renegotiations of unpaid social reproductive labor This uniquely interdisciplinary and comparative analysis will be crucial reading for anyone with an interest in gender and the post crisis world *A Modern Reader in Institutional and Evolutionary Economics* Geoffrey Martin Hodgson, European Association for Evolutionary Political Economy, 2002-01-01 In the 1990s institutional and evolutionary economics emerged as one of the most creative and successful approaches in the modern social sciences This timely reader gathers together seminal contributions from leading international authors in the field of institutional and evolutionary economics including Eileen Appelbaum Benjamin Coriat Giovanni Dosi Sheila C Dow Bengt ke Lundvall Uskali M ki Bart Nooteboom and Marc R Tool The emphasis is on key concepts such as learning trust power pricing and markets with some essays devoted to methodology and others to the comparison of different forms of capitalism An extensive introduction places the contributions in the context of the historical and theoretical background of recent developments in economics and the social sciences Essential reading for lecturers researchers graduates and advanced undergraduates in economics business studies and sociology this diverse yet complementary collection of essays will also find a broad readership amongst those wanting to understand the manifest changes apparent within modern socio economic systems
