For Business Owners Finally you have this once in lifetime opportunity to get your hands on the video marketing tools and what one group finds engaging and interesting another may not So it s important for businesses to understand what demographic they are targeting so they get the marketing just right for them But businesses don t have to go to such trouble when they re using video marketing because video marketing reaches every demographic and is interesting to every demographic And this is because men and women and people of every age love video As long as it s interesting and creative people will like a video regardless of their background or history This can be a bonus for businesses that know who their demographic is simply because more people will share it and like it even if they don t make up part of the business demographic But it s also especially good news for businesses with a shifting demographic or for those that don t know how makes up their demographic That happens sometimes when a business changes directions or changes their product or service slightly and then they have to start back at square one with their marketing efforts But when a business has already created videos as part of their marketing plan they don t have to change a thing because those videos will already be suitable for every demographic Imagine one type of marketing that appeals to every single demographic It seems too good to be true but it s not That type of marketing is video marketing and reaching every demographic is just one very good reason why every business should be investing in it
