The series of biannual international conferences ANTS International Conference on Ant Colony Optimization and Swarm Intelligence now in its sixth edition was started ten years ago with the organization of ANTS 98. As some readers might recall the first edition of ANTS was titled ANTS 98 From Ant Colonies to Artificial Ants First International Workshop on Ant Colony Optimization. In fact at that time the focus was mainly on ant colony optimization ACO the first swarm intelligence algorithm to go beyond a pure scientific interest and to enter the realm of real world applications. Interestingly in the ten years after the first edition there has been a growing interest not only for ACO but for a number of other studies that belong more generally to the area of swarm intelligence. The rapid growth of the swarm intelligence field is attested by a number of indicators. First the number of submissions and participants to the ANTS conferences has steadily increased over the years. Second a number of international conferences in computational intelligence and related disciplines organize workshops on subjects such as swarm intelligence ant algorithms ant colony optimization and particle swarm optimization. Third IEEE started organizing in 2003 the IEEE Swarm Intelligence Symposium in order to maintain unity in this growing field we are currently establishing a cooperation agreement between IEEE SIS and ANTS so as to have 1 IEEE SIS in odd years and ANTS in even years. Last the Swarm Intelligence journal was born.
