Realigning Interests M. Chang, 2016-02-10 Why do currency crises happen What conditions set the stage for such a crisis How severe will it be When will it happen This book answers these questions illustrating the points by examining the exchange rate realignments of the European Monetary System It also shows how balancing the tension between domestic and international politics plays a vital part in a government's willingness to uphold its exchange rate commitments Michele Chang pays particular attention to the role of domestic elections since these may prevent governments from credibly committing to a fixed exchange rate and from responding quickly and coherently to market instability thus encouraging speculation

Power Politics, Banking Union and EMU Shawn Donnelly, 2018-03-28 This book examines the politics of Banking Union and EMU reform in the EU and draws lessons for what it means for international politics both in Europe and for international relations more broadly It demonstrates that most of the reforms in Europe to break free of the Eurozone and banking crises in which Europe continues to find itself focus on building up the capacities of national authorities rather than European ones The result is that national authorities remain largely in control of the decisions and funds that are to be deployed to prevent economic disaster if a single EU bank fails The likely outcome is an accelerated balkanization of the European market for the foreseeable future The book also contends that power politics and realism in particular is a defining feature of European politics with coercion and enforced national responsibility at the demand of Germany the dominant form

of institution building that established the responsible sovereignty model and shut down the possibility of alternatives In making this case the book demonstrates that the dominant view in international relations that power politics best explains the behaviour of states also apply to the EU This text will be of key interest to scholars and students of the Eurozone crisis EU politics economic policy and more broadly to political economy public policy and international relations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
