Realism and Hope in a Nuclear Age Kermit D. Johnson,1988

The Realist Hope Christopher J. Insole,2016-02-24

Taking into consideration analytical continental historical post modern and contemporary thinkers Insole provides a powerful defence of a realist construal of religious discourse Insole argues that anti realism tends towards absolutism and hubris Where truth is exhausted by our beliefs about truth there is no conceptual space for doubting those beliefs only a conception of truth as absolute given and accessible can guarantee the very humility sense of fallibility and sensitivity to difference that the anti realist rightly values Cutting through some of the tired and well rehearsed debates in this area Insole provides a fresh perspective on approaches influenced by Wittgenstein Kant and apophatic theology The defence of realism offered is unusual in being both analytically precise and theologically sensitive with a view to some of the wider and less well explored cultural ethical and political implications of the debate

Movement Genesis Steven Breyman,2019-03-07 To make sense of the rise and fall origins and nature of the 1980s West German peace movement requires work that is part political sociology and part social movement theory building An analysis of the peace movement s organizations leadership strategy goals tactics and mobilization comprises the political sociology part of this study To un

Christians and Nonviolence in the Nuclear Age Gerard Vanderhaar,2013-08-28 Christians and Nonviolence in the Nuclear Age presents a constructive personal response that individuals can make to the challenge posed by nuclear weapons It outlines a positive nonviolent alternative to war This alternative can be practiced in one s own personal life and extended into the arena of international relations The book assesses the terrible realities of the Nuclear Age and sophisticated weapons systems in light of the biblical teachings about idolatry Then it presents the life of Jesus as a model upon which women and men of good will can pattern a lifestyle of nonviolence Christians and Nonviolence in the Nuclear Age proposes a new vision of self country and the world that measures up to the demands of the times In light of that vision the book suggests specific actions individuals and groups can take to change the course of our world from self destruction to mutual understanding and cooperation

The Hope And Vision Of J. Robert Oppenheimer Michael A Day,2015-09-15 Michael Day s insightful philosophical biography of J Robert Oppenheimer stands out from other works on the so called father of the atomic bomb by its focus on the post war period and by the depth of its philosophical engagement with his humanistic thought on science and culture Centaurus ReviewIncorporating elements from history science philosophy and international relations theory this book takes a fresh look at the life and thought of Robert Oppenheimer The author argues that not only are Oppenheimer s ideas important engaging and relevant but also more coherent than generally assumed He makes a convincing case that Oppenheimer has much to say about 21st century issues and his voice should be brought back into the public forum The book recovers and reconstructs what Oppenheimer said and wrote during the 1940s 50s and 60s i e his

hope and vision with the goal of identifying what might be of general philosophical interest today It considers not only Oppenheimer s thought but also his life using philosophical ideas developed by contemporary philosophers In addition to deepen and broaden the discussion and demonstrate the relevance of Oppenheimer s vision for the present the author analyzes his views using contemporary international relations theory with a special emphasis on nuclear nonproliferation and disarmament This examination reveals ways in which Oppenheimer s reasoning was prescient of current work being carried out to control and possibly move beyond the nuclear revolution

Ethics and Counterrevolution Kermit D. Johnson,1997 This book is an ethical critique of U S policy and involvement in counterrevolutionary war It rejects the thesis that the end of the Cold War means the end of revolution since revolution is grounded in root causes The defining characteristics of revolutionary war are outlined based on thought ranging from Mao Tse tung to modern counterinsurgency theorists to recent U S national security directives and military publications Underlying doctrines for U S interventions are traced from the Monroe Doctrine and the Roosevelt Corollary to Kennedy s Counterinsurgency Doctrine and the Nixon Doctrine From previous U S war fighting experience and declaratory policy an outline of national policy and strategy for counterinsurgency emerges This policy has been a formula for winning wars not revolutions The book advocates the adoption of a modest political Hippocratic oath of Do no harm and argues that civilizational demilitarization and the root causes for revolution are necessary for the building of true democracy

Nuclear Realism Rens van Munster,Casper Sylvest,2016-04-14 What is a realist response to nuclear weapons This book is animated by the idea that contemporary attempts to confront the challenge of nuclear weapons and other global security problems would benefit from richer historical foundations Returning to the decade of deep thermonuclear anxiety inaugurated in the early 1950s the authors focus on four creative intellectuals G nther Anders John H Herz Lewis Mumford and Bertrand Russell whose work they reclaim under the label of nuclear realism This book brings out an important oppositional and resolutely global strand of political thought that combines realist insights about nuclear weapons with radical proposals for social and political transformation as the only escape from a profoundly endangered planet Nuclear Realism is a highly original and provocative study that will be of great use to advanced undergraduates graduates and scholars of political theory International Relations and Cold War history
