in the Post-Truth World Mita Marra, Karol Olejniczak, Arne Paulson, 2024-04-16 Evaluation in the Post Truth World explores
the relationship between the nature of evaluative knowledge the increasing demand in decision making for evaluation and
other forms of research evidence and the post truth phenomena of antiscience sentiments combined with illiberal tendencies
of the present day Rather than offer a checklist on how to deal with post truth the experts found herein wish to raise
awareness and reflection throughout policy circles on the factors that influence our assessment and policy related work in
such a challenging environment Journeying alongside the editor and contributors readers benefit from three guiding
questions to help identify specific challenges but tools to deal with such challenges How are policy problems conceptualized
in the current political climate What is the relationship between expertise and decision making in today s political
circumstances How complex has evaluation become as a social practice Evaluation in the Post Truth World will benefit
evaluation practitioners at the program and project levels as well as policy analysts and scholars interested in applications of
evaluation in the public policy domain Chapters 6 and 11 of this book are freely available as a downloadable Open Access
