David Hatcher Childress

Reality Revealed The Theory Of Multidimensional Reality:

Reality Revealed Douglas B. Vogt, Gary Sultan, 1978 **The Theory of Multidimensional Reality** Douglas B. Vogt, 2015-12 The Theory of Multidimensional Reality is the latest development of this information theory of existence by the Author The book applies the theory to explain what causes light gravity time Planck's constant and other phenomena found in physics The Theory provides a foundation philosophy for all of science to explain some of the hardest phenomenon found

The Time Travel Handbook David Hatcher Childress, 1999 An authoritative chronicling of real life time travel experiments teleportation devices and more **Anti-Gravity and the Unified Field** David Hatcher Childress, 1998-03 Explored here is how gravity electricity and magnetism manifest from a unified field around us why artificial gravity is possible secrets of UFO propulsion free energy Nikola Tesla and anti gravity airships of the 20s and 30s flying saucers as superconducting whirls of plasma anti mass generators vortex propulsion government cover ups gravitational pulse drive spacecraft and more True Stories of Strange Events and Odd People Lawrence S. Bartell, 2014 Lawrence Bartell experienced many strange events over the course of his long life at least partly because he deliberately strayed far from the beaten path in science While it might not have been the most efficient way to gain a reputation in his field it was more fun In his memoir he presents a collection of entertaining sometimes bizarre stories collected over a lifetime Bartell chronicles a wide variety of experiences such as his predisposition to indulge in childhood pranks his arrest as a possible Russian spy his work on the Manhattan Project his entry into the Guinness Book of Records his stint in the US Navy during wartime and his appointment as visiting professor in Moscow during the height of the Cold War As he recalls the curious and often bizarre true stories he acquired over a lifetime it soon becomes evident that scientists are just as human as anyone else and that beer really can play an important role in preparing one for a PhD thesis True Stories of Strange Events and Odd People shares details from a scientist's one of a kind journey through life as he observes the world around him tests his theories and learns valuable life lessons **Gaia Luminous** Kiara Windrider, 2023-08-19 this is the most comprehensive book on planetary shift I have ever read The physical realities cosmic perspectives and dynamics involved are all addressed Rapid climate changes galactic and solar cycles volcanism ice ages and magnetic reversals are touched upon in a rich and concise way Gaia Luminous goes to the very heights and depths of what this great change is all about Barry Martin Snyder Birthing the Luminous Self This remarkable book showcases Kiara's extraordinary ability to integrate summarize and structure a vast range of topics from deeply spiritual teachings to the latest discoveries in science Kiara brilliantly and eloquently connects the dots and presents clear and practical solutions for these complex and precarious times Yves Nager Find your Life Purpose For those who are consciously aware of the challenging implications of these times and seek both cosmic perspectives and spiritual guidance Gaia Luminous is an invaluable resource of scholarly and balanced investigation combined with profound personal experience Simon Peter Fuller Rising out of Chaos Kiara Windrider serves up a full course

of scientific inquiry evolutionary thinking and sacred insights from a wide variety of traditions This thrilling read feeds our sense of the possible and activates our commitment to a bold new vision for humanity James O Dea The Conscious Activist

Deeksha Kiara Windrider, Grace Sears, 2009 The Future of the Body Michael Murphy, 1993-04-21 In the oral and written histories of every culture there are countless records of men and women who have displayed extraordinary physical mental and spiritual capacities In modern times those records have been supplemented by scientific studies of exceptional functioning Are the limits of human growth fixed Are extraordinary abilities latent within everyone Is there evidence that humanity has unrealized capacities for self transcendence Are there specific practices through which ordinary people can develop these abilities Michael Murphy has studied these questions for over thirty years In The Future of the Body he presents evidence for metanormal perception cognition movement vitality and spiritual development from more than 3 000 sources Surveying ancient and modern records in medical science sports anthropology the arts psychical research comparative religious studies and dozens of other disciplines Murphy has created an encyclopedia of exceptional functioning of body mind and spirit He paints a broad and convincing picture of the possibilities of further evolutionary development of human attributes By studying metanormal abilities under a wide range of conditions Murphy suggests that we can identify those activities that typically evoke these capacities and assemble them into a coherent program of transformative practice A few of Murphy s central observations and proposal include The observation that cultural conditioning powerfully shapes or extinguishes metanormal capacities The proposition that we cannot comprehend our potentials for extraordinary life without an empirical approach that involves many fields of inquiry and different kinds of knowing The notion that a widespread realization of extraordinary capacities would constitute an evolutionary transcendence analogous to the rise of humankind from its primal ancestry The proposal that all or most instances of significant human development are produced by a limited number of identifiable activities such as disciplined self observation visualization of desired capacities and caring for others The idea that a balanced development of our various capacities is possible through integrated practices In The Future Of The Body Murphy states that such practices can carry forward Earth s evolutionary adventure and lead humanity to the next step in its development

Imagery--current Theory, Research, and Application Anees A. Sheikh, 1983 THE MIND OF GOD REVEALED: Hindu Wisdom Holds the Key to the Modern Science Dr. Surendra Dass, 2025-07-19 The Mind of God Revealed is a bold and visionary exploration that bridges the timeless wisdom of ancient Hindu philosophy with the revolutionary frontiers of modern science In this groundbreaking work Dr Surendra Dass challenges conventional boundaries between science and spirituality revealing how the two may be deeply intertwined aspects of the same cosmic truth Are we truly free beings or biological machines bio robots following a pre coded script Drawing from neuroscience and artificial intelligence the book introduces the Bio Robot Hypothesis suggesting that much of human behaviour operates like an algorithm But who is the programmer Hindu philosophy offers an answer describing the human body as a yantra machine

guided by Atman the eternal consciousness Through compelling correlations between the Brahmanda Purana and the Big Bang the concept of karma as a cosmic algorithm and the striking parallels between quantum physics and Vedic cosmology the book reveals a profound and unified understanding of reality Ideas like reincarnation parallel universes and the illusion of free will are examined through both scientific insight and spiritual perspective The Mind of God as revealed in this book is not the God of dogma or mythology It is not a deity seated on a celestial throne dictating the fate of mortals It is the intelligence that breathes life into existence the silent force that weaves together matter and thought reality and illusion It is the grand design glimpsed by both ancient sages in their deepest meditations and modern physicists in their most intricate ca
