Really Reading Gertrude Stein A Selected Anthology With Essays By Gertrude Stein:

Really Reading Gertrude Stein Gertrude Stein, Judy Grahn, 1989 **Encyclopedia of the American Short Story**

Abby H. P. Werlock, 2015-04-22 Two volume set that presents an introduction to American short fiction from the 19th century to the present **The True Story of Alice B. Toklas** Anna Linzie, 2006-04 In this original and intriguing study Anna Linzie

examines three mid twentieth century texts never before treated as interrelated in a book length work of literary criticism Gertrude Stein's *The Autobiography of Alice B. Toklas* 1933 and Alice B. Toklas's *The Alice B. Toklas Cook Book* 1954 and *What Is Remembered* 1963 Taking these three texts as intertexts or as an assemblage of the true story of Alice B. Toklas Linzie challenges assumptions about primary authorship and singular identity that have continued to limit lesbian and feminist rereadings of autobiography as a genre and of Stein and Toklas as writers and historical figures *The True Story of Alice B. Toklas* explores how the concept of autobiography as a primarily referential genre is challenged and transformed in relation to autobiographical texts written about the same person the same life but differently by different writers at different points in time The concept of one true story is deconstructed in the process as Linzie modifies Homi K. Bhabha's almost the same but not quite not white for the purposes of this particular study as almost the same but not quite not straight The investigation moves simultaneously on the planes of textuality and sexuality in order to provisionally articulate a lesbian autobiographical subject in Linzie's reading of these three texts Linzie's study fills a gap in literary criticism where Stein's companion and her work have been more or less neglected conceptualizing the Stein-Toklas sexual textual relationship as fundamentally reciprocal *The True Story of Alice B. Toklas* provides a new critical perspective on Toklas as indispensable to Stein's literary production a cultural laborer in her own right and a writer of her own books Making a significant contribution to recent lesbian feminist reconceptualizations of the genre of autobiography this study will fascinate Stein and Toklas scholars as well as those interested in queer and autobiography studies **The Palgrave Handbook of Literature and**

Mathematics Robert Tubbs, Alice Jenkins, Nina Engelhardt, 2020-12-30 This handbook features essays written by both literary scholars and mathematicians that examine multiple facets of the connections between literature and mathematics These connections range from mathematics and poetic meter to mathematics and modernism to mathematics as literature Some chapters focus on a single author such as mathematics and Ezra Pound Gertrude Stein or Charles Dickens while others consider a mathematical topic common to two or more authors such as squaring the circle chaos theory Newton's calculus or stochastic processes With appeal for scholars and students in literature mathematics cultural history and history of mathematics this important volume aims to introduce the range fertility and complexity of the connections between mathematics literature and literary theory Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com <http://link.springer.com> **The Routledge Encyclopedia of Jewish Writers of the**

Historicity of Experience Krzysztof Ziarek, 2001-08-30 In this groundbreaking volume Krzysztof Ziarek rethinks modern experience by bringing together philosophical critiques of modernity and avant garde poetry Ziarek explores through selective readings of avant garde poetry the key aspects of the radical critique of experience technology everydayness event and sexual difference To that extent The Historicity of Experience is less a book about the avant garde than a critique of experience through the avant garde Ziarek reads the avant garde in dialogue with the work of some of the major critics of modernity Martin Heidegger Walter Benjamin Jean Fran ois Lyotard and Luce Irigaray to show how avant garde experiments bear critically on the issue of modern experience and its technological organization The four poets Ziarek considers Gertrude Stein Velimir Khlebnikov Miron Biaoszewski and Susan Howe demonstrate the broad reach of and variety of forms taken by the avant garde revision of experience and aesthetics Moreover this quartet illustrates how the main operative concepts and strategies of the avant garde underpinned the practices of canonical writers A profound philosophical meditation on language modernity and the everyday The Historicity of Experience offers a fundamental reconceptualization of the avant garde in relation to experience Roots and Routes: Poetics at New College of California Patrick James Dunagan, Marina

Lazzara, Nicholas James Whittington, 2020-10-06 Roots and Routes gathers essays talks interviews statements notes and other prose writings by poets who studied and or taught at the New College of California s Masters in Poetics program over the course of its nearly 30 year existence The collection evokes a much needed anti hierarchical even anarchic pedagogy in poetry poetics and the literary arts and is part of a general reevaluation of standard higher education models on Creative Writing As such it will appeal to a wide range of students and scholars interested in America s recent literary history as well

as to poets outside the academy and the general reader interested in US poetry and poetics **The Last Good Land**

Eugenio Suárez-Galbán, 2011-01-01 Books studying the presence of Spain in American literature and the possible influence of Spain and its literature on American authors are still rare In 1955 appeared a pioneer work in this field Stanley T Williams The Spanish Background of American Literature But that book went no further than W D Howells Familiar Spanish Travels published in 1913 The Last Good Land covers most of the twentieth century including such groups as the Lost Generation and African American writers and exiles It also considers then recent revolution in Spanish cultural and historical thought introduced by Am rico Castro which several American writers discussed in this volume may be said to have anticipated Recent studies have expanded on Williams volumes but in the majority of cases these works limit their scope to a single period the nineteenth century the Spanish Civil War a movement predominantly Romanticism or authors known for their interest in Spain Irving Hemingway The result is often a lack of continuum or the exclusion of such authors as Saul Bellow William Gaddis or Richard Wright Within American literature itself The Last Good Land contains revisions of traditional interpretations of certain writers including Hemingway The variety of authors treated both in respect to ethnicity and gender guarantees a varied and global view of Spanish culture by American writers
