Really Spring:

Really Spring Gene Zion, Margaret Bloy Graham, 1956 It was time for Spring to come but the city was still gray and bare so the people decided to bring Spring on themselves

365 Bedtime Stories Mary Graham Bonner, 2022-11-24 A collection of brief stories coordinated with the actual events in a calendar year Excerpt Just because it was the first day of the year commenced daddy and because parties were about the nicest things in the world to the mind of a little girl named Ella her mother decided to give her one It certainly does seem like the first of the year or the first of something said Ella It s a new day a new year and we have new toys and new games We are even going to have supper out of new dishes For among the presents Santa Claus had brought to Ella was a fine set of dishes They were pink and white and there were six cups and saucers six little plates a teapot sugar bowl and cream jug It was really a very complete set

Showtime Pat Leahy, 2009-08-27 In boom and in bust Ireland has been led by Fianna F il Showtime gets behind the party s remarkable dominance of the political landscape and leading political writer Pat Leahy tells the gripping story of how it won kept and has used power since the mid 1990s Showtime explains how Fianna F il operated during the boom years from November 1994 when Bertie Ahern assumed leadership of a battered party expecting to become Taoiseach but instead finding himself cast into opposition to the day he relinquished the party leadership on the brink of the bust For a decade after it achieved power in 1997 Fianna F il led the government during an unprecedented economic boom and enjoyed riches beyond the wildest dreams of any previous administration Showtime reveals how government really worked in these years the favours the grudges the backroom deals the political strokes the policy compromises and the choices that have led the country to where it is today Showtime is politics in the raw the exciting enlightening and sometimes disturbing story of a remarkable era that changed the face of modern Ireland

My Garden (Book) Jamaica Kincaid, 2025-09-23 One of our finest writers on one of her greatest loves Jamaica Kincaid s first garden in Vermont was a plot in the middle of her front lawn There to the consternation of more experienced friends she planted only seeds of the flowers she liked best In My Garden Book she gathers all she loves about gardening and plants and examines it generously passionately and with sharp idiosyncratic discrimination Kincaid s affections are matched in intensity only by her dislikes She loves spring and summer but cannot bring herself to love winter for it hides the garden She adores the rhododendron Jane Grant and appreciates ordinary Blue Lake string beans but abhors the Asiatic lily The sources of her inspiration seed catalogues the gardener Gertrude Jekyll gardens like Monet s at Giverny are subjected to intense scrutiny She also examines the idea of the garden on Antigua where she grew up My Garden Book is an intimate playful and penetrating book on gardens the plants that fill them and the persons who tend them

Sprinter and Sprummer Timothy Entwisle, 2014-09-01 Sprinter and Sprummer challenges the traditional four seasons and encourages us to think about how we view changes in our natural world Since 1788 Australia has carried the yoke of four European seasons that make no sense in most parts of the country We may like them for

historical or cultural reasons or because they are the same throughout the world but they tell us nothing of our natural environment It s time to reject those seasons and to adopt a system that brings us more in tune with our plants and animals a system that helps us to notice and respond to climate change Using examples from his 25 years working in botanic gardens author Timothy Entwisle illustrates how our natural world really responds to seasonal changes in temperature rainfall and daylight and why it would be better to divide up the year based on what Australian plants do rather than ancient rites of the Northern Hemisphere Sprinter and Sprummer opens with the origins and theory of the traditional seasonal system and goes on to review the Aboriginal seasonal classifications used across Australia Entwisle then proposes a new five season approach explaining the characteristics of each season along with the biological changes that define them The book uses seasons to describe the fascinating triggers in the life of a plant and plant like creatures using charismatic flora such as carnivorous plants the Wollemi Pine and orchids as well as often overlooked organisms such as fungi The final chapter considers climate change and how the seasons are shifting whether we like it or not
