Realms of Philosophy William S. Sahakian, Ph. D.,1974 **Realms of Philosophy** William S. Sahakian,Mabel Lewis Sahakian,1981-01-01 *The Realm of Essence* George Santayana,1927 *The Realm of Essence* George Santayana,2013-10 This is a new release of the original 1927 edition **Realms of Being** George Santayana,1942

COLLECTED SUPERNOTES John O'Loughlin,2022-03-16 With his Collected Supernotes author John O Loughlin has combined on a highly abstract basis material derived from the independently published titles *Devil and God* *The Omega Book* *From Materialism to Idealism Towards the Supernoumenon* *Elemental Spectra* *Critique of Post Dialectical Idealism* *Philosophical Truth Veritas Philosophicus* and *Last Judgements* which span the period 1985 93 with a view to bringing some kind of strict chronology to bear on a series of writings dubbed supernotational to distinguish them from essays on the one hand and aphorisms on the other thereby allowing him to establish a kind of intermediate position between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate so he believes with Supertruth and ultimately with a kind of plateau of aphoristic purism A Centretruths Editorial **Metaphorical Metaphysics in Chinese Philosophy** Derong Chen,2011-08-16 In *Metaphorical Metaphysics in Chinese Philosophy* Illustrated with Feng Youlan s *New Metaphysics* Derong Chen examines Chinese philosophy through a critical analysis of Feng Youlan s new metaphysics He views metaphysics in Chinese philosophy as a metaphorical metaphysics separate from Western metaphysics In examining the historical influences and contemporary reaction to Feng s work he identify s Feng s system as the continuation of the Chinese philosophical tradition This approach is most applicable to scholars of comparative philosophy and Chinese philosophy *Collected Supernotational Writings Vol.I* John O'Loughlin,2022-03-18 In Volume 1 of a projected two volume philosophy project author John O Loughlin has combined the titles *Devil and God* *From Materialism to Idealism Towards the Supernoumenon* and *Elemental Spectra* all of which date from the mid late 1980s with a view to bringing some kind of strict chronology to bear on a series of writings that he dubs supernotational to distinguish them from essays on the one hand and strictly aphoristic or maximistic material on the other hand thereby treading a kind of half way path between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate so he believes with Supertruth and ultimately a kind of plateau of aphoristic purism A Centretruths Editorial *Rosicrucian Christianity* Max Heindel,1909 *The Philosophical Review* Jacob Gould Schurman,James Edwin Creighton,Frank Thilly,Gustavus Watts Cunningham,1914 An international journal of general philosophy *The Realm of Matter* George Santayana,1937 **Ruminations: Selected Philosophical, Historical, and Ideological Papers: Volume 1, Part 1, The Infinite** Eric v.d. Luft,2019-06-14 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers 1 philosopher writer teacher historian of the long nineteenth century 1789 1914 2 editor translator photographer publisher biographer encyclopedist 3

cataloging librarian rare books and special collections librarian historian of medicine Somehow these three vocations have garnered me some acclaim even an entry in Who's Who in America Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works The Secret of Swedenborg Henry James, 1869 **George**

Santayana's Philosophy of Religion Edward W. Lovely, 2012-09-28 George Santayana 1862-1952 of Spanish descent and generally claimed to be in the canon of American philosophers was substantially influenced by his Roman Catholic origins in his philosophical disposition toward the value of tradition religious symbols and dogma His philosophical project sustained a respectful attitude toward the spiritual value of orthodox religion while the thrust of his philosophy was naturalistic and materialistic throughout There is a perception by some scholars that Santayana's philosophy evolved from a humanistic perspective to a more spiritual one in his later years It is the position of this thesis that his philosophy at the core depicting a harmonious striving toward individual happiness remained essentially consistent from his earliest publication of *Interpretations of Poetry and Religion* and *The Life of Reason* through his later works of *Scepticism* and *Animal Faith* *Realms of Being* *Dominations and Powers* and *The Idea of Christ in the Gospels* Santayana's philosophical approach is both phenomenological and social constructionist in its methodology significantly preempting the methodology of social constructionist theology and a post modern interpretation of religion His idiosyncratic phenomenological approach is compared with a benchmark methodology of Edmund Husserl the generally accepted founder of the phenomenological method There are also important similarities between Santayana's phenomenological approach and those of Charles Sanders Peirce and Alfred North Whitehead The basis for the comparison of the phenomenological methodology of Santayana and Husserl is their mutually similar fundamental theory of intuited essence Santayana's contribution to religious studies is not only philosophical but also theological where he has utilized Christian theological language in transposing and interpolating his philosophy of religion to the Christian drama of the salvational Christ Santayana's essay *Ultimate Religion* reflects his perspective of a disillusioned but still spiritual vision incorporating the piety discipline and spirituality of a life of reason Within the framework of this model Santayana's philosophy of religion is developed and explored Finally the relevance of Santayana's philosophy of religion to contemporary religious studies and selected religious issues is addressed with a delineation and discussion of some important aspects of his philosophical vision **The Realm of Spirit** George
