Reason And Religious Knowledge An Approach For Latterday Saints:

Americanist Approaches to The Book of Mormon Elizabeth Fenton, Jared Hickman, 2019-07-18 As the eponymous sacred text of a modern religious movement of global reach The Book of Mormon has undeniable historical significance That significance this volume shows is inextricable from the intricacy of its literary form and the audacity of its historical vision This landmark collection brings together a diverse range of scholars in American literary studies and adjacent fields to definitively establish The Book of Mormon as an indispensable object of Americanist inquiry not least because it is among other things a form of Americanist inquiry in its own right a creative critical reading of America **A ^A Documentary History of the Book of Mormon** , 2019-01-09 A Documentary History of the Book of Mormon transcribes and annotates a wide variety of primary source documents related to the origins of the long ridiculed narrative that launched a new world religion *Method Infinite: Freemasonry and the Mormon Restoration* Cheryl L. Bruno, Joe Steve Swick III, Nicholas S. Literski, 2022-08-09 While no one thing can entirely explain the rise of The Church of Jesus Christ of Latter day Saints the historical influence of Freemasonry on this religious tradition cannot be refuted Those who study Mormonism have been aware of the impact that Freemasonry had on the founding prophet Joseph Smith during the Nauvoo period but his involvement in Freemasonry was arguably earlier and broader than many modern historians have admitted The fact that the most obvious vestiges of Freemasonry are evident only in the more esoteric aspects of the Mormon faith has made it difficult to recognize let alone fully grasp the relevant issues Even those with both Mormon and Masonic experience may not be versed in the nineteenth century versions of Masonry s rituals legends and practices Without this specialized background it is easy to miss the Masonic significance of numerous early Mormon ordinances scripture and doctrines *Method Infinite* Freemasonry and the Mormon Restoration offers a fresh perspective on the Masonic thread present in Mormonism from its earliest days Smith s firsthand knowledge of and experience with both Masonry and anti Masonic currents contributed to the theology structure culture tradition history literature and ritual of the religion he founded **The ^AOxford Handbook of the Bible in America** Paul Gutjahr, 2017-11-01 This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible s role in American cultural formation *If the Keystone Is Removed* Samuel Hesman, 2025-02-28 In *If the Keystone Is Removed* Samuel Hesman offers a thoughtful evangelical review of the Church of Jesus Christ of Latter Day Saints the LDS Church examining its essential doctrines and the history of its founding With clarity and compassion Hesman explores the claims of the LDS Church such as the divine origin of the Book of Mormon the authority of its prophets and its distinct teachings about God salvation and the afterlife Hesman carefully contrasts these doctrines with the teachings of evangelical Christianity This book is not a polemic but an invitation to reflection and dialogue It seeks to equip both LDS and evangelical readers with a set of tools to better examine and understand their faiths Whether a Christian wanting to strengthen one s

theological foundation an LDS reader curious about evangelical perspectives or someone seeking an incisive overview of the LDS Church from an evangelical perspective If the Keystone Is Removed offers a compelling journey through the core truths of faith inviting all readers to consider the question What remains when the keystone is removed *Mormonism: A Guide for the Perplexed* Robert L. Millet, Shon D. Hopkin, 2015-11-19 Mormonism A Guide for the Perplexed explains central facets of the Mormon faith and way of life for those wishing to gain a clearer understanding of this rapidly growing world religion As The Church of Jesus Christ of Latter day Saints continues to grow in the United States and especially in other countries with a total membership of over 15 million more than 50% of which is outside the US and as theologians and church leaders wrestle with whether Mormonism is in fact a valid expression of modern Christianity this distinctive religious tradition has become increasingly an object of interest and inquiry This book is the ideal companion to the study of this perplexing and often misunderstood religion Covering historical aspects this guide takes a careful look at the whole of Mormonism its tenets and practices as well as providing an insight into a Mormon life **Reasons of Identity** Avigail Eisenberg, 2009-08-27 The current legal and political context is perhaps more congenial than ever before to considering claims made by minorities for the protection of some aspect of their identity This book argues that diverse societies depend for their success on having courts and legislatures which are capable of assessing these identity claims in a fair and transparent manner Despite the ubiquity of these claims today how public decision makers assess minority identity claims in the course of decision making is only vaguely understood and mostly ignored in normative political theory and public policy analysis This book examines several key approaches used by national and international institutions to assess the identity claims of religious cultural and Indigenous minorities today It takes up the central challenges to the public assessment of identity claims which raise concerns about the incommensurability and questionable authenticity of such claims and about the risks of essentializing and domesticating the identities of the people who advance identity claims It develops a guide to aid in the fair assessment of identity claims which is grounded on the requirements that public institutions must respect what people claim is deeply important to their self understandings and ways of life without merely accepting such claims at face value or deferring to claimants in every case and public institutions must have the capacity to reflect on their own unfair biases The guide developed in this book aims at interrogating the strength of any identity claim on bases that are respectful of differences without being blinded by them Anglo-American Cultural Studies Jody Skinner, 2022-09-05 The third edition of Skinner s introduction to Anglo American cultural studies has been thoroughly revised to include Brexit Trump the pandemic and the war in Ukraine This standard textbook now includes new full color graphics as well as updated recommendations for further reading and watching at the end of each chapter Anglo American Cultural Studies refreshingly breaks with the tradition of dry impersonal summaries of facts and figures to provide German students with first hand experience of the personal tone and humor that can characterize academic discourse in Britain and the US **Controversies in Contemporary Religion**

Paul Hedges, 2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world. Written by a range of scholarly contributors, this three volume set provides contextual background information and detailed explanations of religious controversies across the globe. *Controversies in Contemporary Religion: Education, Law, Politics, Society and Spirituality* is a three volume set that addresses a wide variety of current religious issues, analyzing religion's role in the rise of fundamentalism, censorship, human rights, environmentalism, and sustainability, sexuality, bioethics, and other questions of widespread interest. Providing in depth context and analysis far beyond what's available in the news or online, this work will enable readers to understand the nature of and reasons for controversies in current headlines. The first volume covers theoretical and academic debates, the second looks at debates in the public square and ethical issues, while the third examines specific issues and case studies. These volumes bring detailed and careful debate of a range of controversies together in one place, including topics not often covered, for example, how religions promote or hinder social cohesion and peace, the relationship of religions to human rights, and the intersection of Buddhism and violence. Written by a range of experts that includes both established and emerging scholars, the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends.

Mormons and the Bible Philip L. Barlow, 2013-06-27 Philip L. Barlow analyzes the approaches taken to the Bible by key Mormon leaders from founder Joseph Smith up to the present day. This edition includes an updated preface and bibliography.

Discourses in Mormon Theology James M. McLachlan, Loyd Isao Ericson, 2007-01-01 A mere two hundred years old, Mormonism is still in its infancy compared to other theological disciplines: Judaism, Catholicism, Buddhism, etc. This volume will introduce its reader to the rich blend of theological viewpoints that exist within Mormonism. The essays break new ground in Mormon studies by exploring the vast expanse of philosophical territory left largely untouched by traditional approaches to Mormon theology. It presents philosophical and theological essays by many of the finest minds associated with Mormonism in an organized and easy to understand manner and provides the reader with a window into the fascinating diversity amongst Mormon philosophers. Open minded students of pure religion will appreciate this volume's thoughtful inquiries. These essays were delivered at the first conference of the Society for Mormon Philosophy and Theology.
