Christian Fathers Cyril Charles Richardson, 1953 **Strategic Rivalries in World Politics** Michael P. Colaresi, Karen Rasler, William R. Thompson, 2008-01-10 International conflict is neither random nor inexplicable It is highly structured by antagonisms between a relatively small set of states that regard each other as rivals Examining the 173 strategic rivalries in operation throughout the nineteenth and twentieth centuries this book identifies the differences rivalries make in the probability of conflict escalation and analyzes how they interact with serial crises arms races alliances and capability advantages The authors distinguish between rivalries concerning territorial disagreement space and rivalries concerning status and influence position and show how each leads to markedly different patterns of conflict escalation They argue that rivals are more likely to engage in international conflict with their antagonists than non rival pairs of states and conclude with an assessment of whether we can expect democratic peace economic development and economic interdependence to constrain rivalry induced conflict *The Morality of Nations* Cecil Delisle Burns, 1915 Understanding Rivalry and Its

Analyzing Strategic Rivalries in World Politics William R. Thompson,Kentaro Sakuwa,Prashant Hosur Suhas,2021-11-20 Strategic rivalries are contests between states that view one another as threatening competitors and treat each other as enemies A disproportionate amount of interstate conflict is generated by a relatively small number of these pairs of states engaged in rivalries that can persist for years Thus to understand interstate peace and conflict it is useful to know how rivalries work in general and more specifically In the past two decades a strenuous effort has been mounted to introduce the concept of rivalry and demonstrate its utility in unraveling conflict situations Yet all rivalries are not exactly alike We need to move to a more rewarding differentiation of how they differ in general Principal rivalries are those antagonisms that are most significant to the decision makers in a state The main distinction on issues about which rivals dispute are positional and spatial concerns Positional rivalries contend over regional and global influence Spatial rivals contend over which state deserves to control disputed territory Interventionary rivalries predominate in sub Saharan Africa Their primary focus involves neighboring states attempting to influence who rules and how co ethnics are treated This book updates the inventory of strategic rivalries from 1816 to 2020 Principal rivalries are identified for the first time and cover the

same period A theory stressing the two main types of rivalry positional and spatial is elaborated and tested Regional variations on the origins and terminations of spatial rivalry are explored and interpreted In addition attention is paid to fluctuations in the intensity of positional rivalries by examining the working of the contemporary major power triangle United States Soviet Union Russia and China and more generally the dynamics of regional power that are rising in terms of their relative capability and status in the system Variations in cooperation and termination dynamics both in general and according to rivalry type are also examined Overall the emphases of the book are split between demonstrating the utility of distinguishing among rivalry types and examining selected rivalry dynamics
