Reasoning, Learning, and Action Chris Argyris, 1992

Organizational Learning and Competitive Advantage Bertrand Moingeon, Amy Edmondson, 1996-08-13 In this volume contributors from the fields of both strategic management and organizational behaviour have been brought together to explore the relationship between organizational learning and competitive advantage In their editorial introduction Edmondson and Moingeon trace changes within the fields of strategy and organizational development that have encouraged a more integrative approach On the strategy side the emergence of the resource view of the firm has drawn attention to the importance of firm specific resources including knowledge and how it is acquired as sources of competitive advantage On the other hand organizational development practitioners have become increasingly interested in relating their traditional tasks more firmly to strategic business issues and concerns The topic of organizational learning can thus be seen as a bridge which is the intention of this volume to begin constructing between these two fields The papers presented in this book offer a rich variety of concepts frameworks and provocative ideas on organizational learning and its strategic implications In addition the theoretical presentations are often supported by reports of the results of original research in a number of companies Management Learning This book takes an important first step towards integrating theories of competitive advantage and organizational learning a rapprochement which can come none too soon for the management practitioner Peter Senge Director of the Center for Organizational Learning MIT Sloan School of Management USA Organizations need to develop learning strategies to survive and develop in increasingly uncertain and changing markets In this book researchers from Europe and the United States explore theories of strategic management and organizational behaviour to establish a link between learning processes and competitive advantage within a variety of organizational settings The diverse multidisciplinary approach takes an important step towards developing a new integrative theory of management

Handbook of Organizational Learning and Knowledge Meinolf Dierkes, 2003 In an era of far reaching changes organizational learning and knowledge creation are high on the agenda of social scientists managers and consultants worldwide as they seek to adapt to new environments The Handbook of Organizational Learning and Knowledge provides a comprehensive overview of how the concept of organizational learning emerged how it has been used and debated and where it may be going It summarizes the state of the art and provides a full account of the diverse approaches themes issues and debates of the field The handbook unites a distinguished team of international authors who examine both the central themes and key emerging issues The coverage extends beyond the American tradition to include the experiences of Europe Asia and the Middle East The book opens with chapters drawing insights from various social science approaches The following sections examine fundamental issues concerning the external triggers factors and conditions agents and processes of organizational learning Subsequent chapters review the subject within a global context looking in particular at processes of

Coaching the Team at Work David Clutterbuck,2011-03-04 A thorough and practical guide to coaching teams in the workplace

Crisis Management William Crandall,John A. Parnell,John E. Spillan,2013-03-20 Offering a strategic orientation to crisis management this fully updated edition of Crandall Parnell and Spillan s Crisis Management helps readers understand the importance of planning for crises within the wider framework of an organization s regular strategic management process This strikingly engaging and easy to follow text focuses on a four stage crisis management framework 1 Landscape Survey identifying potential crisis vulnerabilities 2 Strategic Planning organizing the crisis management team and writing the plan 3 Crisis Management addressing the crisis when it occurs and 4 Organizational Learning applying lessons from crises so they will be prevented or mitigated in the future The second edition

emphasizes the importance of managing both the internal landscape those stakeholders within the organization such as the employees owners and management and the external landscape those stakeholders outside of the organization such as the media customers suppliers general public government agencies and special interest groups *Workplace Learning* Nigel Paine, 2021-10-03 How can I develop an effective workplace learning culture to drive employee and business success This new edition of *Workplace Learning* provides the knowledge and tools to create an outstanding learning culture in the new world of work It s no longer enough for Learning and Development professionals to only offer a catalogue of workplace learning courses competing effectively in today s business environment requires organizations and their employees to adapt and learn daily Providing an evidence based model for identifying key areas of focus and measuring success *Workplace Learning* is a practical guide that shows how to build and embed a culture that continuously encourages and engages employees in learning and achieve business success The updated second edition features new material on organizational and self determined learning and case studies from Microsoft Novartis and PwC Packed with practical suggestions tools and tips *Workplace Learning* is an essential resource for establishing an outstanding continuous learning culture in all parts of the organization *Organizational Learning and the Learning Organization* Mark Easterby-Smith, Luis Araujo, John Burgoyne, 1999-04-16 The introduction chapter by Mark Easterby Smith and Luis Araujo introduces the reader to the unresolved issues with which the field is still grappling today All in all this is an interesting and useful book for both researcher and manager alike First and perhaps most importantly the book incorporates multiple perspectives on learning the psychological sociological and the philosophical Second the book is neither purely theory driven nor purely empirically driven Theoretical contributions are complemented by empirical studies which help to illustrate the application of the theoretical constructs I suspect that this would be of immense value to the practicing manager Finally the book provides a critical commentary on the state of the field in a nice compact way which should enhance its value to scholars in this area a book which is both useful and interesting *Organisational Studies* Most importantly the book incorporates multiple perspectives on learning the psychological sociological and the philosophical provides a critical commentary on the state of the field in a nice compact way which should enhance its value to scholars *Organization Studies* A valuable resource for academics and practitioners in management and corporate strategy as well as those involved in management training and development *European Foundation for Management Development* This is a particularly interesting and useful work because it combines some chapters which deal primarily in concepts or indeed theories and others which describe the experiences of trying to carry out the practices involved in creating both either organisational learning and or the learning organisation *Industrial and Commercial Training* The editors overall assessment is that there has been insufficient dialogue between the two camps of action research and theorizing As a contribution to mapping this divided house the text is an apt illustration of these problems The editor s overview is of interest Stephen Gibb University of Strathclyde MCB University Press The debates

surrounding concepts of organizational learning and the learning organization receive a welcome synthesis in this book. International experts explore the links between the two fields of enquiry which hitherto despite their intersecting concerns have represented separate constituencies, literatures and perspectives. The book provides a much needed integrated framework of concepts and theories which draws on current insights from management, cognition theories of knowledge and learning, management practice and work psychology.

Participatory Action Research Jacques M. Chevalier, Daniel J. Buckles, 2019-02-12. Fully revised and updated, this second edition of Participatory Action Research (PAR) provides new theoretical insights and many robust tools that will guide researchers, professionals and students from all disciplines through the process of conducting action research with people rather than for them or about them. PAR is collective reasoning and evidence based learning focussed on social action. It has immediate relevance in fields ranging from community development to education, health, public engagement, environmental issues and problem solving in the workplace. This new edition has been extensively revised to create a user friendly textbook on PAR theory and practice, including updated references and a comprehensive overview of different approaches to PAR, pragmatic psychosocial, critical, more emphasis on the art of process design, especially in complex social settings characterized by uncertainty and the unknown, developments in the use of Web2 collaborative tools and digital strategies to support real time data gathering and processing, updated examples and stories from around the world in a wide range of fields, critical commentaries on major issues in the social sciences including stakeholder theory, systems thinking, causal analysis, monitoring and evaluation, research ethics, risk assessment and social innovation. This modular textbook provides novel perspectives and ideas in a longstanding tradition that strives to reconnect science and the inquiry process with life in society. It provides coherent and critical treatment of core issues in the ongoing evolution of PAR, making it suitable for a wide range of undergraduate and postgraduate courses. It is intended for use by researchers, students and working professionals seeking to improve or rethink their approach to co-creating knowledge and supporting action for the well being of all.
