Rebel Daughters Women And The French Revolution:

Rebel Daughters Sara E. Melzer, Leslie W. Rabine, 1992-05-21 This interdisciplinary collection of essays examines the important and paradoxical relation between women and the French Revolution Although the male leaders of the Revolution depended on the women's active militant participation they denied to women the rights they helped to establish At the same time that women were banned from the political sphere woman was transformed into an allegorical figure which became the very symbol of masculine Liberty and Equality This volume analyzes how the revolutionary process constructed a new gender system at the foundation of modern liberal culture

Rebel Daughters Sara E. Melzer, Leslie W. Rabine, 2023 This study analyzes the ironic nature of the social treatment of women during the French Revolution While the allegorical figure of womanhood came to symbolize the virtues of the new French Republic the book describes how women in France were continually repressed and down trodden

Deviant Women of the French Revolution and the Rise of Feminism Lisa Beckstrand, 2009 Despite critical interest in the role of women in the French Revolution there is no single comprehensive study of the works of the two most prolific women writers of the period Olympe de Gouges and Manon Roland At a time when politicians were molding public policy concerning life liberty the pursuit of happiness and constituting criteria for citizenship increasing numbers of women in Paris were clamoring for rights New medical and philosophical theories redefining female nature were trotted out to justify women's continued exclusion from full political participation Such theories focused on the female body as the locus of women's intellectual inadequacies and promulgated the idea that women who acted outside of the confines of their physiological nature were considered desensitized and unfeminine *Deviant Women of the French Revolution and the Rise of Feminism* aims to uncover the work of those women who challenged prevailing views of female nature sought social reforms and were deemed deviant for their writing and or activism during the French Revolution Jacket

The Abbe Gregoire and the French Revolution Alyssa Goldstein Sepinwall, 2021-06-08 In this age of globalization the eighteenth century priest and abolitionist Henri Gr goire has often been called a man ahead of his time An icon of antiracism a hero to people from Ho Chi Minh to French Jews Gr goire has been particularly celebrated since 1989 when the French government placed him in the Pantheon as a model of ideals of universalism and human rights In this beautifully written biography based on newly discovered and previously overlooked material we gain access for the first time to the full complexity of Gr goire's intellectual and political universe as well as the compelling nature of his persona His life offers an extraordinary vantage from which to view large issues in European and world history in the late eighteenth and early nineteenth centuries and provides provocative insights into many of the prevailing tensions ideals and paradoxes of the twenty first century Focusing on Gr goire's idea of regeneration that people could literally be made anew Sepinwall argues that revolutionary universalism was more complicated than it appeared Tracing the Revolution's long term legacy she suggests that while it spread concepts of equality and liberation throughout the world its ideals also helped to justify

colonialism and conquest **The Sentimental Theater of the French Revolution** Cecilia Feilla, 2016-03-03 Smoothly blending performance theory literary analysis and historical insights Cecilia Feilla explores the mutually dependent discourses of feeling and politics and their impact on the theatre and theatre audiences during the French Revolution Remarkably the most frequently performed and popular plays from 1789 to 1799 were not the political action pieces that have been the subject of much literary and historical criticism but rather sentimental dramas and comedies many of which originated on the stages of the Old Regime Feilla suggests that theatre provided an important bridge from affective communities of sentimentality to active political communities of the nation arguing that the performance of virtue on stage served to foster the passage from private emotion to public virtue and allowed groups such as women children and the poor who were excluded from direct political participation to imagine a new and inclusive social and political structure Providing close readings of texts by among others Denis Diderot Collot d Herbois and Voltaire Feilla maps the ways in which continuities and innovations in the theatre from 1760 to 1800 set the stage for the nineteenth century Her book revitalizes and enriches our understanding of the significance of sentimental drama showing that it was central to the way that drama both shaped and was shaped by political culture *The Oxford Handbook of the French Revolution* David Andress, 2015-01-22 The Oxford Handbook of the French Revolution brings together a sweeping range of expert and innovative contributions to offer engaging and thought provoking insights into the history and historiography of this epochal event Each chapter presents the foremost summations of academic thinking on key topics along with stimulating and provocative interpretations and suggestions for future research directions Placing core dimensions of the history of the French Revolution in their transnational and global contexts the contributors demonstrate that revolutionary times demand close analysis of sometimes tiny groups of key political actors whether the king and his ministers or the besieged leaders of the Jacobin republic and attention to the deeply local politics of both rural and urban populations Identities of class gender and ethnicity are interrogated but so too are conceptions and practices linked to citizenship community order security and freedom each in their way just as central to revolutionary experiences and equally amenable to critical analysis and reflection This Handbook covers the structural and political contexts that build up to give new views on the classic question of the origins of revolution the different dimensions of personal and social experience that illuminate the political moment of 1789 itself the goals and dilemmas of the period of constitutional monarchy the processes of destabilisation and ongoing conflict that ended that experiment the key issues surrounding the emergence and experience of terror and the short and long term legacies for both good and ill of the revolutionary trauma for France and for global politics *A Letter to the Women of England and The Natural Daughter* Mary Robinson, 2003-01-02 Mary Robinson's *A Letter to the Women of England* 1799 is a radical response to the rampant anti feminist sentiment of the late 1790s In this work Robinson encourages her female contemporaries to throw off the glittering shackles of custom and to claim their rightful places as the social and intellectual

equals of men Separately published in the same year Robinson's novel *The Natural Daughter* follows the story of Martha Morley who defies her husband's authority adopts a found infant is barred from her husband's estate and is driven to seek work as an actress and author The novel implicitly links and critiques domestic tyrants in England and Jacobin tyrants in France This edition also includes other writings by Mary Robinson tributes and an excerpt from *The Progress of Liberty* writings by contemporaries on women society and revolution and contemporary reviews of both works

The Military Enlightenment Christy L. Pichichero, 2017-11-15 *The Military Enlightenment* brings to light a radically new narrative both on the Enlightenment and the French armed forces from Louis XIV to Napoleon Christy Pichichero makes a striking discovery the Geneva Conventions post traumatic stress disorder the military band of brothers and soldierly heroism all found their antecedents in the eighteenth century French armed forces Readers of *The Military Enlightenment* will be startled to learn of the many ways in which French military officers administrators and medical personnel advanced ideas of human and political rights military psychology and social justice

Feminism and the Politics of Travel after the Enlightenment Yaël Schlick, 2012-01-12 Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates *Feminism and the Politics of Travel After the Enlightenment* explores travel as a technology of gender It also investigates the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways With broad historical and theoretical understanding Yaël Schlick analyzes the intersections of travel and feminism in writings published during the late eighteenth and nineteenth centuries a period of intense feminist vindication during which women's very presence in the public sphere their access to education and their political participation were contentious issues Schlick examines the gendering of travel and its political implications in Rousseau's *Emile* and in works by Mary Wollstonecraft Stéphanie Félicité de Genlis Frances Burney Germaine de Staël Suzanne Voilquin Flora Tristan Gustave Flaubert and George Sand arguing that travel is instrumental in furthering diverse feminist agendas The epilogue alerts us to the continuation of the utopian strain of the voyage and its link to feminism in modern and contemporary travelogues by writers like Mary Kingsley Robyn Davidson and Sara Wheeler

Visualizing the Nation Joan B. Landes, 2018-08-06 Popular images of women were everywhere in revolutionary France Although women's political participation was curtailed female allegories of liberty justice and the republic played a crucial role in the passage from old regime to modern society In her lavishly illustrated and gracefully written book Joan B. Landes explores this paradox within the workings of revolutionary visual culture and traces the interaction between pictorial and textual political arguments Landes highlights the widespread circulation of images of the female body notwithstanding the political leadership's suspicions of the dangers of feminine influence and the seductions of visual imagery The use of caricatures and allegories contributed to the destruction of the masculinized images of hierarchic absolutism and to forging new roles for men and women in both the intimate and public arenas Landes tells the fascinating story of how the depiction of the nation as a

desirable female body worked to eroticize patriotism and to bind male subjects to the nation state Despite their political subordination women too were invited to identify with the project of nationalism Recent views of the French Revolution have emphasized linguistic concerns in contrast Landes stresses the role of visual cognition in fashioning ideas of nationalism and citizenship Her book demonstrates as well that the image is often a site of contestation as individual viewers may respond to it in unexpected even subversive ways

This Captivating World of Kindle Books: A Thorough Guide Unveiling the Advantages of Kindle Books: A World of Convenience and Versatility Kindle books, with their inherent mobility and simplicity of availability, have freed readers from the constraints of physical books. Gone are the days of lugging bulky novels or carefully searching for specific titles in shops.
