Reboot World:

American Reboot Will Hurd,2023-03-14 In American Reboot Hurd called the future of the GOP by Politico provides a detailed blueprint Robert M Gates Secretary of Defense 2006 2011 for America grounded by what Hurd calls pragmatic idealism a concept forged from enduring American values to achieve what is actually achievable The Worlds of J. R. R. Tolkien John Garth,2020-06-09 An illustrated journey into the life and imagination of one of the world s best loved authors Tolkien s Worlds provides a unique exploration of the relationship between the real and the fantastical and is an essential companion for anyone who wants to follow in Tolkien s footsteps **Building Imaginary Worlds** Mark J.P.

Wolf,2014-03-14 Mark J P Wolf s study of imaginary worlds theorizes world building within and across media including literature comics film radio television board games video games the Internet and more Building Imaginary Worlds departs from prior approaches to imaginary worlds that focused mainly on narrative medium or genre and instead considers imaginary worlds as dynamic entities in and of themselves Wolf argues that imaginary worlds which are often transnarrative transmedial and transauthorial in nature are compelling objects of inquiry for Media Studies Chapters touch on a theoretical analysis of how world building extends beyond storytelling the engagement of the audience and the way worlds are conceptualized and experienced a history of imaginary worlds that follows their development over three millennia from the fictional islands of Homer s Odyssey to the present internarrative theory examining how narratives set in the same world can interact and relate to one another an examination of transmedial growth and adaptation and what happens when worlds make the jump between media an analysis of the transauthorial nature of imaginary worlds the resulting concentric circles of authorship and related topics of canonicity participatory worlds and subcreation s relationship with divine Creation Building Imaginary Worlds also provides the scholar of imaginary worlds with a glossary of terms and a detailed timeline that spans three millennia and more than 1 400 imaginary worlds listing their names creators and the works in which they first appeared **World Building** Marta Boni,2025-10-01 Thanks to modern technology we are now living in an age of

multiplatform fictional worlds as television film the Internet graphic novels toys and more facilitate the creation of diverse yet compact imaginary universes which are often recognisable as brands and exhibit well defined identities This volume situated at the cutting edge of media theory explores this phenomenon from both theoretical and practical perspectives uncovering how the construction of these worlds influences our own determination of values and meaning in contemporary society **The Lost Peace** Richard Sakwa,2023-10-24 The end of the Cold War was an opportunity our inability to seize it has led to today s renewed era of great power competition 1989 heralded a unique prospect for an enduring global peace as harsh ideological divisions and conflicts began to be resolved Now three decades on that peace has been lost With war in Ukraine and increasing tensions between China Russia and the West great power politics once again dominates the world stage But could it have been different Richard Sakwa shows how the years before the first mass invasion of Ukraine

represented a hiatus in conflict rather than a lasting accord and how since then we have been in a Second Cold War Tracing the mistakes on both sides that led to the current crisis Sakwa considers the resurgence of China and Russia and the disruptions and ambitions of the liberal order that opened up catastrophic new lines of conflict This is a vital strongly argued account of how the world lost its chance at peace and instead saw the return of war in Europe global rivalries and nuclear brinkmanship
